

# New York State Pollution Prevention Institute (NYSP2I)

## **P2 Assessment Techniques and Tools: Introduction to Pollution Prevention Concepts**

### Course Description:

This workshop offers practical strategies and techniques to increase awareness of Pollution Prevention (P2) issues and prepare attendees to be more attuned to and skilled in, identifying P2 opportunities. The workshop will also provide an introduction into how P2 opportunities are characterized and prioritized. Specifically the workshop will include:

- An overview of P2 concepts
- Identifying P2 Opportunities
- Metrics and measuring results
- A review of practical examples
- How to integrate these concepts into your work
