

Nutritional Sciences, BS/ Dietetics and Nutrition, MS

Combined Accelerated Pathway

Registered Dietitian Nutritionists (RDN's) are credentialed food & nutrition experts. They utilize their expertise to help people of all ages, cultures, and economic means make positive lifestyle changes.

RIT's combined accelerated bachelor's/master's program is a five-year program, including summers. Complete the Nutritional Sciences bachelors degree in four years and the Dietetics and Nutrition masters degree in one additional year. Graduate prepared and eligible for the Registered Dietitian Nutritionist credentialing exam.

Rochester Institute of Technology

RIT is Unique!

- Emphasis on technology, biometrics, and the use of apps.
- Engage in research with opportunities to share your work.
- Exposure to a variety of traditional and non-traditional venues for dietetics practice.

Supervised Experiential Learning (SEL).

Students complete three SEL courses that provide practical, hands-on learning in culinary and food service operations, community, and clinical settings.

Registered Dietitian Nutritionists work in a variety of settings:

- hospitals and clinics
- universities
- government agencies
- research facilities
- food & pharmaceutical companies
- public health organizations
- journalism & marketing
- professional sports teams
- commercial food service
- corporate well-being

With a variety of titles, such as:

- Clinical Dietitian
- Corporate Wellness Manager
- Pediatric Dietitian
- Public Health Nutritionist
- School Nutrition Administrator
- Health Communicator
- Study Coordinator
- Sports Dietitian
