

This newsletter will share the breakthrough ideas and emerging challenges that are driving changes in sustainability across the Empire State.

## NYS Food Donation & Food Scraps Recycling Law Webinar

Join NYSDEC for a webinar detailing what NYS businesses and institutions should know about the upcoming **Food Donation and Food Scraps Recycling Law** (the Law) on June 22 from 1:30 - 3:00 pm. Effective January 1, 2022, large generators of food scraps (generating two tons per week or more) must donate any excess edible food. In addition, large generators that are within 25 miles of an organics recycler (composting facility, etc.) must recycle all remaining food scraps.

Check out these recent publications from NYSDEC to learn more about the Law:

- [List of Designated Food Scraps Generators Identified to Comply with the Requirements of the Law](#)
- [List of Food Scraps Transporters, Sorted by County Served](#)
- [List of Food Scraps Recyclers, Sorted by County Located In](#)
- [Methodology Used to Determine Designated Food Scraps Generators](#)

## Upcoming Events

### Greenhouse Gas Reduction: Why it Matters and Where to Start

Join NYSP2I, Tessy Plastics and OneGroup on June 22 at 9am (EDT) as they discuss how they help companies develop a road map to reduce their carbon footprint and lessen greenhouse gas impacts.

## Client Spotlight

### Inventory Software Saves Grocery Chain Money and Reduces Wasted Food

Price Chopper/Market 32 is preventing over 20 tons of food from being wasted each week and is projected to prevent more than 3,000 tons of food waste over the next three years. By preventing its food waste, Price Chopper/Market 32 is reducing its methane emissions from landfills, lessening its carbon footprint, and helping to fuel a more sustainable, circular economy.
