COORDINATOR FACULTY POSITION IN GRADUATE CITY SCIENCE AT RIT DUBAI

RIT Dubai is currently seeking applications from exceptional candidates for a full-time position to coordinate and actively engage with teaching in a new unique program launching at RIT Dubai. The program is a graduate degree (MS) in Professional Studies with concentration in City Science. The degree is created for innovative leaders to foster specialized skills in various areas of “smart cities” such as security and safety, transportation, communication and big data technologies, energy, water and environment, economic services, governance, infrastructure, and urban planning. It was created through active collaboration and interaction among several international and local academic and industrial entities. RIT Dubai is looking for a highly qualified, motivated and enthusiastic individual to be a positive addition to a prospering American university campus in the UAE. Responsibilities include managing the logistics of launching the program, coordinating the details among all the constituencies effectively liaising among them, handling the academic activities including accreditation requirements, teaching some of the offered courses, engaging in course development, offering professional graduate advising, and engaging in professional service activities (committees, professional societies, and other leadership activities).

Individuals who will be on sabbatical or interested in a visiting position are also welcome to apply. The selected faculty is expected to start on January 24, 2016 in Dubai.

REQUIRED QUALIFICATIONS:

- Ph.D. degree from an accredited university in a field that is core to smart city technologies and sciences including urban design and planning, environment and sustainability, renewable energy, computer information technologies, society and governance, or economy and business.
- Ability to teach undergraduate and graduate courses
- Must demonstrate interest in pursuing research
- Excellent communications skills

PREFERRED QUALIFICATIONS:

- Academic leadership experience
- Previous teaching experience
- Practical industrial experience in the broad field of smart city science
