Join us for a summer program that combines fun and educational activities!

Located on the RIT campus, Lil Kids on Campus offers daily opportunities to learn and play in a stimulating environment.

The weekly themes provide the basis for hands-on learning experiences and projects designed to stimulate young minds.

The full-day format includes daily time in a campus computer lab and swimming in the RIT pool.

Our professional staff includes certified teachers who share their enthusiasm for learning with the children.

Available Discounts:

Multiple Children — Register more than 1 child in your family and deduct $10 per week from the costs of the additional child. Discount does not apply to the first child.

Early Registration — Submit registration form and payment by May 1 and deduct $10 per week.

RIT Community — RIT employees/students/alum can deduct $10 per week for their family members.

Exciting Activity Themes

1. Hooray for the USA!       June 29-July 2
   Three cheers for the red, white and blue! Have a Yankee Doodle dandy of a good time while you create patriotic crafts, learn some American songs and dances and enjoy some all-American fun with friends.

2. Who Dunnit?              July 6-10
   Who? What? Where? and How? – are the questions every good detective must answer to solve the case. Follow the clues, examine the fingerprints, and decipher the code. Be prepared to use your super sleuth skills to solve some mysteries.

3. Artists in Action        July 13-17
   Explore the works of amazing artists and be inspired to create your own masterpieces! Work with a variety of art materials and media to help your ideas take shape. Experiment with color and design. When the week is over you’ll have your own gallery collection of amazing art work!

4. Let’s Get Rocking        July 20-24
   Discover what the science of geology is all about – experiment with rocks and minerals, grow your own crystals and make your own rock candy to sample too. Watch as a volcano erupts right in the classroom. This week will really rock!

5. What’s Cooking?          July 27-31
   Travel to different regions of our country to discover special treats from the north, south, east and west. Cook up some fun with your friends and be ready to sample some new foods. Create your own cookbook of your favorite recipes.

6. Amazing Animals          August 3-7
   Mammals, reptiles, and birds all have interesting characteristics and habitats. Learn fun facts about animals, how they survive and why some are endangered. Create a book about your favorites. You may even get to go home with a few rare species of your own.

7. Out of the Box           August 10-14
   So many things we use every day come in boxes – from our morning cereal or oatmeal to our shoes and even our pizza dinner! What can you make from a cardboard box? Add in a few other recyclables and the only limit may be your imagination! Bring in any interesting boxes and your creativity for a week full of fun. (Pool unavailable/No Swimming)
