Whether you are a candidate seeking undergraduate or graduate admission, we welcome and encourage you to learn more about the university and the many distinctive values RIT offers you. You’ll benefit from top-ranked academic programs, world-famous emphasis on career preparation, esteemed faculty, and our focus on the balance of teaching and research. Take advantage of our 200-year history as a university connected to business and industry and our safe, modern residential campus featuring cutting-edge technologies.

At RIT, you will find a dynamic balance of problem solvers, researchers, innovators, inventors, techies, artists, creators, builders, thinkers, entrepreneurs, and dreamers who make the impossible possible through their academic endeavors. We hope you’ll join RIT’s inspired, unique, proud, and passionate student body of approximately 15,000 undergraduates and 3,000 graduate students. We encourage you to apply today!

As the Director of International Student Services, I work with more than 2,200 intelligent, creative, and talented international students on campus, including 800 students from India. India is just one of more than 100 countries represented in RIT’s international student body.

RIT’s Indian students not only play an integral and important role in the dynamics of the international student community, but also enhance and enrich the experience of all RIT students, faculty, and staff. My staff and I look forward to welcoming you to campus and assisting with your needs throughout your academic career at RIT. www.rit.edu/studentaffairs/iss/

Manasi Mananjrekar
‘10 BFA (industrial design)

International exposure, inspiration, opportunity, growth, knowledge, possibilities: for me, these are the gifts I received from RIT. The amazing campus and Rochester served as my home away from home for four years and will remain my America “home town” for life. Like me, you’ll have incredible faculty and mentors whom you’ll remember all your life, friends from around the world, and to top it all, you will have a rock-solid platform to launch yourself into the world and into a successful career. Strive for the best and apply to RIT today! Go Tigers!
WHATEVER YOUR PASSION, YOU CAN MASTER IT AT RIT.

RIT is a place where brilliant minds assemble and collaborate, where they pool together their individual talents across disciplines in service of big projects and big ideas.

It is a vibrant community teeming with students collaborating with experts and specialists: a hub of innovation and creativity. It is an intersection of disciplines, a launching pad for a brilliant career, and a highly unique state of mind.

It is a perfect environment in which to pursue your passion. Here, the future is envisioned each day. And remade each day after.

Imagine the possibilities.
Engaging — Innovative — Experiential

You will be challenged to unlock your potential and hone your strengths and abilities. You will gain the confidence to push yourself toward new horizons. We encourage you to explore all that RIT has to offer.

Reputation & Rankings
Among the nearly 4,000 colleges and universities in the U.S., RIT ranks in the top 4 percent for selectivity and is considered one of America’s top comprehensive universities, as well as a “best value” university according to U.S. News & World Report. The university annually receives top recognition in Peterson’s Colleges Guide, Fiske’s Selective Guide to Colleges, and the Princeton Review’s Best Colleges Guide. RIT’s programs regularly earn the highest academic and professional accreditation possible within specific fields of study, such as ABET (engineering), AACSB (business), etc. Among private universities in the U.S., RIT annually graduates the second highest number of students in the STEM (science, technology, engineering, and math) disciplines.

Comprehensive University
RIT is considered a comprehensive university and includes nine academic colleges, as well as the Golisano Institute for Sustainability, and offers over 300 programs of study, in the following areas:

- Art, Design, Crafts, Animation, Film and Photography
- Communications, Business, and Management
- Computing and Information Sciences
- Education and Social Sciences
- Engineering and Engineering Technology
- Environmental Sciences and Sustainability
- Mathematics, Science, Health Sciences, and Imaging Science
- Architecture

Many undergraduate programs offer advanced study at the master’s degree and Ph.D. levels, a number of which are pre-eminent in the field. In addition, several programs offer a BS/MS or BS/MBA track, enabling students to complete two degrees in an accelerated timeframe.

Ambitious, Diverse Students
RIT is home to approximately 18,000 of the world’s most diverse, intelligent, talented, and motivated students, including over 800 students from India who integrate easily into RIT’s classrooms and community. Regardless of your background or academic interests, whether at the bachelor, master, or Ph.D. level, you will find RIT to be a challenging environment that fosters intellectual and personal growth and achievement.

OUR STUDENT/FACULTY RATIO:

14:1

Challenging, Balanced Academic Programs
RIT is one of the largest private universities in the U.S., yet it fosters and encourages personalized, student-centered education at all levels of instruction, in addition to close faculty interaction. The university maintains an impressive student-faculty ratio of 14:1, along with an average class size of 23 students.

Enthusiastic, Committed Faculty
At RIT, teaching comes first! Unlike most universities, RIT does not utilize teaching assistants in the classroom and requires faculty to lead classroom instruction. RIT’s faculty are highly qualified, engaged, and committed to your educational advancement and your academic success. Our faculty bring not only the highest academic credentials to the classroom but also a strong portfolio of practical experience and cutting-edge research. They consistently receive local, national, and international awards, including Fulbright Scholarships and Alfred Sloan Foundation Awards.

Exceptional Resources
Reflecting our emphasis on innovation and creativity, RIT has well-equipped, state-of-the-art facilities that are rarely matched on other campuses. You have access to a laser optics laboratory, dozens of digital photography printing stations, computerized printing presses, glass furnaces, a student-run restaurant, computer graphics and robotics labs, an observatory, and some of the most modern imaging science, microelectronic, and computer engineering facilities in the nation. The Princeton Review has ranked RIT among the “Most Connected Campuses” in the country, and RIT is among a select group of universities with access to the Internet2® research network.

Our Student Innovation Center showcases our students’ creative and innovative projects. Additionally, RIT is environmentally responsible. We incorporate sustainability into our curricula and facility design.

English Language Center (ELC)
www.rit.edu/elc

For those students who require additional preparation in English, the university provides its English Language Center on campus to assist with those needs. The Center offers courses at all levels, designed to help students prepare for academic study at an American university. For more information, visit www.rit.edu/elc.

Research
Students at each academic level have opportunities for research in their program of study, working with faculty, business and industry, government and nonprofit organizations. The university offers more than 50
research centers and laboratories dedicated to these research pursuits. Each year, many companies worldwide cooperate with RIT students and faculty on research initiatives, and the university annually sponsors both an undergraduate and graduate research symposium to showcase students’ research efforts.

Ushi Patel ‘00, ‘01 (printing management, MBA) is creative director for BoominGroup and author of Brave the Unknown, a book of poetry that recently won gold at the Benjamin Franklin Book Awards.

Graduates in Demand
RIT graduates enjoy one of the highest rates of employment of any comprehensive university in the country. More than 600 companies send recruiters to RIT to conduct more than 5,000 employment interviews.

Alumni
Over 120,000 RIT alumni live and work around the world, engaged in highly successful careers in business, industry, government, education, and nonprofit organizations.

Placement, Cooperative Education and Career Services
www.rit.edu/ose
Experiential education is integrated into our programs through cooperative education (co-op), internships, study abroad, and research. Distinct and diverse opportunities allow you to apply classroom education to real-world problems and projects.

Co-op employers range from small consulting firms and neighborhood retail operations to Fortune 500 companies and five-star hotels. A sampling of employers includes Apple, Boeing, Google, Harris RF Communications, Hilton, IBM, Intel, Lockheed Martin, Microsoft, Motorola, NASA, Paetec, Toyota, Walt Disney World, and Xerox Corporation.

Investing in Your Future
As you invest your own or your family’s financial resources in your future, so too does RIT! The university offers eligible undergraduate candidates both need-based and merit-based awards, including Presidential Scholarships ranging from $10,000 to $16,000 per year. Graduate students may receive scholarship awards based upon merit, as well as graduate assistantship positions. For the 2014-2015 academic year, RIT awarded more than $285 million in financial aid to its students. International students may also apply for one of more than 8,000 on-campus jobs through the Student Employment Office and work up to 20 hours per week on campus throughout the school year. And of course, RIT’s cooperative education program offers students the opportunity to pursue paid employment in their field prior to graduation.

Personalized Admission Process
Admission to RIT is competitive, but our admission process is a personal one. Each application is reviewed holistically for strength of academic preparation and academic performance, performance on standardized tests, and counselor, faculty, and/or professional recommendations. Because of the variety of academic programs, admission requirements may differ from one program to another, such as portfolio and writing sample submissions.

Vibrant, Connected Community
Founded in 1829, Rochester Institute of Technology is a privately endowed, coeducational university with nine colleges emphasizing career education and experiential learning. The university occupies 1,300 acres in suburban Rochester, the third-largest city in New York state. RIT also has international campuses in Eastern Europe and Dubai.

American University in Kosovo
www.aukonline.org/web/

RIT Croatia
www.croatia.rit.edu/rit-croatia

RIT Dubai
www.rit.edu/dubai/

Our students are engaged in an active, lively campus life in a safe, suburban, residential environment.

The diverse interests of our student body are reflected in more than 200 different organizations that sponsor more than 1,300 on-campus events annually. For those students interested in media, a radio station, an art and literary magazine, and a televised sports magazine that takes a behind-the-scenes look at RIT athletics also are available.

RIT offers 23 intercollegiate men’s and women’s sports, including Division I men’s and women’s hockey. Intramural sports are popular at RIT and the outstanding recreational facilities include an ice rink, an aquatics center, a field house, and fitness facilities.

For our students, it's more than just getting involved. Whether it's participating in our RIT ROCS (Reaching Out for Community Service) Day, wearing brown and orange to show their RIT spirit, building homes with Habitat for Humanity, or working on cross-disciplinary projects that focus on environmental concerns, our students take pride in making a difference.

Many of RIT’s full-time students live in RIT residence halls, apartments, or townhouses on campus. On-campus fraternities, sororities, and special-interest houses are also available. Freshmen are guaranteed housing.

Expenses
Full-time students living in an RIT residence hall have the following estimated 2014-15 academic year expenses. We estimate that the typical student also spends an average of $2,025 per year for books and personal expenses.
