Dear RIT Alumni,

Thank you for the scholarship that was awarded to me on July 25, 2014. It is an honor to be recognized. This will be a big help in covering textbook and lab kit expenses for the upcoming semester. None of this could have been accomplished if it was not for your great generosity. Thank you again.

Sincerely,

Shane Coates

Dear RIT Alumni,

I am writing you to share my appreciation of your donation. The sacrifice you have made will greatly help me to continue my studies at RIT. Again thank you for your donation.

Thanks

Frank A Lane

Dear Professor Eastman,

I would like to thank you very much for this generous scholarship. It will go a long way to help pay for my books, and my education. It means a lot to me to be one of the top students in CAST.

Sincerely,

C. Gaetano Lowecey

Dear RIT Alumni,

I am honored to have received this scholarship, and would like to let you know that I appreciate it greatly. Some say that “hard work pays off” but it is not always apparent, this reward has reinforced just that and also will keep me motivated to continue to excel in my classes and later on in an occupation. I am very grateful to attend such a prestigious institute where everything exceeds my expectations; the facilities, the faculty, and the alumni.

Thank you once again,

Corey Pardee
Dear Alumni Donors,

I’d like to start by thanking all of the alumni that donated to make this scholarship possible. This was an amazing surprise to me and as I’m sure you’re all aware, also massively helpful. It’s really great to be rewarded for my hard work last year in this way. This scholarship will likely keep me from needing to take out additional loans for this semester which I am, needless to say, very excited about. It’s hard to thank everyone who donated enough, but I hope all the donors understand how much I appreciate their help.

Again, thank you so much!

Brian Kane

Dear Alumni donors:

I would like to express my deepest gratitude for the scholarship given to me. This financial support goes a long way in helping me with the financial burden of schooling, and I know this scholarship will help me to be a better student. It is much appreciated and I feel that it is a worthwhile investment. This financial support will help me achieve my goals and contribute to the engineering world.

Sincerely,

George Dederich

I would like to thank the alumni for their recognition in granting me a scholarship award. The award of the scholarship funds help in validating the effort put forth to succeed in the pursuit of a degree in Electrical Engineering Technology. This award will be beneficial to me and my family to assist in defraying the cost associated with higher level learning. The balance of school, work and family can be challenging and the award and recognition are greatly appreciated.

Michael A. Haskins

Dear Alumni

There is a tremendous difference in school environment between Taiwan and U.S.A. In Taiwan, we treat university as a place where you are able to get a diploma after years of study, and then, forget it after graduate. Where in USA, so far as I know, alumnae treat their mother school as honors and try their best to reward them. I am very grateful that I have the privilege attending RIT and studying hard to earn the chance being rewarded the alumni scholarship. For me, this money is not about how much but an honor to me. Thank you for your reward and I will keep studying hard to make RIT proud.

Kuanju Chen
Dear Alumni,

My name is Jeffrey Gurbaki, and I am a third year Computer Engineering Technology student at the Rochester Institute of Technology. I have been awarded the Alumni Scholarship. I am extremely grateful to receive this scholarship. As you all most likely know, any additional money while attending college is helpful.

I will be using the scholarship money for my textbooks and the lab kits needed for this fall semester. This will help me immensely because I usually pay for those materials with money out of pocket. Sometimes as a student there are times where it seems like you are working so very hard, and it seems to take a while for everything to work out and that is why this award is so important to me. It is motivational, liberating and exciting to see that hard work and dedication truly do pay off.

I would just like to express my extreme gratitude for having received this scholarship. I am very thankful and honored to accept this scholarship.

Sincerely,

Jeffrey Gurbaki

Dear Professor Eastman and ECTET Alumni,

Thank you for another generous scholarship gift. I appreciate the recognition the ECTET department gave the hard work that I put forward over the last years and plan to give the same effort the rest of my years at RIT, my coop, and in my future career. This award will go a long way in paying for textbooks, lab supplies, and other on-campus expenses.

My first two years in the ECTET program at RIT has been a fantastic experience. I have learned a lot both in my classes and in the RIT community. This next year I am looking forward to the experience I will acquire in my upcoming coop in the spring. In the future I hope that I can do well enough to be considered for this award again.

Also I would like to say thank you to the Alumni whose generous donations help support me and other students alike in our studies.

Sincerely,

Josef DeHaan
