Co-Sponsored Event

Moderated Student Panel – “How Critical Thinking...”

Date: February 22, 2017

Time: 10:00 am – 11:00 am

Place: Simone Center for Student Innovation 87-1600

Being a graduate student can blow your mind! Ever wonder if others experience this too? Grab a light snack and come hear a unique panel of RIT graduate students talk about their thinking experience. Add your perspective to the discussion.

This event is open to all RIT students, faculty, staff and community guests. Please register [HERE!](#)

Co-sponsored with the Office of Graduate Education

A Few Thoughts

With this issue of the Fram Focus we meet Scott Franklin, another of RIT’s notable critical thinkers.

Scott Franklin has worked in the College of Science at RIT for seventeen years. He is a master of metacognition and a professor of Physics and presently serves as the Director of Center for Advancing STEM Teaching, Learning, and Evaluation. Read his answers to a few critical questions [HERE!](#)

Fram Faculty Find

“**What is Critical Thinking Anyway?**” by Rob Jenkins, Georgia State University Perimeter College. Read it [HERE](#) and respond to it on our Facebook page!
