Project Description

WXXI Public Broadcasting puts the community first with programming that stimulates and expands thought, inspires the spirit, opens cultural horizons and promotes understanding of diverse community issues. The Healthy Homes DVD project produced and distributed a DVD with the latest guidelines and hands-on techniques required to reduce pollution in the home. The DVD educates the general public, landlords, renters and homeowners in finding and eliminating health hazards caused by pollutants in the home. WXXI produced the DVD in accordance with a curriculum based on the partnership with the University of Rochester, Center for Environmental Health Services Center and the partner organizations of the Rochester Healthy Home project. Topics on the DVD include:

- Air Quality
- Asbestos
- Chemicals
- Lead
- Mold
- Pests
- Lead Awareness for Parents

Project Status

WXXI completed the Healthy Homes DVD and is providing copies for distribution. Many organizations have expressed interest in obtaining a copy of the DVD for their outreach offices. In addition, WXXI will provide YouTube videos for each topic, a radio talk show to discuss the importance of the issue of home pollutants and promote the DVD to teachers and families through WXXI education department events and newsletters.
