The RIT masters and PhD programs in Astrophysical Sciences and Technology provide students a comprehensive curriculum and a broad range of research opportunities.

Faculty regularly obtain data from the most advanced facilities in the world and have 62 funded research projects, offering immediate research opportunities.

Opportunities for research include Stellar, Galactic, and Extragalactic Astrophysics as well as the Center for Computational Relativity and Gravitation (CCRG) and the Rochester Imaging Detector Laboratory (RIDL).

How to Apply:
Applications can be submitted online: www.rit.edu/cos/astrophysics/
