### **Study Abroad For**

# College of Science Students

# 4 Reasons College of Science students should study abroad

International experience is becoming a priority for science and math majors as companies look to develop innovative solutions for global customers and international markets.

Gain insight into how scientific and mathematical problems are approached and solved throughout the world.

Develop professional and cross-cultural skills that will make you stand out when applying for jobs, graduate schools or research programs.

Explore the unexpected, take on new challenges and add a global perspective to what you learn in the classroom.

# **Featured Programs**

## **Urban Ecology**

Malmo, Sweden
RIT Faculty-Led Program
Spring Course/Summer Travel

Enroll in a spring course at RIT and travel to Sweden for two weeks in early summer. Working alongside students from Malmo University, you'll explore the many examples of green infrastructure, sustainable design, and low impact transportation systems in Sweden, collaborate on group projects and participate in field trips around Malmo, collecting data and conducting analyses.

## **University of Aberdeen**

Aberdeen, Scotland
Affiliate Program through Arcadia University
Fall or Spring semester

Live and study in Scotland's third largest city at the University of Aberdeen, known for its strong emphasis on STEM subjects including biosciences, chemistry, mathematics, environmental science and hydrocarbon/renewable energy studies linked to the North Sea oil reserves. *Courses taught in English.* 

#### **Getting Started**

- 1. Learn more at: studyabroad.rit.edu
- 2. Meet with your academic advisor to discuss timing and coursework.
- 3. Explore programs in the Compass database: rit.edu/global/compass-search-programs-apply
- 4. Make an appointment with a study abroad advisor: www.rit.edu/global/advisormeeting

Galapagos Evolution & Ecology | RIT Faculty-Led Program

#### When You Should Go

The College of Science study abroad pathways identify the optimal timing for semester-long study:

2nd or 3rd year, fall Applied Math **Biochemistry** 3rd year, spring **Bio Informatics** 4th year, spring Biology 4th year, fall Biotechnology 3rd year, spring 3rd year, fall Chemistry Computational Math 2nd or 3rd year, fall Environmental Science 3rd year, spring Imaging Science 2nd year, fall **Physics** 3rd year, spring Statistics 2nd or 3rd year, fall

However, work with your academic advisor to determine the best timing for you.

#### Tips

Consider taking some minor, immersion or general education courses abroad for more flexibility with program options, locations and length of time abroad.

If you can't fit a full semester abroad into your academic plan at RIT, summer programs and short-term faculty-led programs are an excellent alternative.

Financial aid and study abroad scholarships are available. Ask a study abroad advisor for more details.

Riley Kieffer COS, Applied Mathematics Studied in Dublin, Ireland

"Experiencing a different education system in Ireland has helped me become more self-motivated in my classes and taught me to delve further into topics on my own."
