IN TOKEN OF OUR GRATITUDE AND SINCERE APPRECIATION OF HER WHO HAS GIVEN FREELY OF HER TIME AND EFFORT TO FURTHER THE INTERESTS OF MECHANICS INSTITUTE, WE, THE CLASS OF NINETEEN HUNDRED AND EIGHTEEN, TAKE PLEASURE IN DEDICATING THIS BOOK.
Editorial

In this, the seventh volume of the Ramikin, we have endeavored to record the activities of our class and the course of events of the entire school year.

Although we editors have spent a great amount of time and labor in compiling, this is primarily the product of the work of every student in our school; and the more contributions we have received, the more representative a book we have been able to offer.

We are grateful to everyone who has aided in any way in the production of this Ramikin: to the Students for their contributions and subscriptions; to the Faculty for their advice; to the Council for the business management; to the Advertisers for their interest and financial aid.

We take this opportunity of saying Good-bye to the School, and to the Senior Class. To you, Our Classmates, may this book prove a source of interest always; and may it help you in the remote future, to live over again the three years we have lived and loved here together.

Honor Roll

"We have one flag and one destiny and wherever that destiny shall lead us we will have hearts strong enough to meet its responsibilities."

—William McKinley.

The following list contains the names of those who have enlisted in the service of our country from the Mechanics Institute. We sincerely trust that there have been no omissions, but an Honor Roll of this kind is necessarily very difficult to compile, as almost daily some person from the Mechanics Institute is enlisting. Every effort, however, has been made to make this list complete to April 1, 1918:

ACKER, CLAIRE
ANTHONY, HERBERT
ARMSTRONG, A.
BARTLETT, ROY

"I am a citizen of America and an heir to all her greatness and renown. The health and happiness of my own body depend upon each muscle and nerve and drop of blood doing its work in its place. So the health and happiness of my country depend upon each citizen doing his work in his place. I will not fill any post or pursue any business where I can live upon my fellow-citizens without doing them useful service in return; for I plainly see that this must bring suffering and want to some of them. I will do nothing to desecrate the soil of America, or pollute her air, or degrade her children, my brothers and sisters I will try to make her cities beautiful, and her citizens healthy and happy, so that she may be a desired home for myself now, and for her children in days to come."—Anon.
Do you know there are lots of students
   Sitting around in every school,
Growling like a broody chicken,
   Knockin' every good thing down?
Don't you be that kind of cattle,
   'Cause they ain't no use on earth,
You just be a booster rooster,
   Crow and boost for all you're worth.

If your school needs boostin', boost 'er,
   Don't hold back and wait to see
If some other feller's willin',
   Sail right in, this country's free;
No one's got a mortgage on it,
   It's just yours as much as his,
If your school is shy on boostin',
   You get in,—the boostin' "biz."

If things don't just seem to suit you,
   An' the school is kinder wrong;
What's the matter with a boostin',
   Just to help the thing along?
'Cause if things should stop agoin'
   We'd be in a sorry plight,
You just keep your horn a-blowin'
   Boost 'er up with all your might.

If you see some student try'n,
   For to make some project go,
If you can boost it up a trifle,
   That's your cue to let him know
That you're not a-goin' to knock him,
   Just because it ain't your "shout,"
But you're goin' to boost a little,
   'Cause he's got "the best thing out."

If you know some students' failin's,
   Just forget 'em, 'cause you know
That some student's got some good points,
   Them's the ones you want to show;
"Cast your loaves upon the waters,
   They'll come back," the saying's true,
Maybe they'll come back "buttered."
When that student boosts for you.

How the Average Student Looks Through the Ramikin

1. Looks five times hurriedly for his own name.
2. Looks two times for his own name.
3. Looks through three times for his best girl’s name.
4. Looks to see what they said about his rival.
5. Looks twice at his best girl’s picture.
6. Looks five times carefully at his own picture.
7. Glances through the grinds (always slams them—knows he could do better).
8. Looks over the rest of the “stuff.”

“Everybody should keep a fair-sized cemetery in which to bury the faults of his friends.”—Henry Ward Beecher.

If you were too busy to vote, please do not write us criticizing the way the community is governed. It is none of your business.—Wall Street Journal.

We also might add: If you were “too busy” to do anything for the Ramikin, please do not let us hear any complaints about the book. It is none of your business!—(The Editors.)

The Extension Department

Field Supervisor . . Annie L. Weeks
Demonstrator . . Ruth F. Caney
Secretary . . Emma E. Graeper

THE original aim of the extension department was to do constructive Home Economics work in the community, with special emphasis on intensive work in the industrial section.

Before these plans were launched, however, the New York State Food Supply Commission requested that their educational work in food conservation be carried out under the direction of the department.

This plan was followed. The activities established were:

1. The Food Conservation Booth in the Grocery Department of Sibley, Lindsay and Curr, special work in the Tea Room of the same store, and educational work for the employees.
2. Co-operative work with the Monroe County Home Defense Committee in the Thrift Kitchen at 44 Clinton Avenue, South.
3. Educational work with five Mothers' Clubs, using the school district as a geographical unit.
4. Departments in three newspapers.
5. Educational streamers at motion picture plays.
6. Systematic co-operation with the Rochester Public Library.
7. Ten Neighborhood Study Clubs for short courses.

The other main division of the work was under the supervision of Miss Weeks, and established systematic co-operation between Mechanics Institute and United Charities. Miss Weeks inaugurated a special study that will furnish a basis for development of all previous work in home and social economics. This division of the work also gave opportunity to the senior domestic science normals for a lecture course in social economics, and for supervised field work in the homes of United Charities families.

On March first it seemed best from the point of view of organization to turn the State educational work entirely over to Miss Woodruff and to have her office at the Monroe County Defense headquarters. This gives, however, an opportunity for even closer co-operation between Mechanics Institute and the Food Commission.

The year's experience has, it is hoped, demonstrated the value of community work, and the place that Mechanics Institute may hold in all community activities.

1918
History of the Class of 1918

(Apologies to George Ade and Others)

The Class of 1918 has not been an habitual user of slang during its interment in this institution, for its members have always guarded against demoralizing or corrupting the morals of the lower classmen. However, when occasion demands, they can, as you perceive, indulge in a little relaxation of their lingual muscle, and descend for the moment to the level of ordinary Juniors, and even Freshmen. This is but one example of their ability or rather their adaptibility, to any condition which may confront them.

Well on the 11th of September, the Year of Our Lord, the nineteen hundred and fifteenth, something hit this Burg. It wasn't as destructive as a German Bomb explosion, but even *that* couldn't hold a Candle to the Surprising and Everlasting Effect of that Organization which was destined to be known as the Paramount Class of 1918, on this Institution for the Instruction of Ignoramuses. Ever since that Fateful Day, the Honored Faculty of this School have been making an Honest Endeavor to retain their Dignity and at the same time bestow on this Class the Favor merited by its Superiority in all Departments. There is no use in Exploiting the Individual Excellencies of our Career.
here—for Everyone knows how the Student Council—the powerful, Ruling Body at the Mechanics Institute, came into control and prominence through the earnest Efforts of Our members when We were Freshmen. The Loyal support, and school spirit and Co-operation always given by Our Class made possible the Invention of an Annual Field Day—called Pay Day—a remarkable Scheme devised as a sure means of freeing Ourselves of all Superfluous Money collected during the School Year. Another remarkable undertaking—the Mighty, Marvelous Extravaganza—the M. I. Carnival, rivaling the Ziegfield Mid-night Frolic and Barnum’s Circus in the number of pretty girls, “Sham Acts” and handsome clowns—was discovered and put on the map through the genius of All Our Classmen. The Glee Club was so enriched and broadened and Beautified by the Rich Melody of 1918 Members’ voices that the public was Begged to Attend the Annual Concerts (the Undergraduates having heard the rehearsals, did not care to come). The large membership in the Dancing Class, and the Crowds at the noon dances are enough evidence of Our socialistic tendencies, Our grace, and our Skill in rhythm. Athletics have risen from Nothing at all to Everything. We have heard that Harvard and Yale are clamoring to be included on our next year’s Basket Ball Schedule. The Manager has kindly refused the Offer for the Good of the School, as he knows All the live material will be graduated. The Henry Lomb Society was founded by the Far Seeing Faculty as a means of Rewarding the Earnest Efforts of All Our Classmen. Red Cross Headquarters at Washington have sent letters of congratulation to All Seniors, (so we have heard) for the great amount of work accomplished in Knitting, etc., during the School year. We could go on forever—But has any Class Anything on Us? Not so you’d notice it! Time and space yield to no Man else we could fill Volumes written in Letters of Gold, in order to Record correctly our remarkable Achievements. Anyway, Our Belief is that if you Believe a Thing yourself, it doesn’t make any difference whether anyone else believes it or not! And we who give up the Ghost this June know Our own Worth.

As Blossoms in the Hot-House, so we Flourisheth; in a little while the Breeze Passeth Over us and we are Goners; and the Place Thereof Shall Know us no More. But Our Fragrance hangeth in the Ozone after us, and the Sweet Memory of our Beauty lingereth in the Breasts of our Honored Teachers, warding off from them the Horrible Realization of the Present in the Midst of the Terrible Hordes of Our Uneducated, Unskilled, Unmannered, Successors!

And That is the Nearest We can Get to Slang.

"Mary, Mary, quite contrary,  
Wanted to play basket ball;  
But classes and teaching took so much time,  
She couldn't play at all."

But Mary changed her mind you see,  
Since her "fine grind" was written;  
She has come out to practices all,  
For she won't see M. I. beaten."

"Ruthie is a country lass, from way down Campbell way,
A little rustic maid, so sweet and neat,
She does her best, does Ruthie, and she does it 'with a will,
She has a heart, where goodness has a seat!
She's an earnest little teacher, but she likes a merry laugh,
Whenever wholesome fun comes in her way.
She's a true, good-hearted girl, and we love our Ruthie well,
For she does her bit by helping every day."

Which many will condemn;
But listen now, while I relate
The traits of one of them.
Communi—Kay—t's intelligent,
As we may well suppose,
Her fruitful mind is ever bent
On telling what she knows!"

And let us add that when a man's in
the case all other things give place!

“A dress divinely simple, of good domestic taste,  
A pout, a smile, a dimple; a plump, inviting waist.  
An apron of such whiteness, it puts the snow to shame,  
Fit with becoming neatness (A figure was the aim).  
A cap, a pert creation, of organdie and lace;  
At proper elevation, to frame a smiling face;  
And there you have a picture, of our Margaret so fair,  
Teaching the Art of Cooking, to anyone who cares.”

With the cutest of curls so bewitching;  
She's sprightly and witty, and likes a good time,  
But we often wonder if she isn't of a more serious mind.  
"We've heard tales that are mysterious about Issy—'tis true,  
Which make us think she only 'looks the coquette';  
For if her heart has been pierced, as the gossips say,  
Why, then, there is one, only—now don't say we gave her away!"

"I do not know, I cannot guess,
How much of mirth and happiness
It may be mine to share and give
In all the days I have to live.
I cannot tell if weal or woe
Will be my fate, but this I know:
My heart is not bereft of cheer
If friends go with me through the year!"

We may live without books—what is knowledge but grieving?
We may live without hope—what is hope but deceiving?
We may live without love—what is passion but pining?
But where is the man who can live without dining?

Molly Kenny—"I assisted at an operation this morning."
Jessie Rockwood—"What was it?"
Molly—"Cutting a recitation."

"Who does the best his circumstance allows,
Does well, acts nobly; angels could do no more."

One day, Katherine Norton, out for a walk in the country, spoke to the farmer about the savage way in which the cow regarded her.
"Well," said the farmer, "it must be on account of that red skirt you're wearing."
"Dear me," said Kay, "of course I know it's awfully out of fashion, but I had no idea a country cow would notice it!"
Senior Household Arts

Wide swing the stately portals,
As down the sunlit way,
Anon passed the stately Seniors
On to the hilltops of day.
'Twas not our fault that the class was small—
Would that it had been the largest of all.
The work was hard and the hours were long
But, in our hearts there was ever a song,
A word of thanks to the teachers,
Who labored so hard with us creatures,
And taught us the value of the hours of the day
Or the work that is laid in a woman’s way.
Peace to future of our old M. I.
Peace to the classes which still stay by;
And when no more our voices ring up and down thy hall,
We pray God’s richest blessing may come to one and all.
A cheer for the Alma Mater,
For the scenes we love so well,
For the hopes we cherish so dearly,
And the feelings no words can tell. S.A.S., '18.

Put it and prick it, and put in a pan,
And bring us a party as quick as you can.

There is no one quite as sweet and kind
As Zella,
Another girl you’ll never find
Like Zella.
Of her work in pencil, paint and pastel
There is not space in here to tell,
There is no one that we love so well
As Zella.

TO OUR “EDDIE” OF BEVIER.

When we want to go up, or we want to go down
We call “Eddie”.
He’s the “willingest” person in all the town—
Our Eddie.
If a piece of string we want him to bring,
He’s always there whenever we ring.
In fact we could scarcely do a thing,
Without “Eddie.”

Appalling

What if Doris Aldrich should come out of her trance!
  What if Mr. Croop should shrink!
What if Byron Culver should ever dance!
  What if Miss Benedict should wink!
What if Freddie Swetland wouldn’t sing us a song!
  What if President Barker should go on the stage!
What if Ruth Gay should happen to grow long!
  What if Marjorie Palmer skipped a page!
What if ‘‘Jake’’ Hilgerman should get awfully tough
  And swear and do things that are bad!
What if Kay Norton lost her powder puff!
  What if marks like Miss Gorby’s were the fad!
What if Mr. Woodland should come down to earth
  And live with us commoner folk!
What if Antoinette Von Liew should laugh loud in her mirth!
  What if ‘‘Jut’’ Hickey should smoke!
What if Katherine Lighthall should get her hair mussed!
  Or let her clothes get unpressed!
What if Fern Good should ever get fuzzed!
  What if all ‘‘Jim’s’’ sins were confessed!
What if Messrs. Martin and Davis had been born girls!
  What a hit they’d made with the male sex!
And if H. Van Ingen would wear his hair in curls!
  We’d all fall for him then would we not? Nix!
What if Beulah Trickler could decide which one she wants!
  And all three should abide her decision!
What if Phil Barnes should keep away from those ‘‘haunts’’!
  And of ‘‘Spike’’ Mildred would say, ‘‘I am his’n’’!
What if those ‘‘sweet finals’’ should go up the ‘‘flue’’!
  And all the games our ‘‘dear boys’’ had won!
What if all of these queer things should ever come true!
  Would it not be appalling! I’m done!

IN FLANDERS

"In Flanders fields the poppies grow,
Between the crosses, row on row,
That mark our place; while in the sky
The larks, still bravely singing, fly
Unheard amid the guns.
We are the dead. Short days ago
We lived, felt dawn, saw sunset's glow,
Loved and were loved, and now we lie
In Flanders fields.

Take up our quarrel with the foe,
To you from falling hands we throw
The torch. Be yours to bear it high.
If ye break faith with us who die,
We shall not sleep, though poppies blow,
In Flanders fields."

———M.I.———

GO BACK to the simple life, be contented with
simple food, simple pleasure, simple clothes.
Work hard, pray hard, play hard. Work, eat,
recreate, sleep. Do it all courageously. We have
a victory to win.

———Hoover———
AND now with one more year gone we find it necessary to show to M. I. wherein we, as a class, have proved ourselves worthy of our position; and also so that as years go by the future classes may look to this record to see how they too may attain the name of the "best Juniors Mechanics ever had."

We started our year with a dance and it was, without a doubt, a success.

When the basket ball team completed the most successful season they ever had, we held a party in their honor, showing them our appreciation for the work they had done this year.

A short time after we felt it was our duty to help with the work of the Red Cross, and so an entertainment was given and the proceeds were turned over to them.

As a farewell for the Senior class our Junior Prom was given on May 31. This proved as much of a success as all of our Juniors activities.

But as we come to the close of the year it is only proper that we should stop to consider those who have left our midst that they might "do their bit." Let us all wish them the best of luck.

And so hoping that we may work in our Senior year with as much benefit to M. I. as our past year has been, we will leave all to time to prove whether or not we can continue to have cause to be proud to be of the class of 1919.

ECSTRAX FROM THE DIARY OF A FRENCH MAN

September 8 Went to Mekanix today for the first time, was late but the teachers didn’t say anything. The school is orful Big. Gee! I never saw so many pritty Girls in all my life.

P. S. I guess there were some boys their too.

November 8 The great event of the school year—the Karnival—came off last night. I had to go because some of the freshmen took principles parts, and I thought it would look stingy if I didn’t. I never saw anything so wunderful as all the stunts and the excitement and the trimmings & noise in the Halls. We danced till morning and by that time I had learned to one-step pritty well. I heard one of the teachers say that some of the freshmen were green alright, and I was orful proud becus Green is our Class Color!

December 12 Our Ramkin Bored knows how important the Frosh are because they put up a Big Sine asking us to Join the Army. At first I thought it was a recruiting station, but I afterwards found that they were asking for contributions. That’s the funniest thing I ever heard of—why don’t they say what they mean, right off the real. I’m going to make some contributions if I get time becus the Ramkin wouldn’t be much good if most of it wasn’t about us Frosh. We put in jokes and stories all the time and One of them was accepted & it was the Only thing worth reading in the Hole paper.

January 11 I’m back to Mekanix after vacation & I had a pritty good Rest which I needed because I was up a lot before vacation & in It. Mekanix has a Star Basket Ball Team & I always foller the Teem around & Cheer for it. I wish I was more Athletic—beaus some of the fellers are Athletic & make the other boys Mad with Jellesy.

June 15 None of us Frosh are going to graduate this year—but I think I’ll stay around & go to graduation. One of the fellers Told me it was free, so I guess I will.
Freshmen, skip this paragraph. It got in by mistake, and the printer was asked to destroy it or set it wrong side up:

If they had to stand on their heads.

We know they'd get at it somehow.
The poem they've already read.
Now they'll rewrite it and come to a father.
If they feel the least kind of a show,
But you bet they'll find out anyhow.
If there's anything wrong, the freshmen

There are four dietitians
Who wended their way
From all parts of the country
To M. I. one day.
They're all very tiny
Let's stand them up in line
They range from 4 ft. 2
To not past 4 ft. 9.

Marion Myers, Rochester, N. Y.
First comes little Miss Myers
The merriest little maid
Whose two black eyes just sparkle
As she listens to what you say
And although she's very witty
She never brags nor boasts
Tho' she's travelled this wide world over
Even to Africa's darkest coast.
A little Miss from New England
Is hailed as number two
She has the ‘‘twinkliest’’ bluest eyes,
Which look you through and through.
She has the merriest little mouth,
That is ever ready for fun.
I’ll tell you a secret—it won’t take long
She thinks there’s no one like Miss Van Horne!

MARGARET S. GROVE, Waynesboro, Penn.
Little Miss Grove is next in line
And although she’s not a Puritan,
Her peaceful face remind one of the days
Of Priscilla and John Alden.
With a modest little white cap,
And apron snowy white
As dietitian in a hospital.
She’ll surely fit in right.

M. ROSE THOMPSON, East Rochester, N. Y.
Last of all is Miss Thompson,
And although she’s not very tall
Her thoughts are so big and far-reaching
They make us all feel quite small.
The mind of this fair lady
Oft travels far, far West—
To the many little Indian maids
Whom she’s taught to live their best.

These four gentle ladies
Are always together.
There’s never any bickering
No matter what the weather.
I’m right glad I know them
Their friendship’s so true,—
There’s something about them
That keeps one from feeling blue.

When the Coal Was Low

Oh don't you remember when the coal was low,  
And we all were wondering where next we would go;  
For M. I. closed down for an indefinite time?  
May be we wished for a different clime.  
The big notice so bold on the bulletin board,  
The halls filled up and the voices soared,  
Pres. Barker was confronted with students by the score,  
All asked questions, but we could find out no more.  
Some disappeared Monday night; others stayed next day,  
Some professed to feel bad, others openly were gay;  
If roll call had been taken on Tuesday night,  
I greatly fear the 0 would have made quite a sight.  
Anxiously we waited for that "self addressed" card,  
For not preparing lesson plans, etc., is so hard;  
Time lay so heavily on our hands, 'twas such a bore,  
That we longed to return to M. I. and said we'd work more.  
The call to arms was sent, and those that lived near,  
Rushed back to take up their studies and see their friends dear,  
But some poor students journeyed far away,  
And could not get back on the opening day.  
A week was lost—would we remain in June?  
A-ha-ha—making up lost time, was quite a different tune.  
But I never heard a student say a word against the plan,  
For together they kept, and took the medicine like any man.  
It has been decided for all to stay Commencement week.  
And so we'll see the Seniors when they look very "meek."  
So much all depends on the attitude you take,  
When the unusual occurs laugh for M. I.'s sake.

The Henry Lomb Society

The Henry Lomb Society, established in 1916, and named for the founder of Mechanics Institute, is an honorary society, whose purpose is the appreciation and encouragement of the highest type of citizenship, exemplified by Captain Lomb.

Students are elected to membership after successfully completing a three years' course, the election being based on scholarship, personality and an active interest in student organization.

Announcement of the 1918 election was made in assembly on May 8th. The list of members, as given, was as follows:

_Applied Art_

**Byron Culver**

**Zella Webster**

**Normal Manual Training**

**Perry Babcock**

**Harold Shoudy**

**Household Arts**

**Fern Good**

**Katherine Lighthall**

**Emma Nickerson**

**Helen Wilcox**

*Miss D. Fuller will be given membership when she completes the required work in a manner satisfactory to the society.*
Training for Soldier Boys

Through the co-operation of the local Institute and the United States government, Mechanics Institute soon is to undertake the training of a large number of soldier students in various mechanical and manual branches of service. To accommodate these students the Jenkinson apartments have been leased and will be remodeled into a dormitory building. The students in domestic art will be given practical experience in household planning and decoration in the remodeling and fitting of the building. The restaurant now operated by Mechanics Institute in the Eastman building will be closed to public patronage, and will be used for the soldiers.

Some time ago President James F. Barker filled out a government questionnaire, giving facts regarding the school, which showed it to be of value to the government in training soldiers along various lines. Government agents visited the school, studied the various phases of school work, and the equipment, and plans were made for the immediate use in training soldier craftsmen.

According to the plans, the training will include many branches of service. Chief among those will be carpentry and wood turning for ship building, gasoline and gas engine construction and operation for tanks, aeroplanes, submarines and other war engines, mechanical drafting and foundry work.

We should feel justly proud that Mechanics Institute can do this war work, and it is largely possible through the efforts of our President, James F. Barker. M.F.P., '18.
The five years of student government here at Mechanics Institute have brought a great advance in both the number and efficiency of student activities. The Students' Council has shown its worth as a medium of student government. Athletics, Glee Clubs, the Question, the Students' Hand Book, carnivals, noon dances, all have come as a result of student government. The Henry Lomb Society was organized at the instigation of the Students' Council. Pay Day is now an Association affair. All of these things could doubtless have been managed without a Students' Council, but they could not have attained the same
degree of success without the co-ordinated supervision and support that a Students' Council has made possible. It is in co-ordination and business efficiency that the best results of responsible student government lie.

The financial standing of the Students’ Association has been made secure through the Association Fee. This fee has made possible most of the activities which members of the Association now enjoy at a personal expense of less than three cents per week.

This year’s Council has aimed to carry on the work of former Councils and to further develop the efficiency of student government. The basketball season has been the most successful in years, and that at a less expense. Base ball is receiving enthusiastic support. The Glee Club has a very creditable season under the direction of one of the best leaders in the state. Assemblies have been held regularly and have frequently been occasions for spontaneous outbursts of school spirit.

Girls’ athletics, basket ball, tennis, and track, have been included in association activities. With the experience gained by the girls in conducting athletics this year, it is hoped that future progress will be made easier.

The finances of the Question are now handled immediately by the Council. This system will prevent misunderstanding between the staff and the Council, and place the Question in the same relation to the Council as all other Association activities.

The financing of the Ramikin is perhaps the biggest addition to the duties of the Council that has been been made this year. It is hoped that a permanent Ramikin fund may be created.

Every member of the Council feels that the best indication of the year’s success is the growth of real self-sacrificing school spirit among the whole student body. This is the thing we have all been striving to develop, and the satisfaction of seeing this splendid spirit of co-operation and love for our Alma Mater is the best reward that can come to those who have tried to do their bit for old M. I.

Scraps From a Senior’s Diary

September  6 Miss Benedict explained the important points to be remembered in writing lesson plans. When we tried to write one, it reminded us of a hit-or-miss rug, mostly miss.

“ 17 Margaret Pughe turned the ice cream freezer for 15 minutes and then discovered there was no dasher in the container.

October  11 Kathryn Norton discovered that Miss Williams needed glasses. Katie left an unsoured knife and a dirty soap dish, and Miss Williams didn’t discover it.

“ 25 Luella Theisen forgot to put the shortening in the sponge for bread today so she cut holes in the dough and poured it in. Miss Strickland thought it very good.

November 8 Edith Reese made a buttonhole 7-16 of an inch long when it should have been 1-2 inch, and Miss Gorby didn’t discover the difference.

“ 15 Miss Williams visited Helen Snyder. Poor Helen was so excited she poured the milk in the bottom part of the double boiler.

December 6 Miss Gorby gave a lecture on, “Always Keep Threads and Ravelings on the Tables.” A notice was posted in the Red Cross rooms that all threads must be put on the floor.

“ 11 Peg Parker discovered that vitamins was a subject connected with foods instead of wireless.

“ 19 Miss Williams was called “to arms,” to spend her Christmas vacation in Kentucky. She was so excited she told the class that leavening agents cause such things as umbrellas and elevators to rise.

January  8 The D. A. M. class learned for the first time (?) that Miss Gorby had a supervisor for one year whom she “could not hold out against for another year” so she was transferred to another building. (Every member of the class wished to meet him.)

“ 28 Several Division A girls arose one hour early in order to have their hair nets properly adjusted before going to Miss Williams’ class.

“ 29 For the first time in their career, all Division A girls scoured the steel and put their desks in order.

February 7 Miss Williams was peeved because she wasn’t asked to teach the soldiers, even though everyone knew she didn’t have the time.

“ 15 Baking powder biscuits were not mentioned in theory class. Evidently some “individual problem” was bothering Miss Benedict.

March  6 Eileen Sehl taught buttonholes in methods class today and all seniors found that D. A. M. stands for more than one thing.

“ 14 Angeline Delunsch handed in a model on time. There was a good reason. She lost the hook so didn’t have to sew it on.

April 10 Helen Tutchell put the jelly in tarts before baking them.

May  1 The seniors had a truth meeting and everyone promised not to tell any of the “brilliant” things they had done until after everyone had a position.

“ 15 Caroline Ransom made a sleeve with a square elbow. Everyone always thought she was angular.

“ 23 A freshman was heard to say that she would never accept a position for less than $12.00. The seniors decided they would be thankful for positions as garbage collectors.

June  13 A pleasant day out doors but rather wet around the seniors eyes. All seniors decided that M. I. is a pretty good place after all.

A MASS meeting conducted by the president of the Women's League was held at the beginning of the school year. At this meeting Miss May Benedict spoke to the girls about the Women's League, and what it should mean to every girl, especially the incoming Freshmen.

The new and revised set of rules which were approved and voted upon last year were read by the secretary at the meeting.

The executive board and the house presidents have held monthly meetings to discuss problems of the League and also those concerning the houses.

Chaperons were chosen by the executive board to chaperon underclassmen when called upon to do so. An approved list of hotels and theatres was also made at that time.

On December 13th the League held a very interesting vaudeville bill, consisting of four acts, with dancing afterward.
The chaperons are as follows:

Faith Adams  Grace Bryson
Rosalie Hill  Lucile Cheney
Ruth Vianco  Martha Deal
Zella Webster  Angelina De Lunsch
Ethel Meskil  Marion Gallup
Mildred Grover  Fern Good
C. E. Oster  Nellie Keane
Katherine Lighthall  Loraine Reed
Emma Nickerson  Winifred Swetland

THE Mechanics Institute Auxiliary of the American Red Cross was organized October 14, 1917. Room 241, Eastman building, was given to us in which to carry on the work. Students expressed their interest by signing up for definite hours, and wives of faculty
members accepted our invitation to use the room as their time permitted. From 8:30 until 5:30 an instructor is in charge and work in the making of surgical dressings and hospital garments progresses.

Different houses and organizations have set aside certain hours in which they may work as groups: Kent Hall, Thursday night; Colony Hall, Wednesday night; Bevier Building, Monday night; and Y. W. C. A., Wednesday noon. We have had over a hundred regular workers.

Under Miss Wessel’s supervision we have made 6,000 four-inch compresses, 100 nine-inch compresses, 90 emergency pads, 235 irrigation pads, and 1,500 drains. President Barker’s invention in February, of machines for folding compresses and drains, greatly facilitated the making of those difficult dressings.

Miss Beebee reports that 50 bed shirts and 50 sets of pajamas have been completed. Many of these were made by the girls during vacation time.

That M. I. girls have been busily knitting is shown by the books of the knitting bureau: 122 sweaters, 47 scarfs, 35 pairs of wristlets and 35 helmets are credited to them. “Pig” knitters have been most unpopular and it was not long before all the bright colored yarns disappeared from the corridors except those that were being made into ten-inch squares for convalescent quilts, eight of which have been completed.

Under the direction of Miss Duntz, Miss Ellwood, Miss M. Gillard and Mr. Kah, our knitting machines have turned out 190 pairs of socks. Twenty-three of these were made by the boys.

Our laundry machinery has made it possible for us to help in the washing of socks for the Rochester Chapter. Each week a large bagful has been received and, under Miss Thurber’s supervision 6,000 pairs of soft, clean socks have been returned to headquarters.

In February the making of refugee garments was begun. Fourteen hundred and eighty-two yards of material are being made up into 250 children’s capes, 200 women’s dresses, 100 women’s shawls and 6 children’s dresses. Quilts are to be made from the left-over pieces.

A very successful campaign for the raising of money is being carried on. Groups are vying with one another to obtain the largest amounts, and students and faculty are responding generously to every summons to put their hands in their pockets for the Red Cross. A list of money turned in from October to March, follows:

| Oct. 17 | Candy sale, Williams group | $6.00 |
| Oct. 22 | Dance, Thurber group | 5.00 |
| Oct. 26 | Travelogue, Van Horne group | 2.75 |

The nation-wide Christmas drive for members touched Mechanics, of course. A recent census in the Institute shows an enrollment of 185 members of the American Red Cross among faculty and students.

While the interest in the Red Cross idea this year has been good, we hope that our showing in membership and in regular workers as well as our output of finished articles, will be doubled next year. E.V.H.

The Question, like everything else, has suffered this year on account of the war. When the staff, as appointed in the spring of 1917, was assembled in the fall, it was found lacking a business manager. Due to difficulty in reorganizing, publication began rather late in the year. We have of necessity been very conservative during the first part of the year, but with reorganization in January, the paper was changed and nearly doubled in size.

We wish to thank all for their support, and we trust that next year may see "The Question" bigger and better than ever.

Y. W. C. A. activities began in the fall with a mass meeting of all girls, addressed by Miss Kyle Adams, our Field Secretary. In the evening a reception was held for her in the Rest Room.

This affair was soon followed by a tea, to which the Freshmen were especially invited and entertained by school talent.

Several special speakers, including representatives of churches, the Patriotic League and Social Service Work have spoken at our Friday noon meeting. There has been an average of fifty girls.

Cabinet meetings have been held at noon every other week, with an occasional evening meeting, where plans have been made and suggestions offered for our work.
Red Cross work has been another phase of our activities this year, taking the place of our regular meeting.

The social side of the association has been different this year as in many organizations. To take the place of our usual social affairs we have had, beginning with the new year, monthly luncheons in the Cafeteria Saturday noons. These were managed by some of the Y. W. C. A. members.

The missionary Committee had a special meeting to raise money for our missionary worker, Miss Baker, in Japan.

Social Service work this year has been practically the same as last. The girls pay weekly visits to the County Hospital, where they read and entertain.

There have been several changes in the Cabinet during the year. Miss Beebee was chosen as faculty adviser in Miss Wellington's place. Jessie Blake, our secretary, did not return to school, so Faith Adams was elected to the office.

A tooth paste sale is being conducted at the present time, and an entertainment is being planned to raise money for the Silver Bay fund. Seven girls attended the Silver Bay Conference last June, and it is our earnest wish that as many or more will go this year.

"The Spirit of Love means a world of peace,
'Tis the Spirit of Silver Bay."

"When the outlook is not good try the uplook."

"Believe me, every man has his secret sorrows, which the world knows not; and oftentimes we call a man cold, when he is only sad."—Longfellow.

"Cold and reserved natures should remember that though not unfrequently flowers may be found beneath the snow, it is chilly work to dig for them, and few care to take the trouble."

"Our doubts are traitors,
And make us lose the good we oft might win,
By fearing to attempt."—Shakespeare.

"We're not all put together alike, and we may misjudge one another."—George Eliot.

"Keep your face always before the sunshine, and the shadows will fall behind you."

"Our todays make our tomorrows, and our present lives determine the grade on which we must enter any next life."

"Beware of despairing about yourself."

"I expect to pass through this life but once. If, therefore, there is any kindness I can show, or any good I can do to any fellow-being, let me not defer it, for I shall not pass this way again."—Hegeman.

Art Student's League

In Memoriam—(Comique)

A synopsis of the pleasant stunts and occurrences of the year (1917-1918) is hereby appended, in which we lightly but lovingly touch on the several happy events that tended to make our Art League the pleasant organization that it has been for the year past.

1. (Sausage Roast at “Summervilla”) Many Dogs, MUCH Rain, Great Time
3. (Why Boys Leave Home “in Ten Parts” at M. I. Carnival) Stirring Name, Filled Hall, Much “MON.”
4. Studio Teas (All the year) Instructive Talks Good Speakers.
   P. S. “Slight Refreshments.”
5. Annual (Christmas Sale) Bargain Sale, Nothing Stale, Good Kale
7. (“Watchful Waiting”) Phone Line. Christmas Assembly Good CROWDS, More Much “MON.”
8. Many DANCES. Harvest MOON, (Drum). Valentine, etc., etc., etc. Good CROWDS, More Much “MON.”
9. Valentine Party Big Attendance, “Sweet” Greetings, & ICE CREAM
10. Brother Don leaves To be Soldier Boy. SAD Art Family, MUCH Weeps
11. Great VAUDEVILLE M. I. Frolic—Snappy Play, Wonderful Time
12. Red Cross Work (Monday Nights) Many Girls, BOYS Too, Heap Compresses

The memory of this happy year of our League, despite the War, is one that all will carry with them, as we go out to begin our life-work, and let us REMEMBER, Each the Other, with BEST WISHES for the Success and Accomplishment of our Aims. While to our Successors we double this wish, and in closing quote,

“And to dream the old dreams over is a luxury divine—
When my truant fancy wanders
To the old school-mates of mine.”

——M. I.——

KEEP A PULLIN’!

“Fish don’t bite just for the wishin’!
   Keep a pullin’!
Change your bait and keep on fishin’;
   Keep a pullin’!
Luck ain’t nailed to any spot;
Men you envy like as not,
Envy you your job and lot!
   Keep a pullin’!”

Quotations

Margaret Judd—"'Tis Beauty that doth oft make women proud."
Marion Jones—"'Tis virtue that doth make them most admired."
Margaret Miner—"'Tis Modesty that does make them seem divine."
Frances Phillips—"Some think the world was made for fun and frolic."
Jane Muckle and others (in chorus)—"'And so do I."
Perry Babcock—"Skilled was he in sports and pastimes."
Edith Reese—"Of liveliest utterance."
"Jim" Shoudy—"He the merry mischief maker."
Laura Burns and Agnes Crowe—"Long and Short of It."
Nellie Keane—"Sweeter eyes ne'er were seen."
Emily Weed—"A merry heart goes all the day."
Margaret Skehan—"Keep your hair on."
Helen Willing—"A fire in the upper story."
Hickey—"Empty barrels make most noise."
Dake—"Good Nature from him overflows,
He sends smiles who'er he goes.
In basket ball too, just let me tell you,
He surely has rolled in the gold."
Isabel Stewart—"Lass with the delicate air."
Gertrude Preische—"It is in truth a cheerful little thing."
Lorraine Reed & Lillian Young—"Almost as like as eggs and as likable as two peaches."
Katherine Lighthall—"Here comest a perfect lady."
Helen Thomas—"A merry heart does good like medicine."
Tom Sawyer—"None could shoot baskets as he could."
Perry Sexton—"He was a gentleman on whom I built an absolute trust."
Dorothy Matthews & Marjorie Porter—"A laugh is worth a hundred groans in any market."
The basketball team of '17-'18 was the best team in the history of the school. The first five men were only defeated once, but two games in which all the first men could not play, were lost, making a total of three games lost and eleven games won.

Captain F. Sawyer, or just plain "Tom", handled the team ably. Everyone appreciated his pluck, especially in the two or three games in which he played notwithstanding the fact he was sick. Although Tom likes to wet the tips of his fingers and pick his opponent up by the seat of the pants and give him a few slaps, he does not lose his head. Sticking his tongue out in the excitement of a game threatened to cost him the loss of that member.

J. Hance, better known as "Spike," our star left forward, developed such an ability for shooting baskets that he scored as high as 23 points in one game. It was noticed though, that when the faint words which sounded as though they came from the "woods," "Go it, Spike," reached his ears, he seemed to take a new lease on life and smile from ear to ear.

W. Dake, "Walt," although this was Walt's first year on the team, he was a great success as a center. We often wondered if his high jumping wasn't due to the lack of a heavy head of hair.

P. Babcock, well known "Bab," held his opponents to a very low score in all games and in many they did not score at all. His ability to cover the floor made him one of the most valuable men on the team.
A. Rex or "Al," promises to be one of next year's best players. Considering that this was his first year at basket ball, he has made a wonderful record as guard.

V. Reeves, "Doc," the mighty little man. Although small, he often gave his opponents the surprise of their lives. His clever playing gained many points.

H. Orr "Or," played a strong game throughout, holding his opponents down to few points. Much is expected of him next year.

I. Nichols, "Nick," several times helped the team out in a pinch and will be one of next year's regulars.

R. Holcomb, manager, "Brother," famous for his "yer's" and his stentorian rendering of "M. I. Will Shine Tonight." He is a bug on economy and saved almost enough out of his budget and dances to buy sweaters for the lettered men of the team.

Last, but not least, A. M. Croop, athletic director and coach, "Daddy." Mr. Croop was the backbone of our basketball organization. The school is greatly indebted to him for his efforts. His enthusiasm and faithfulness kept the team working, even under adverse circumstances.

"Dear Shrimp," wrote the young man, "pardon me, but I'm getting so forgetful; I proposed to you last night but really forgot whether you said yes or no."

"Dear Will," wrote Shrimp in reply, so glad to hear from you! I knew that I said no to some one last night, but had forgotten who it was!

SCHOOL TEAM
Girls Athletics

We girls have made our athletics just what we have wanted them to be. With the good help of Miss Moffette, we have been able to carry on classes in different fields of athletics. This year interest and cooperation was heightened by an additional method. The Students’ Council hit upon the bright plan of awarding the school letters to the girls who had worked and proved themselves deserving of it. Work in all athletics was considered in this respect, so that everyone would have a fair trial.

Basketball has been of particular interest to the girls, and some pretty good games have been played. In the series of interclass games, the Juniors were very fortunate to come out on top. This was a very jubilant triumph for the Eastman building. It meant that the “Cup” which the Fine Arts Girls have so carefully guarded and treasured, was to have its place among the Domestic Science Girls. The school basketball team, made up of girls picked from the various interclass teams, had the opportunity of playing the Geneseo Normal School Girls on the latter’s court. Although our girls were defeated by three points, score being 24-21, we must congratulate them on their splendid work.
Another feature was the track meet in the early part of the year. This was attended most enthusiastically. The girls' gymnastic meet was also entertaining and peppy. There was some fine military marching, also work in apparatus, floor work and games. An addition to last year's meet was the interpretive dancing, done by both classes. Although the light fantastic toes were clad in gym. shoes, some good dancing was done. This meet also has a cup involved in it, so both Frosh and Juniors had quite a struggle. Both classes did some fine work, but the Juniors, a mere handful, captured the cup finally. At the close of the meet, President Barker took the opportunity of announcing the verdict. He did this in his usual pleasing manner. The Juniors also received the cup for basket ball at this time.

Classes in swimming and aesthetic dancing have been started and the girls have much pleasure in these respective amusements. A swimming meet is being planned and a fine exhibition will be given. In the beginning of the year, a class in social dancing was started and was well attended; but, judging from the attendance in the last few weeks, it must be apparent that most of the "pupils" have graduated themselves and are well on the road to proficiency.

Since the warm weather has come, tennis is the most popular sport we think of. The girls have been showing up fine, and later in the year we will enjoy some closely-matched tournaments, in which many of the girls will participate. Much competition is expected and inter-class games will be played by the champion of each class.

A large number of girls have received numerals thus far, including those who had played on different teams and had won honors in the meets. No one has as yet received a school letter, but it is expected that later in the year there will be some awarded.

1918
The New England Club

The New England Club was formed in the Spring of 1917 by Miss Dorothy Wellington, of Winchester, Massachusetts, with the purpose of making all New Englanders at M. I. better acquainted, to make their school life pleasanter, and as a group to participate in school activities whenever possible.

We started this fall by having a get-together meeting in which we became acquainted with our new-comers. Last June we contributed toward the Student Hand Book so in October we held a pop-corn sale,—the money from which was used to pay off this debt.

Several New England parties have been held during the year, and members have always enjoyed the best of times. Although many of our number will not be with us next year, we hope to have a large representation from New England who will take their places, and who will help to make the New England Club more influential than ever.

The following are the 1917-1918 members:

The baseball season of 1918 was rather short, but the games scheduled were with fast teams, and though short, the season was exciting.

There are six old veterans on the diamond this year with the reinforcement of excellent candidates.

Old Bab (Babcock) is on second, covering part of the field in addition to his territory around second base.

Spike (Hance) has third base nailed down so that there is little chance of losing it.

Jim (Shoudy) does his famous hundred yard dashes in the field behind him.

Guiswite is also limbering up in the field, but his sliding bases last year has made him famous for the rest of his life.

Holcomb (Manager) has gone back to his old position of pitching.

Tom Farrell (captain) is covering the ground between second and third.

V. Reeves ("Doc") is showing up fine in center field.

Nichols, our first baseman, is right there when it comes to batting.

Messner is doing fine at pitching and next year will be a very important man.

Orr, behind the plate, makes it hard for the pitcher to hit the backstop.

Rex, a new man on the diamond, is showing up fine and much is expected of him next year.
The Glee Clubs were organized in the past as two separate organizations, "The Men’s Glee Club" and "The Women’s Glee Club." This year the Clubs have been reorganized, thereby combining the former clubs into one club known as "Mechanics Institute Glee Club." This caused the membership of the present club to almost double the combined membership of past years. The work of the club was most satisfactory under the direction of Mr. O. Garieson throughout the whole season.

M. I. Carnival

Such a crowd went to Mechanics Institute on the night of November 7, 1917, just thought I would go too. When I entered it sounded as if bedlam was let loose; but it looked like a good time, so I was willing to stay and stay I did, until the fun was over. The annual carnival was in progress and in full swing. Barkers were busy and at once I forced my way up to a desk to buy a ticket, not only one ticket, but I bought tickets by the yard, these were good for entering all the concessions.

"Faculty Freaks" first took my attention; it was full of ingenuity. What other Faculty could produce such a show with so many guesses and surprises? No other, I am sure. It alone was worth the price of a yard of tickets.

The next peep was into the "Family Album," and of all the confidential scandals!—it would not be well to make them into libel here.

A Weird man from a far country did some remarkable stunts of fire eating, mind-reading, etc. There was also a free demonstration of his remarkable ability on the mid-way.

"Mary Jane's Pa," a sad story, with a romantic ending, was produced by shadows, however it was realistic and pleased a large audience.

The minstrel show was well advertised by its barkers—just who they were is well not here to divulge. The show was high class, snappy songs, clever jokes and dancing, the interlocutor handled each situation admirably.

After witnessing all of these attractions I still held a strip of tickets, so then I went to see "Why Boys Leave Home." It was ideally produced with a very artistic setting. I was fully convinced that boys had a splendid reason for leaving home.

Judge from what I have mentioned that I had wandered about a bit and along with all this entertainment had eaten peanuts, candy, popcorn, hot dogs and cakes—even had my fortune told by a lady from a wandering tribe and it was so well told that it has come true—for I did hear from a soldier in the aviation corps. Rest was what I needed, so down to the cabaret I went. It was like a fairy land, skillful waiters filled all wants for refreshment. I was highly entertained by vocal solos by celebrated people, fairy toe dancing and a well executed Russian dance. This entertainment seemed to revive me and made me loathe to go; but the Carnival was nearing a close for another year. However I regard it as one of the jolliest times of my life and hope that Mechanics Institute will ever be able to hold this annual festivity. E.W., '18.
M. I. Pay Day---June, 1917

Exciting land,
Dark laid plans
   Around M. I.
Invite to "Subs"
Who might come
   To M. I.
"Thirty-nine",
Say the signs
   "Pay-Day's cheap!"
Then the votes,
Exciting counts,
   Many ties!
For our Queen
And our King,
   Who'll rule the day!
Final count!
What a weight!
   Have our Peers!
Mary and George
Our Lady and Lord,
   How wonderful they!
Pay Day "Q" (?)
Fun all through
   (A Police Gazette!)
Frosh arrive
We contrive
   To show them 'round.
Very green!
Are our "Subs"
   So are we!

For we all,
Wear a tag,
   Painted green!
Quite a jam
In the Grab,
   Oh such fun!
And such eats!
What a feed!
   Fifteen cents!
Then the line
Oh how fine!
Through the hall!
Hear the band!
   "Ain't" it grand?
M. I.'s own!
Then the cops
   (No, not fops)
Lead the gang!
Oh such noise,
Happy boys,
   "Quit,—don't' shove!"
And the march,
Through the arch
   To the street.
Fine, bright day
For our "Pay"
   "Hush, keep still!"
"Listen now,
People all,
Crowning speech!"
Heads all twist,
As maids assist
To arrange the Queen!
King and Queen
On the scene
In royal robes!
Funny speech
Many screech,
With delight!
Royal "cart"
For Queen of Hearts
And her Pals.
All parade
What a raid!
Down the street.
Colors fly,
None dare sigh,
Happy we!
On the cars,
Eight in all,
Away we spin.
Singing songs
All along.
Oh what sport!
Durand sighted,
And its lighted,
By our faces!
Another march
By the shore
Of the lake!
Up the hill,
What a thrill
Four hundred all!
Then the games
Faculty fame!
At base ball!

Oh—the line!
"Waiting's fine!
At the end!"
But the feed
What a feed!
With Hot Dogs!

Merry-go-round
Dancing on ground,
Walking through trees.
Grand ride home,
Saying, Good-night!
End of Day!

Oh! Pay Day!
What a day,
For M. I.!
Always come
Pay Day, dear,
Once a year!
WARNING TO GIRLS

Three maids of Mechanics grew pale,
When they found they must learn how to nail;
Besides wielding a hammer,
    In the most approved manner;
Their names are Hill, Morey and Traill.

George—“I see that you are affecting the new military style of hair-
dress.”
Eleanor G.—“Is that so?”
George—“Yes, bangs.”

Dunny—“Please don’t yawn, dear Ida, I may be an awful bore,
    but you really ought to forgive my shortcomings.”
Ida.—“It isn’t your shortcomings I object to. It’s your long
    goings.”

“Keeping lent, Sehly?”
“Yes, dear, every day is a fast day for me.”

Eleanor—“Have you done your outside reading?”
Helen—“No, it’s too cold.”

Missing the car after running a block to catch it.
Eating spaghetti when your best girl is watching you.
Waiting for the term's report.
Riding in from the suburbs on a cold, slow car.
"Hie!" Hallauer when he broke his beloved pipe.
Phil Barnes, every day, when the mailman forgot to bring his shoes.
Laura Morey, when the "Frat Bunch," next door, leave the piano and drums alone.
Mr. Van, when someone sports a louder tie than his.
When "Our Eddie" is not waiting in the elevator for us with HIS SMILE.
When Anita cannot find Mildred Grover?
When any instructor fails to put in an appearance ?????

A DRAMA IN THREE ACTS

Act I—Maid one.
Act II—Made won.
Act III—Made one.

While the editors were gathering news for the Ramikin, they received these requests from the following people. All of the statements began something like this: "Please don't 'slam' me about, etc., etc., etc.

Mildred Chamberlain—Losing a half a pound playing soccer. (Mildred is delighted.)

Gertrude Grab—Curly-locks.
Helen Wilcox—About being such a "solemn minister."
Isabel Stewart—Red Hair.
Jesse Hance—"Why don't you put it on the cover?" (concerning Mildred, etc.)

Katharine Light—and—Originator of Diseases, and about her being guilty of joke-writing about you—for the Ramikin.

Edgar Scholand—About being sore concerning Mechanics Art Cut.
Jut Hickey—Marselle Waves.

Onion Sandwiches.

Helen Welch—"Special Delivery."
Katherine Norton—"I must run over to the 'Apotment.'"

Helen Hyde—The abuse of gun powder.
Grace Bryson—"Hot arguments between Hulda and me in cooking class."

Elizabeth McCabe—M. I. Disturber of peace in the halls.

We want you as a witness that we have not mentioned these facts in their grinds.—(The Editors).

To Relieve the Monotony

Girls who must provide their own dainties, and do it without devoting much time to it, generally rely upon fudge and ginger-snaps and wafers of different kinds—or something else that is common.

And all in spite of the fact that

**JELL-O**

"So nice and fresh and cool, to relieve the monotony," as a Vassar girl says, can be made up in a minute into any one of a hundred different dishes.

It isn't a crime to eat fudge, day after day for years, but it is an awful mistake when something so much better can be had.

There are six pure fruit flavors of Jell-O: Strawberry, Raspberry, Lemon, Orange, Cherry, Chocolate. Each 10 cents at any grocer's.

Take time, please, to send us your name and address, so we can send you a new Jell-O Book that will tell you how to make delicious things that are too good to miss.

NOTICE

We are very sorry that a serious mistake has been made on the page of "Scholarships and Surprises." The Freshman Scholarship was won by Isabel Worthington instead of Ruth Gay.

We can only be valued as we make ourselves valuable.—Emerson.
Trouble, disappointment and pain are the things that prick the mind into activity—Elbert Hubbard.

"Departing, I had clipped a curl,
That o'er her brow did hang;
She, smiling, said: "You're like a gun,
You go off with a bang!"
At which I pressed her lips and cried:
"For punning you've a knack;
But now I'm like a fisherman,
I go off with a smack!"

Opportunity knocks at a man's door about once for every thousand other knocks.
"Every morn as I passed at the window she stood,
A vision to gladden my heart thro' the day,
We never had met—but this beautiful maid
With romance delightful was gilding my way.
One morning she leaned from the casement
And laughed;
The laugh floated earthwards and broke at my feet;
But when I looked down, not the laugh but
Her teeth
Lay scattered in fragments all over the street."

Some Freshman contributed the following stanzas in which we find much poetic beauty.
"'Tis midnight and the setting sun
Is rising in the wide, wide West;
The rapid rivers slowly run,
The frog is on his downy nest;
The pensive goat and sportive cow
Hilarious hop from bough to bough."
(We think he's hopelessly mixed.)

"Covet nothing that is your neighbor's except his kindness of heart and gentleness of manners; think seldom of your enemies, often of your friends and every day of Christ."—Henry Van Dyke.

Suspicious Wife—“But, how did you get that dent in your hat?”
Soused Husband—“Just came back from the hic-dentist, m'dear.”

“May America, like a tennis ball, rebound the harder she is struck.”

When you buy, think of those who have advertised in the “Ramikin”.

DON'T GIT SORRY FER YERSELF

“Don’t you go and git sorry for yerself. That’s one thing I can’t stand in nobody. There’s always lots of other folks you kin be sorry fer 'stead of yerself. Ain’t you proud you ain’t got a hairlip? Why, that one thought is enough to keep me from EVER gittin’ sorry fer myself.”—Mrs. Wiggs.

“A clasp of the hand, a merry smile, Will help one over the hardest stile.”

“Set your pride
In its proper place, and
Never be ashamed
Of an honest calling.”
The musician's toast: May the lovers of harmony never be in want of a note, and their enemies be hanged by a common chord.

"To those who passed me on the highway and gave greeting, and whom I shall never meet again; to the possible friends who came my way, and whose eyes lingered as they fell on mine,—may they ever be eager with youth and strong with fellowship; may they never miss a welcome nor want a comrade."—Anna Strunsky.
