

# **Job and Internship Guide**

## **North Carolina State University**

---

In a collaborative effort, the University Career Center and the Office of Student Media at North Carolina State University worked to publish the 2007-2008 Job and Internship Guide.

The guide was written and edited by the Career Center staff, the layout, design and photography was performed by a student editor from the Office of Student Media and the directors of both the Career Center and the Office of Student Media worked to gain advertisements and oversee the project.
