

Faculty-Led Study Abroad Program

URBAN ECOLOGY

Malmö, Sweden

Travel Dates: May 10-27, 2022

Credits: 3

Highlights:

- Examine examples of green infrastructure, sustainable design, and low-impact transportation systems in Sweden.
- Participate in hands-on fieldwork around Malmö - collecting data, conducting analyses, and creating StoryMaps as part of your final project.
- Learn key practices that U.S. cities could adopt toward more eco-friendly urban living.

No language requirement - program taught in English.

Application deadline: October 17, 2021

To apply go to rit.edu/studyabroad and login to the Compass.

Course:

- ENV5 305 - Urban Ecology (undergraduate)
- ENV5 798 – Independent Study (graduate)

Focuses on how humans impact natural systems through urban development, and how those impacts can be mitigated by using examples provided by nature to influence sustainable development.

Students enroll in a spring 2022 course with travel to Sweden in early summer.

Open to all undergraduate majors (2nd year and above) and graduate students. No pre-requisites.
