

Study Abroad for Japanese Language

RIT students majoring in Japanese must participate in an international experience before graduating. Eligible study abroad experiences include: a full semester program (fall or spring) or academic year program. For an extenuating situation, a summer program may be accepted with approval from the Japanese Program Director, Hiroko Yamashita.

Students doing a minor or immersion in Japanese would greatly benefit from spending time abroad enhancing their Japanese language skills and learning about Japanese culture.

Cultural immersion is the fastest, most effective way to learn a language leading to increased fluency. (nafsa.org)

For a culturally immersive experience

- Live with a local family Japanese in a homestay.
- Take elective courses in Japanese.
- Set English aside - join clubs and other activities to interact with Japanese students.
- Look for programs with internships, directed research projects, or volunteer opportunities.
