What Students Are Saying About The Program:

“The program exceeded my expectations in every way. The week-long Balkans tour we took at the beginning of the program was the best trip I’ve ever taken. One day we got to swim in the Adriatic in Montenegro, and the next day we walked through the Tunel Spasa (the Sarajevo Tunnel) that allowed supplies and humanitarian aid to enter Sarajevo during the siege. It is no exaggeration to say that it was a once-in-a-lifetime experience.”

“I cannot recommend the program highly enough. The academics of the program are also unparalleled ... All the instructors had several years of experience working in their respective fields, and it was a novel experience to learn from someone who was not simply a college professor, but had actual and varied experience working on the ground in the Balkans.”
