Peter Sucky's *Smoke and Mirrors*.

Sucky

Peter Sucky

Personal: 54, of Hamlin.

Education: Associate in applied science degree in liberal arts speech/theater from Monroe Community College; bachelor's of [fine arts](#) in filmmaking/photography from Rochester Institute of Technology.

Media: Primarily digital photography and virtual photography, which I output to 2D pigment prints or 3D lenticular transparencies; software imaging tools, primarily Photoshop, Illustrator, Studio [Artist](#), Strata3D, Poser and Lenticular Effects.

Style: Abstracts, landscapes and constructed virtual environments. Typically, I just try to find/create something interesting from the ordinary. I may experiment with a variety of [styles](#) in an attempt to amplify the impact of my presentation of any particular subject.

Inspiration: In my digital photography, it's usually in interesting rock formations and the abstract shapes and textures I can find there. In my virtual photography, it can come from a memory or a dream that I'll attempt to re-create. Most times it comes as a result of a desire to experiment with some type of lighting, detailed set, character, texture or element until something happens.

Featured work: *Smoke and Mirrors* is one of the first works that I created specifically with the 3D lenticular medium in mind.
