Strategic Plan Progress

Dr. Ryne Raffaelle
Vice President for Research and Associate Provost

Academic Senate
November 3, 2016
DM II.1 “Signature Research Areas”

RIT will be internationally distinguished as a research university through its focus on and investment in specific inter- and trans-disciplinary research areas identified through a systematic and inclusive selection process.

**Signature Interdisciplinary Research Awards**

- Remote Sensing with UAVs
- Personalized Healthcare Technology
- Future Photonics Initiative
- Sociotechnological Approaches to Cyber Security
- Computational Relativity and Gravitation

*(see 2016 Spring RIT Research Magazine)*

RIT has awarded $1M over next five years in each of these areas.

Completed a series of tri-divisional meetings (Research, Government, Development) to put together the plans to grow these areas.
