

MASTER OF BUSINESS ADMINISTRATION

PROGRAM OVERVIEW FOR EMPLOYERS

The Master of Business Administration (MBA) degree program provides students with the capabilities for strategic and critical thinking needed for effective leadership in a global economy. The MBA curriculum goes beyond the theoretical to the applied, with an emphasis on concepts, skills, and techniques that are immediately applicable to the workplace. Students take a basic core of course work in the disciplines of management, marketing, operations, economics, statistics, finance, accounting, and strategy. These are followed by advanced elective courses, some of which are directed toward an area of concentration. A concentration is a sequence of four courses in a specialized area, thus giving students a more in depth knowledge in that particular field.

Degree(s) Awarded

Master of Business Administration (MBA)
Master of Business Administration – Accounting
MS in Finance
MS in Management
MS in Innovation Management

Enrollment

Approximately 190 full-time students and 176 part-time students enrolled

Cooperative Education Component

An optional cooperative education experience at the graduate level in addition to professional skills workshops further develop the interpersonal skills and career objectives of students. Cooperative education is a tradition at RIT, and the MBA program provides opportunities for students to enrich quarters spent in class with quarters spent at full-time work.

Co-op students are able to work 3-6 months.

RIT's E. Philip Saunders College of Business has formed mutually beneficial partnerships with employers who share our vision and values. Their requirements are reflected in our educational programs and in our commitment to preparing students for cooperative education experiences and ultimately their professional career.
