

2016 CHST SUMMER UNDERGRADUATE RESEARCH FELLOWSHIP

Mentor Recommendation Form (Due Friday, February 26)

Greetings Mentors! You have been identified as a mentor by an undergraduate student who has submitted a proposal for this year's Undergraduate Summer Research Fellowship (SURF) Program through the College of Health Sciences and Technology. Mentors are expected to supervise and advise the fellow's work, meet with him/her personally at least once per week, provide an assessment report at the end of the summer, and help ensure that the experience is valuable to both fellow and mentor. In order for the student's application to be considered, it is necessary for you to complete and submit the information below **electronically to Dr. Bolaji Thomas (bntsbi@rit.edu)** no later than **Friday, February 26**. Applications will then be reviewed by the relevant colleges and programs. Please be aware that participants are expected to attend an orientation meeting in late May and the annual research symposium scheduled for August 2016 (dates TBD).

STUDENT'S LAST NAME _____

Please assess the student's skills and ability to do the described research.

Is this a new project or part of an ongoing investigation? Describe how the research project fits into the context of any ongoing research.

Could this project lead to additional work that outlives this summer?

Describe the primary benefits this project will have for both you and the student.

How will the student make an independent or creative contribution?
