A World Leader in Cooperative Education and Hands-On Learning

What sets RIT graduates apart isn’t just the degree they’ve earned, it’s what they’ve done before they even received it.

Our commitment to your success starts immediately, with exposure early and often to a variety of career paths, industries, and environments. It’s career planning at its finest: from career exploration and discovery, skill development, and the creation of career paths to cooperative education opportunities, defining professional aspirations, and pursuing job opportunities. It’s an intentional commitment to career development that enables our students to pursue a path of continued self-discovery and professional fulfillment. We know that preparation that is applied consistently becomes practice organically. That learning starts in the classroom and carries on in the real world.
