

Language Technology: Presentation Peer-Review Survey Questions

Question 1

The presenters acknowledged that they are presenting on someone else's work. The presenters included the references to the paper and cited page numbers if quoting, giving examples, or referring to data from the paper, etc. Options: True or False.

Question 2

Indicate how much you agree with these statements. 5 = Strongly agree, 1 = Strongly disagree.

#	
1	The presenters gave a good overview of the assigned article. They conveyed the contents well. I understood most of what was presented.
2	The presenters used evidence (examples, data etc.) to illustrate the points made in the paper.
3	The presenters' commentary on the paper gave me food for thought (e.g. comments on open questions, additional areas of application, critical comments, etc.)
4	The presenters maintained contact with the whole audience (eyes, etc.).
5	The presenters did not use disturbing words (such as <i>ah</i> , <i>so</i> , <i>hm</i> , <i>yeah</i> , <i>eh</i>) or play with pencils, hair, clothes, notes, etc.
6	The presenters took advantage of the multi-screen setup in the room. (If applicable, the presenters integrated additive contents (media, visuals, etc.) effectively.)
7	The presenters were committed and enthusiastic about the presented topic.
8	The presenters defined and explained terminology that may be unknown to the audience.
9	The presentation had an introduction, a body, and a conclusion.
10	Any media or other presentation material included were accessible to everyone (close captioned or transcribed, etc.)
11	Overall, I found the paper overview engaging. The presenters were professional, in general.
12	The presenters responded well to questions.
