Study Abroad for Interior Design Majors

DIS Interior Architecture

Copenhagen, Denmark

Denmark is a hub of innovation in areas of design, architecture, sustainable living and technology.

Scandinavian design is one of the most recognizable and impactful styles in the world, blending traditional and modern with many of the world's most well respected designers and iconic designs hailing from Denmark.

Course-integrated study tours within Denmark and to neighboring countries will expose you to historical and modern architecture, buildings and urban space of Northern Europe.

Fall, spring and summer programs offered at DIS are taught in English from respected faculty who are also professionals in the field.

DIS provides opportunities for students to experience local culture with home stays, sports teams and clubs, student events or volunteering in the community.
