Q1: **How do I enroll in the Wegmans program?**
A1: There is not a separate program. Beginning January 1, 2013, Wegmans will be the preferred pharmacy under RIT’s prescription drug plan. If you purchase medications at Wegmans, simply show your Medco ID card; the correct copays will automatically be charged.

Q2: **Can I use the mail order for my current medications and go to Wegmans for new medications?**
A2: Yes. Whether you purchase your medications at Wegmans, another retail pharmacy, or mail order, as long as you use your prescription drug ID card, all of your medications will process through Express Scripts (formerly Medco), the pharmacy benefit manager for RIT’s prescription drug plans.

Q3: **I am concerned about drug interactions if I purchase medications at Wegmans, another retail pharmacy, and through mail order.**
A3: Express Scripts is the pharmacy benefit manager for RIT’s prescription drug program. As long as you purchase your medications at a participating retail pharmacy, and/or mail order using your RIT prescription drug card, all of your medication information is in your health record with Express Scripts. They have a comprehensive set of clinical rules that automatically intervene on prescriptions that may pose a risk.

Therefore, if you are taking a maintenance medication that you purchase through mail order and are later prescribed a medication that you will purchase at a participating retail pharmacy (e.g., an antibiotic), the retail pharmacist is notified immediately on the computer screen that there is a drug interaction issue; the prescription will reject and cannot be filled until the necessary verifications have been made (the retail pharmacist does not actually see the mail order medications).

Q4: **When can I purchase a 90-day supply of my medication at Wegmans?**
A4: Beginning January 1, 2013, you will be able to purchase your medications under the preferred pharmacy arrangement. You can purchase a 30-day supply and continue to refill it; there will not be a higher copay on the 4th fill. You can also purchase a 90-day supply at Wegmans.

Q5: **There is a retail pharmacy closer to my house than Wegmans. Can I still purchase my medications at the other retail pharmacy?**
A5: Yes, but there are some differences:
- The 30-day supply copay at other participating retail pharmacies will be higher than at Wegmans
- You cannot purchase a 90-day supply at any retail pharmacy, other than Wegmans
- If it is maintenance medication, the copays will be higher than at Wegmans and the copay will increase significantly on the 4th fill.
- Refer to the “Other Participating Retail” columns in the following chart for details:
### Q6: How do I stop my automatic refill (i.e. Worry Free Fill) with Express Scripts (formerly Medco)?

**A6:** A member can opt out of the Worry Free Fill program (automatic refill) by deselecting the option online (if registered on the Web) or by contacting Member Services (1-800-711-0917/V and 1-800-759-1089/TTY) and requesting to have it turned off.

### Q7: Does Wegmans offer a similar automatic refill process?

**A7:** Yes. You can request “auto-fill” and Wegmans will automatically send you a refill when it is the appropriate time. Stop into the store or call 1-877-WEG24RX (1-877-934-2479) to arrange for this.

### Q8: How do I transfer a prescription to Wegmans?

**A8:** You have a couple of options:

1. You can contact your doctor’s office and ask for a new prescription to be filled at your local Wegmans Pharmacy; in most cases your doctor can e-prescribe or call the pharmacy with this new prescription.

2. Call or go to your local Wegmans Pharmacy and provide the Pharmacy with your doctor’s office phone number and prescription information; the Pharmacy will call the doctor’s office for the prescription to be filled at Wegmans for you.

   **Please note that certain controlled substances need a hard copy prescription and cannot be done over the phone. For these medications, you will need to get a hard copy prescription from your doctor and take it to the Wegmans Pharmacy.**

### Q9: I have been purchasing my specialty medication from the Express Scripts Accredo mail order pharmacy. Can I purchase this medication at my local Wegmans Pharmacy beginning in January?

**A9:** You will probably need to continue purchasing your specialty medication (certain high cost medication that often requires special handling/administration) from Accredo. You can contact Express Scripts (1-800-230-0508/V and 1-800-759-1089/TTY) to learn what options you have.
