Safe Products, Made Safely: Tools for Businesses

This full day workshop will provide a framework for evaluating the best approaches and tools for your business in meeting goals to eliminate or reduce the use of toxic chemicals in consumer products and processes throughout the supply chain. The workshop will cover the regulatory landscape and other drivers for safer chemistry, as well as specific tools designed to meet business needs for hazard assessment, life cycle assessment and alternatives assessment.

Tuesday, October 8, 2013 - 8:30am to 4:30pm
