Environmental Wellness Team: Call for Campus Knowledge

Do you have unique knowledge of a space on campus, or know someone who does, and want to share that information with others at RIT? The Environmental Wellness Team in Student Affairs is seeking candidates to participate in a new initiative called Wellness Walks. Wellness Walks are short, guided walking-tours that highlight unique and possibly environmentally-significant areas of the RIT campus that are outside and may be any of the following:

- Either natural or built.
- Significant to environmental concerns or efforts of sustainability.
- Unique regarding history or plans for the future.
- An area often overlooked, under-appreciated, or infrequently accessed.

Candidates would be willing to assist in facilitating a short guided walking tour of that particular area of campus to convey the unique knowledge, history, plans, or insight they possess. Walks are expected to be 20-40 minutes in length.

We will kick off fall term with a repeat of our amazingly successful pilot, “Wellness Walks: The Nature of the Nature Trails” on 9/2/16. You can find that event description, as an example, here: https://www.rit.edu/studentaffairs/wellness/events. We are scheduling programs every other Friday, during *lunch hour. Dates to be scheduled are: 9/16, 9/30, 10/14, 10/28, and 11/11.

Interested or know of someone that would be a good candidate? Let us know!
