

Faculty-Led Study Abroad Program

AUTOMOTIVE ELECTRONICS IN GERMANY

Mittweida, Germany

Course:

ENGT 518 - Global Engineering Experience: Automotive Electronics
Students enroll in a spring 2022 course with travel to Germany taking place in early summer.

Travel Dates:

May 10-May 25, 2022

Application Deadline:

October 17, 2021

Highlights:

- Gain a new perspective on automotive electronics in Germany - a world leader in automotive electronic innovation and manufacturing.
- Visit German auto manufacturing facilities such as Volkswagen and BMW.
- Collaborate with German students at Hochschule Mittweida on a final class project.
- Immerse yourself in German culture for three weeks with 3-day weekends free for personal travel and exploration.
- Leverage your international experience to land an automotive specific co-op or job after graduation.

No language requirement - program taught in English.

In Germany, you'll study at Hochschule Mittweida and stay in the village of Mittweida, a walkable town with winding streets and picturesque views.

No pre-requisites. Open to all undergraduate majors, 2nd year status or higher preferred.
