

How well do students demonstrate achievement of RIT's General Education Student Learning Outcomes (GE SLO's)?

***Sample** – each semester we strive for a representative sample of students, courses that are offered at more than one location, to expand the number and type of courses in the assessment

****Core assignment** - we provide guidance to faculty on assignment design and selection of assignment(s). Students should have opportunities to practice demonstrating the learning outcome before formally assessed in the course. See <https://www.rit.edu/academicaffairs/outcomes/faculty-resources> for faculty toolkits.
