Appendix B: 2nd-3rd Grade Survey Instrument
Student Audio Assent Advisory

Hello. My name is Nate. I am talking to you through this computer.

You are being asked to take part in a research study so that I can learn more about how children use computers.

I want to ask you some questions about how you use computers.

We want to know what you think and what you have to say, but you will not get anything for answering our questions. It will take you a short time, only about five minutes to answer all the questions.

Some of my questions might make you feel uncomfortable.

Your parents know about this study and it is okay to answer my questions.

But you can still decide not to answer any questions.

You can also decide to stop answering questions even if you have already started.

No one will be upset if you do not want to answer any of my questions or if you decide to stop answering questions. If you decide to stop, just raise your hand and let your teacher know.

You can ask your teacher any questions that you have about the study.

You may also ask your teacher about any of my questions while you are trying to answer them.

I will ask you to use the mouse to click on a picture or color on the screen.

Do you want to answer my questions?

If you do, use the mouse to click the green circle. If you do not, use the mouse to click the red square.
COMPUTER AND INTERNET USE SURVEY

First, I am going to ask you some questions about yourself. Put a circle around the word that answers the question.

1. Are you a boy or a girl?  boy   girl
2. How old are you?  6   7   8   9   10
