

Engineering & French Society

COURSE TERM:

Summer 2022

TRAVEL DATES:

May 29 - July 1, 2022

CREDITS: 9

3 RIT credits, 6 transfer credits

HIGHLIGHTS:

- Complete a course in Engineering Economics while immersing yourself in French culture.
- Experience French university life while studying for 4 weeks at Institut National des Sciences Appliquées (INSA).
- Further develop your French language skills by interacting with locals and exploring the northwest region of France.
- Travel to Paris for three days to visit cultural and historical sites.
- Take classes that could count towards a French immersion.

COURSES:

- ISEE-345: Engineering Economy (3 RIT Credits)
- French Language (3 transfer credits)
- French Culture (3 transfer credits)

Pre-requisite: 4 years of HS French, college French I, or equivalent.

Open to all undergraduate KGCOC majors. Other STEM majors will be considered if space allows.
