The Business Value of Improved Environmental Performance in Metal Finishing

A webinar for Owners, Managers and Executives in the metal finishing industry

FREE WEBINAR
Friday, April 11, 2014
11:00 AM

REGISTER HERE:
https://student.gototraining.com/r/8539813711651813632

Presented in partnership by the New York State Pollution Prevention Institute (NYSP2I) and the Toxics Use Reduction Institute (TURI), this webinar aims to discuss how improved environmental performance and sustainability are more than buzzwords.

Learn about how market expectations are evolving, both domestically and internationally, in the sustainability context and how actively participating in this trend has been shown to:

- Lower Costs
- Reduce Human Health Risks
- Meet “Green” Expectations In The Marketplace
- Improve Competitive Positioning

SPEAKERS

Marko Duffy, President of Marathon Manufacturing Services of Lawrence, MA
Marko is the most recent past president of the National Association of Metal Finisher’s - NE Chapter, a past president of the Boston Branch of the American Electroplaters and Surface Finisher’s, a member of the Boston Tooling and Machining Association and one of the directors of the NE Surface Finishing Regional Conference

Chris Capalbo, Vice President of Operations at New Method Plating Company, Inc., Worcester, MA
Chris presently serves on the Board of Directors as the National Director and Clerk of the National Association of Metal Finishers – New England Chapter (NAMF-NEC). Chris has been with New Method Plating Company since 1998, which was started by his grandfather in 1931. Chris works with his father Ralph and brother Nick as a third generation electroplater.
