

NTID
First Year Experiences Outcomes Assessment
Plan and Report for AY 2007-2008

Program Goal: Increase success & retention of first-year students

Critical Outcomes for all Students		Assessment of Outcomes		Timeline		Results	
Domain/Task/Capability	Performance Criteria/Benchmarks	Instrument/Opportunity	Assessment of Performance	Develop	Collect	Summarization of Results	Use of Results
1a. SVP Support students in their transition to college life	95% of SVP students will register for fall quarter courses	21-day report	n/a	Developed 2004	Collected annually fall quarter	2007 data reported over 99% success.	Since the 2008 SVP program will be essentially the same as the 2007 program, I will be deleting this outcome for next year.
1b. SVP Students will indicate satisfaction with the transition components of the SVP program	90% of SVP students will express satisfaction with SVP	SVP evaluation	Percent who answered "yes" to the question "Did SVP help you prepare for college life at NTID/RIT?"	Developed 2004	Collected annually fall quarter	Increased benchmark to 90% for 2007. 88% of 211 survey respondents reported satisfaction with SVP.	Since increasing benchmark from 80% to 90% in 2006, I would like repeat this level one more year (SVP 2008).
2a. FYE Support retention of first year students	90% of first-year NTID students registered for Freshman Seminar will successfully complete the course (Does not include students who withdrew or	Final grade report (limit to fall quarter when majority of students take this course)	Grade of "C" or higher in the FS course (does not include W grades)	Developed 2004	Collected every fall quarter.	87% of the 183 students who were registered for the course received a "C" grade or better.	Results are similar to 2006 (88%). We are approaching benchmark. Will monitor one more year to determine if benchmark

	were waived.)						is realistic. Discussions regarding the increase in students receiving "D" and "F" grades will occur in fall quarter instructor meetings. Strategies for identifying students at risk will be discussed.
2b. FYE Support retention of first year students	75% of first year students will return fall quarter of their second year	21-day report of fall quarter, second year	Full-time, second year students registered for fall-quarter courses (To be collected using the 21-day fall-quarter report)	Developed 2004	Collected every fall quarter.	75% of the 213 SVP 2007 students registered for courses the fall quarter of 2007.	This year, we met criterion level. We will continue to monitor.
3. NCXU Students: Provide career exploration activities to assist qualified students with declaring a major within 3 quarters	80 % of students will be accepted into a major within 3 quarters (Excludes students who leave or are suspended.)	Change of program application form	New program code	Developed 2004	Collected every fall quarter	75% of NCXU students were accepted into a major withing 3 quarters.	For the first time, our criterion level was not met. It is unclear as to why; however speculated that increased numbers of students. Assuming the number of NCXU students will increase even more next year, I will monitor

							this number to determine causes. (readiness vs program capacity conflict)
4a. Underprepared (Level A NCXU/NCXP) Students: Provide support to students completing prerequisite and introductory courses while preparing for acceptance into a major	75% of NCXU/NCXP students in Level A reading, writing &/or math will pass Level A coursework within 3 quarters. Includes students who withdrew (LOA) or were suspended.	Final grade reports : 0883-100 0883-101 0883-103 0884-100 0884-120	Grade of "D" or higher in Level A reading, writing &/or math.	Developed 2004	Collected annually since 2004	96% of students in Level A reading, writing &/or math passed withing 3 quarters.	No action needed.
4b. Underprepared (Level A NCXU/NCXP) Students: Provide support to students completing prerequisite and introductory courses while preparing for acceptance into a major	90% of NCXP students will be accepted into a major within their first 5 quarters at NTID. (Excludes students who leave or are suspended.)	Change of program application form	New program code	Developed 2004	Collected annually since 2004	96% of NCXP students were accepted within 5 quarters.	Discussions have not taken place to shorten At this time, will continue to monitor.
