

## Colloquium

Friday September 22, 2006

1:00-2:00pm Room 08-2355

---

# **MATHEMATICS AS A LANGUAGE, AND ITS INTERACTIONS WITH PHYSICS**

V.V. Raman

Emeritus Professor of Physics, RIT

In this talk, Emeritus Professor V. V. Raman will explore the ramifications of describing Mathematics as a language. He will discuss the similarities and differences between mathematics and other languages. The talk will also include examples of how mathematics has enriched physics and vice versa, and the philosophical implications of this. He will cite some historical references in this context.

The talk should be of interest to students and teachers of mathematics, physics, and engineering.
