

## **FERPA PROCEDURES**

Terms used below have the same definition as the RIT Education Records Policy, D15.0.

### **Inspect and Review Education Records**

- A. **Written Request for Access.** Students have the right to inspect and review their Education Records within forty-five (45) days following RIT's receipt of a written request for access. For the purpose of this policy RIT considers a Student to be in Attendance at RIT beginning on the day in which the Student pays their tuition deposit or otherwise confirms their intent to enroll according to their specific enrollment instructions. All requests for transcripts shall be made in accordance with the procedures found at <https://www.rit.edu/academicaffairs/registrar/transcripts>. All written requests for access to Education Records that are not transcripts shall be presented to the Office of the Registrar by the Student and shall identify the specific records the Student wishes to inspect. Students may use the list of departments and the types of Education Records maintained by RIT listed in these procedures, for purposes of identifying the specific records to be inspected. The Office of the Registrar shall obtain the specific records the Student wishes to inspect from the appropriate departments. RIT will verify the Student's identity at the time of inspection or pick-up using their school or government issued identification. Departments may charge a reasonable fee for copies of Education Records, if requested, but they will not charge for the search for, retrieval of, or viewing of the education records. RIT is not required to provide information that is not maintained or to create Education Records in response to a Student's request.
- B. **Limitations to the Right to Inspect and Review.** There are limitations regarding the right to inspect and review education records. If a Student's Education Record contains information relating to other Students, an inspection and review will only be allowed regarding the specific information about that Student. Also, the right to inspect and review records does not extend to Education Records that are:
1. Parental financial records provided in conjunction with applications for financial aid;
  2. Confidential letters or statements of recommendation placed in the Education Records of the Student prior to January 1, 1975, provided that the letters are used for no purposes other than those for which they were originally intended.
  3. Confidential letters or statements of recommendation placed in the Education Records after January 1, 1975, if the student has waived his or right to inspect such letters or statements.
  4. Attorney client privileged information.
  5. Records excluded from the definition of Education Records (See D15.0(III)(E)).
- C. **Circumstances Preventing Right to Inspect and Review.** Where circumstances effectively prevent the Student from exercising the right to inspect and review their Education Records in person, RIT, shall:

1. Provide the Student with a copy of the Education Records requested; or
2. Make other arrangements for the Student to inspect and review the requested Education Records.

Where copies of education records will be provided to a Student without them physically presenting identification at RIT, RIT will require the Student to provide a copy of their school or government identification. RIT will then use the provided identification to cross-check the information against the student's file to verify their identity before sending the requested educational records.

- D. **Requests for Explanations and Interpretations.** RIT will respond to reasonable requests for explanations and interpretations of the Student's Education Records.

#### **Correct and Amend Education Records**

- A. **Written Request for Amendment.** All written requests for correction or amendment of a Student's Education Record shall be presented to the Office of the Registrar by the Student. The written request shall specifically state the Education Record the Student believes to be inaccurate, misleading, or in violation of the Student's privacy rights. This written request shall commence the informal process for correcting or amending a Student's Education Record. The RIT Registrar shall respond to the written request for correction or amendment of Education Records within a reasonable time after receipt of the written request. If a Student is unable to resolve disputes or concerns over their Education Records in an informal manner, the Student shall be afforded the opportunity for a hearing to challenge any materials contained within the Education Records, to request correction or deletion of any inaccurate or misleading factual data contained within the Education Records, and to insert any written explanation concerning the contents of the Education Records deemed appropriate by the Student.
- B. **Right to a Hearing.** Students have the right to a hearing to challenge the content of the Student's Education Records on the grounds that the information contained in the Education Records is inaccurate, misleading, or in violation of the Student's privacy rights. Such hearings are for the sole purpose of guaranteeing the factual accuracy of Education Records.
1. The hearing shall be held within a reasonable time after receipt of a written request for a hearing and only after attempts at an informal resolution have failed and RIT decides not to amend the Education Records as requested.
  2. A written notice shall be provided to the Student which gives notice of the date, time, and place of the hearing. The notice shall be provided to the Student reasonably in advance of the hearing.
  3. The Registrar, or an administrative official who does not have a direct interest in the outcome of the hearing, shall preside over the hearing.
  4. The Student shall be afforded with a full and fair opportunity to present evidence relevant to the request for correction or amendment of the Education Record.

5. The Student may be assisted or represented by one or more individuals of their own choice, including an attorney.
6. The decision of the hearing officer shall be in writing and delivered to the Student within a reasonable time after the conclusion of the hearing. It shall be based solely on the evidence presented at the hearing and shall include a summary of the evidence and the reasons for the decision.

### **Disclosure of Education Records**

- A. **Disclosure with Student Consent.** In addition to a Student's own written request for access to their Education Records, Students may permit a third-party to access their Educational Records by executing a FERPA Consent to Release Student Information. This form must include the specific records to be released to the specified third-party, the reasons for such release, and the date upon which the consent is expected to expire. Students may choose to release some but not all of their Education Records. Where a Student does not make such a request in person, RIT will require the Student to provide a copy of their school or government identification. RIT will then use the provided identification to cross-check the information against the student's file to verify their identity before releasing the Educational Records to a third-party.
- B. **Disclosure without Student Consent.** RIT may disclose Personally Identifiable Information in an Education Record without student consent:
  1. When the Disclosure contains information identified as Directory Information;
