Foreword

IN presenting this twelfth volume of the *Ramikin*, we have attempted to the best of our ability to make it a good one. A few changes have been made from that form which has been more or less followed in years past and we hope that such changes will meet with your approval. We have recorded as nearly as possible, the life and activities of the Senior Class, together with a review of the under-graduate student body, during the year 1922-23. The book has its faults and we do not deny it, but we hope that we have succeeded to a sufficient degree in its good qualities, whereby the bad will not out-shine that which may be good. We send forth this book, and may it serve to give you as much enjoyment in reading it as it gave us to publish it.

Clifford M. Ueff.

The Institute

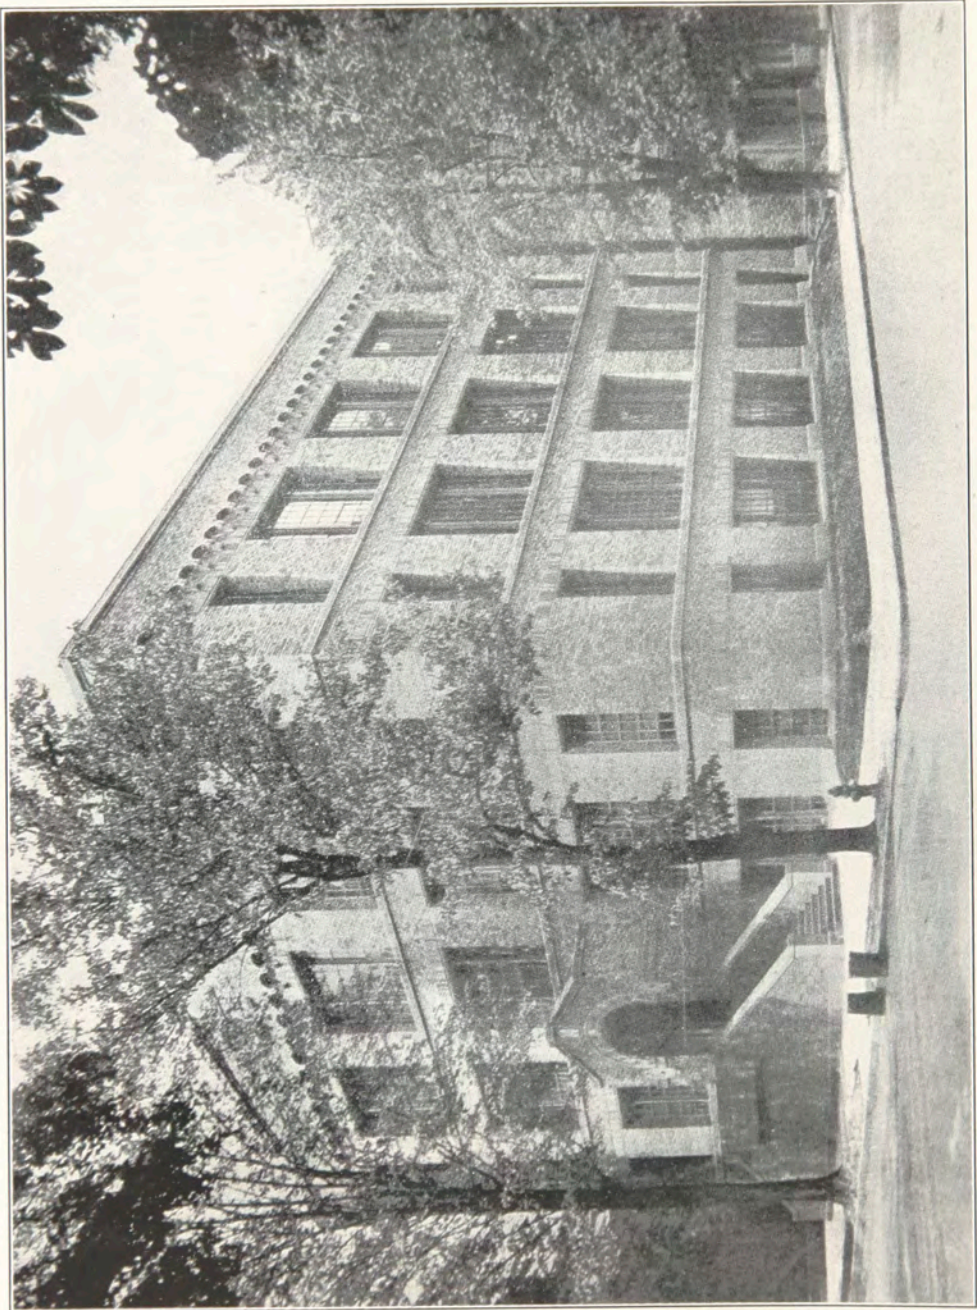

“THE object of this Institute shall be to promote such practical education as may enable those persons receiving instruction to become better fitted for their occupations in life.” This was a statement of the constitution adopted on October twenty-first, eighteen hundred eighty-five at the founding of Mechanics Institute. It was under the inspiring leadership of Captain Henry Lomb that the Institute flourished in its infancy and today the Institute stands in the lead of schools of its particular type.

The Institute now is composed of the Eastman Building, a gift of George Eastman in the year nineteen hundred; Bevier Memorial Building, a gift of Mrs. Susan Bevier; and a large well-equipped Industrial Arts Building commonly known as the Manual Training Building. The Practice House, maintained for the use of the School of Home Economics, is a dwelling on South Washington Street which has been remodeled and equipped with all the latest household improvements, and which is occupied by the students themselves while under instruction; the Girls' Dormitory was acquired as a residence hall for non-resident girls; the Mechanics Institute Christian Association, otherwise known as the M. I. C. A. is associated with the National Y. M. C. A. and occupies a separate building as a students' club.

The Institute has an enrollment of fully two thousand students and with the remarkable expansion it has made, its founders' hopes have become realities.

Faculty of the School of Industrial Arts

- ALFRED A. JOHNS, Phi Sigma Phi Dean
 A. B. University of Rochester, 1915, Massachusetts Institute of
 Technology 1918, Mechanics Institute, 1919.
- ARTHUR A. HUBLER, Chi Delta Phi Director of the School of
 Industrial Arts.
 B. S. Pennsylvania State College, 1908. Mechanics Institute, 1920.
- HERMAN MARTIN, Phi Sigma Phi Director of Evening School,
 Instructor of Machine Design.
 Diploma, Mechanics Institute, 1904. Mechanics Institute, 1904.
- GEORGE YONKERS, Chi Delta Phi Instructor, Pattern Making.
 Mechanics Institute, 1908.
- MICHAEL SHAY Instructor, Forging.
 Mechanics Institute, 1906.
- EDSON C. BAKER Instructor, Steam and Gas Engineering.
 Mechanics Institute, 1918.
- HAROLD BRODIE, Chi Delta Phi Instructor, Mechanical Drafting.
 Diploma Mechanics Institute 1915, Mechanics Institute, 1919.
- WILLARD C. BURT, Delta Upsilon Instructor, Mathematics.
 A. B. University of Rochester, 1915. Mechanics Institute, 1919.
- SHERMAN HAGBERG, Phi Sigma Phi Instructor,
 Machine Shop Practice.
 Mechanics Institute, 1920.
- LEROY R. HARDER, Chi Delta Phi Instructor,
 Steam and Gas Engineering.
 Bliss Electrical School, 1916. Mechanics Institute, 1920.
- ELMER MEULENDYKE Instructor, Mechanical Drafting.
 Diploma, Mechanics Institute, 1917. Mechanics Institute, 1920.
- EARL C. KARKER, Phi Sigma Phi Instructor, Electricity.
 B. S. University of Rochester, 1917, Mechanics Institute, 1920.
- JACOB G. HILGERMAN Instructor, Mechanical Drafting.
 Diploma, Mechanics Institute, 1918. Mechanics Institute, 1920.
- CYRUS PHILLIPS, Chi Epsilon Phi Instructor, Electricity.
 E. E. Syracuse University, 1904. Mechanics Institute 1920.
- OLIVER P. GUTHRIE Instructor, Electricity.
 B. S. University of Rochester, 1914. Mechanics Institute, 1921.

Faculty of the School of Industrial Arts (Cont'd)

- FRED W. ARMBRUSTER, JR. Instructor, Mechanical Engineering.
B. S. University of Rochester, 1916, M. E. Cornell, 1918. Mechanics
Institute, 1921.
- HERBERT R. CHILDS, Sigma Delta Epsilon, Chi Delta Phi
Instructor, Physics and Illumination.
A. B. University of Rochester, 1920. Mechanics Institute, 1920.
- CLARENCE R. ORCUTT Instructor, Physics and Mathematics.
Mechanics Institute, 1921.
- HENRY F. GESELL, Chi Epsilon Phi Instructor,
Structural Drafting.
Diploma, Mechanics Institute, 1907. Mechanics Institute, 1921.
- CHARLES R. LADD Instructor, Physics and Chemistry.
University of Rochester, 1918. Mechanics Institute, 1921.
- CHARLES D. GATES, Lambda Chi Alpha, Phi Sigma Phi,
Instructor, English.
A. B. Colgate University, 1918, Th. B. Gordon. Mechanics Institute
1921.
- JOHN H. REIST, Iota Sigma Delta, Phi Sigma Phi Instructor,
Physics and Mathematics.
Lafayette College, 1920. Mechanics Institute, 1921.
- R. N. SEELEY Instructor, Electricity.
Mechanics Institute, 1921.
- RALPH H. BRADEN, Chi Epsilon Phi Instructor, Chemistry.
M. S. University of Chicago, 1916. Mechanics Institute, 1921.
- RUSSEL E. DUNCAN, Alpha Sigma Phi, Theta Nu Epsilon, Chi Epsilon
Phi Instructor, Mechanical Drafting.
Middlebury College, Chicago Engineering School, 1920. Mechanics
Institute, 1921.
- DAVID E. KESSLER, Phi Sigma Phi Instructor,
Education and Psychology.
Pennsylvania State College, 1917. Mechanics, 1922.
- HARRY L. ROUSE Instructor, Machine Shop.
Mechanics Institute, 1922.
- CARL H. HUBACHEK Instructor, Machine Shop.
Mechanics Institute, 1922.
- LEWIS S. EDGARTON Instructor, Mechanical Engineering.
Massachusetts Institute of Technology, 1919. Mechanics Institute,
1922.
- ROY J. NELLIS Instructor, Cabinet Making
Mechanics Institute, 1922.

"All Hail to Thee"

(Tune: "O, Sole Mio.")

Our dear Mechanics, Fortune fair attend thee,
Thy sons and daughters true and loyal are,
No matter what the years to come may send thee,
Our hearts shall turn to thee, from near and far.

All hail to thee, all hail to thee,
Our hearts true faith with thee shall keep
All hail, all hail to thee,
Our dear Mechanics Institute.

Where'er we go we never can forget thee,
Thy precepts ever shall shine before us,
However fierce the struggles that beset thee,
Our hearts and voices e'er shall lift this chorus.

All hail to thee, all hail to thee,
Our hearts true faith with thee shall keep.
All hail, all hail to thee
Our dear Mechanics Institute.

"?"

(Tune: "Funiculi, Funicula.")

Some people think it's wondrous to have knowledge

(And so do we, and so do we!)

And some think wisdom's only found in college

(But not so we, but not so we!)

For there's a school of very fine endeavor

(You know it, too, you know it, too)

It trains us to be wonderfully clever,

(Whate'er we do, whate'er we do.)

Chorus:

Mechanics, Mechanics, Mechanics Institute,
Dressmaking, ceramics and all the rest to boot;
Now let us cheer from far and near,
We love our dear old Institute,
Here's to you forever, Mechanics Institute.

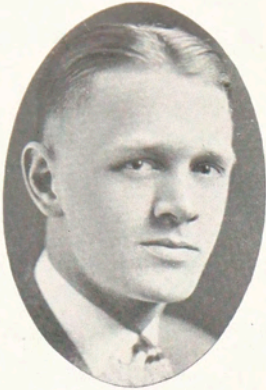

School time of life is infinite — *A*
 Equally so of friendships,
 Pleasant times spent together
 Are materials of infinite value
 Which only God bestows.
 Sweet enobled memories
 Have engrailed our hearts in golden
 Learning —
 Given to us to impart to the world.
 We hate to leave in a merciless
 Manner
 And go unrequitedly —
 But to you shall be the Glory
 Dear Old MI. *A*

History of the Class of 1923

WITH our goal in sight, commencement at hand, and diplomas almost within our grasp, we retrace for a time the "footprints in the sands of time" of Class '23.

Green? Yes, and fresh too were we, called freshmen, who came in September, nineteen hundred and twenty, to M. I. Hardly acquainted with our new surroundings we found ourselves obediently submitting to the general hazing and initiation the first week of school. All the more to be appreciated then was the reception given us by the faculty in the Eastman Building that first Friday night. The green bibs which had been brightening the landscape were conspicuous by their absence that night. A rousing reception it was, and many friendships started then have persisted through the three years.

Late in November, the class entered into the preparation for the annual school Carnival with pep and enthusiasm. A circus was staged as our part of the show and many were the favorable comments for the Frosh.

In February, a successful Valentine Dance was given in Bevier Hall. This too, brought its share of credit.

About the last and distinguishing performance of our first year was our participation in a tug of war with representatives of the graduating class. The Freshmen on the Southern side of the "old" Erie Canal and the Seniors on the North—but only a short parking time for the Seniors. Right at the outset of their Senior week activities their enthusiasm was slightly dampened, by the sparkling waters of old Erie.

September again and the same class—plus more dignity and responsibility. Dances and parties throughout the year helped it to pass as quickly as it did. The outstanding event was the Junior Prom at the Hotel Seneca. Successful and enjoyable it was in every way. President Joseph Vials deserves due credit.

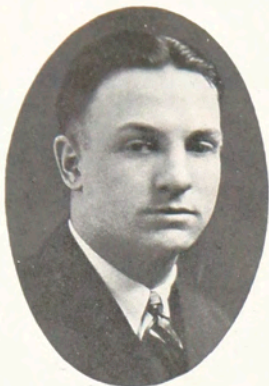

Towards the close of the year the class embarked for a lake trip to Cobourg. Humorous are the stories that may be told concerning the adventure. With the exception of a few, the Junior Class proved themselves land-lubbers, but then Ontario has seen calmer waters.

Another September and the final epoch begun. With Lester Woodward as Class President and Victor Knop, chairman of Senior Activities the class was started on a progressive year. Early in the Fall a sausage roast was held at Charlotte. The moon looked fine from the pier that night and if it hadn't been such a long pier there wouldn't be as many people to prove it.

So numerous have been the good times had by the Senior Class we will not elaborate on individual parties. Gunnar Wiig was given the Chairmanship of the Senior Activity Committee upon the resignation of Mr. Knop. A little later he was also elected President of the Senior Class when Mr. Woodward left school. Much credit goes to him and a lively Activity Committee for the excellent reputation of the Senior Class.

Several dances have been given in Bevier Hall and a sleigh-ride party to Ballantyne Inn in March. Much remains for the future. A full schedule for Senior Week will mark the closing episode in the life of a class—a happy prosperous and worth-while life.

RAMIKIN

WARD M. ALEXANDER X Δ Φ—"Alex"
Glens Falls, N. Y.

Normal Ind. Arts

Associate Editor Siren (1), Student Council (2) (3), Editor-in-Chief *Ramikin* (3), Carnival (1) (2).

Better known around school as Aleck, until three years ago was working for his father (a local contractor) as hod carrier.

After reading Horace Greeley's book on Etiquette he threw down his hod in disgust, and picking up his carpetbag started West. Landed at M. I. in '20.

From that time life has been as a dream, terminating in a wonderful vision who resides at 102 Spring Street.

ETHEL BAILEY
Skowhegan, Maine.

Lunchroom Management

Dramatic Club.

We have all enjoyed this damsel's Sunday evening dates in the Dorm. We know this isn't her only interest for when ambition and goodwill are coupled, the result is our sprightly Ethel.

EVA R. BAILEY
Rochester, N. Y.

Costume Design and Trade Dressmaking

Current Event Club.

"Girls! Girls! I have lost two pounds,"

Is Eva's slogan the year around.

As she enters with a broad grin,

And we admit she is getting thin.

She certainly is accomplished in many lines of work,

Such as cakemaking, hemstitching and making silk shirts.

RAMIKIN

DORIS E. BALTZELL, A Ψ—"Dot"
LYONS, N. Y.

Normal Art

Ewak Club, Basketball (1), Baseball (1), Swimming (1), Gym Meet (1), Carnival (1), Swimming Meet (2), Dorm. Council (2), Y. W. C. A. Cabinet (2), Art League Pageant (2), Junior Prom Committee (2), Art League.

Archimedes has nothing on Doris. She discovered a new way of soldering silver with common ordinary tin. We wonder how Mr. Beal overlooked this. An easy way for us to have our work done in Metalry is to go to Dot. There are other things she is clever at also—athletics, posters, canoeing, etc.

JAMES J. BARRY—"Jimmie"
Waterbury, Conn.

Trade Normal

We have often wondered what was on Jimmie's mind besides his studies, and especially what might be the cause of that lonely look in his eyes. Our worries are over, it is a girl and her name is "Betty." Never mind, Jimmie, it will not be long before you can go back to her and tell her how you thought of her while you were developing your gray matter.

MARTIN L. BARRY
Buffalo, N. Y.

Architecture

Federal Board Club. M. I. A. A.

Martin got the idea that Greek Architecture was all wrong, so he came to Mechanics to find out why. His labors became so difficult that he saw a need for a partner. During his early stay, Martin's evenings were spent—well, we did not know, but before his second year was over, he came to the front leading a blushing bride. He is connected with the "firm" but the burden has rested on every member but Martin.

RAMIKIN

ARTHUR J. BLANCHETT, X Δ Φ—"Frog"
Massena, N. Y.

Architecture

Football (1) (2) Captain, (3), Student Council (2) (3) (Pres.), Inter-Fraternal Council (3), Student Friendship Fund (3), Orchestra (2), Athletic Committee (2) (Chairman) (3), Music and Literary Committee (3).

"Frog" comes from the frozen north, Massena. Anyone ever heard of it?

For three years he graced the ranks of the football squad and in his Junior year he was captain of the team for a side issue. Then he went into politics and was elected to the Student Council. In his Senior year he was elected to the Supreme command of the Student Body, President. He expects to design houses next year.

ROSAMOND BOWDEN—"Bowden"
Rochester, N. Y.

Home Making

Girls' Athletic Association.

"Bowden" is one of our city girls who believes that the way to a man's heart is to be a good cook, so she comes to Mechanics to cook and sew. She always takes her time in doing all her work but it is done well when it is completed

KATHERINE BROWN—"Katey"
Medina, N. Y.

Trade Millinery

Katherine Brown has golden hair and she knows how to wear it. We believe that some day our little Katey will be a great inventor. Even now in her youth she has invented a way to tip her hat over one ear so that she only has to wear one ear ring.

RAMIKIN

DOROTHY BUCKLER—"Dot"
Marion, N. Y.

Art Education

Art League, Basketball (3), Hockey (3), Archery (1), Carnival (2).

Her one ambition is to be a teacher and make other people happy. She has a way of making even her classmates work and so we are sure she will have the same effect on her pupils in later years. Dot also likes athletics and when it comes to basketball she is a whiz. She will be an efficient housekeeper along with all her other accomplishments because she is already busy living in an apartment for two.

RUTH BURGESS
East Rochester, N. Y.

Home Making

Ruth is one of the home makers who comes here to learn to cook and sew. She studies hard to make a success. The reason for this course we do not know but there is always a suspicion back of it when our girls take this course. There is one thing we wish and that is that Ruth would come around so we could learn to know her better.

ELOISE BURNS
Rochester, N. Y.

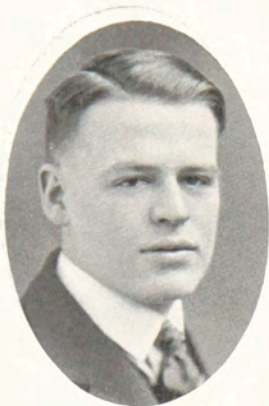

Art Education

Art League, Carnival (2) (3).

There is a young artist named Burns,
Whose noteworthy talents in time
Will teach others who yearn
That they'll get their turn
If it's not only for fame that they pine.

RAMIKIN

DONALD BYRNE, X E Φ
Rochester, N. Y.

Electrical

This gentleman is one of the executives on the Board of Directors of the Mechanics Institute Smoke Room. He is very active in his capacity as a director and soon will be holding down the chair of "Grand Smoke," the highest honor to be conferred on anyone of that order.

He has chosen electricity as his future profession and aspires to drive Edison out of business. No, girls, he is not married.

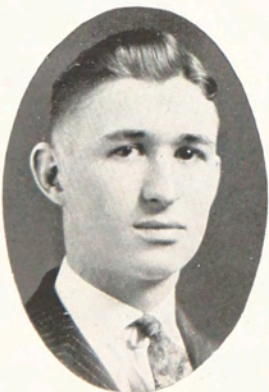

GENEVIEVE E. CAHILL, H B II—"Gene"
Auburn, N. Y.

Dietetics

Carnival (1) (2).

A good librarian and true; you missed your calling when you studied dietetics. Perhaps?

JOHN H. CAMBLIN, X Δ Φ—"John"
Rochester, N. Y.

Normal Ind. Arts

Student Council (2) (3), President M. I. C. A. Cabinet (3), Assistant Business Manager *Ramikin* (2) (3), Chairman of Publications (3).

The world marvels at a strong man but John has held up one end of his class for two years and we think that he should have some consideration when it comes to strength.

The sound of his plane may go from the pattern shop and no longer may the wheels of his lathe go round, but never from our ears will depart the sound of his hammer on the anvil in the forge shop.

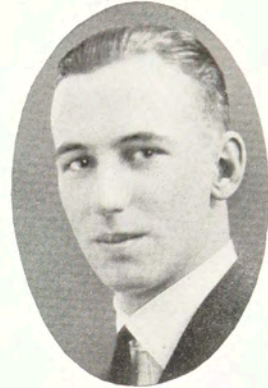

It is John's aspiration to become a "mighty smithy" in a negative sense.

RAMIKIN

EUGENE S. CAMPBELL
Mumford, N. Y.

Electrical

This is the boy who hails from the fish hatchery. Mumford is the place. We could never seem to get much out of this fellow, for some reason or other. Daily we see him enter Eastman with his books. During the day he spends his idle moments in the smoking room and at four o'clock he leaves just as quiet as he came. Perhaps he is a detective for Burns. There might be some pretty, little, lass back there in Fish Town that holds his thoughts.

MARVIN T. CARTER, X Δ Φ — H B II—"Nick" Trade Normal
Oneco, Florida.

Student Council (3), Manager Baseball (3), Treasurer M. I. C. A. (3), Federal Board Club (1) (2) (3).

She calls him "Marve," some call him "Molly;" others call him the "Georgia Peach;" but the call he loves best is "chow call." We surely feel sorry for "Nick" during the winter months. Last November he was seen entering a fur store on Main St., to purchase a suit of "Sheep Lined B. V. Ds." The boys of Chi Phi are surely worried over "Nick" for if the girls Dormitory should catch fire at any time, they would be minus a valuable member of their fraternity.

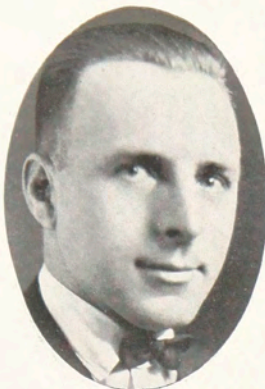

BERTHA L. CATCHPOLE, H B II—"Bird"
Bath, N. Y. Costume Design and Trade Millinery

There are many things our Bertha can do after this year. Perhaps she'll be a milliner making hats for her rich friends or else work in the Dorm. office. Whatever she does, her good nature will aid her in making friends elsewhere, just as it has here at school. She is so quiet, we hardly know that she is around except sometimes after 10:30, when we hear her playing the uke.

RAMIKIN

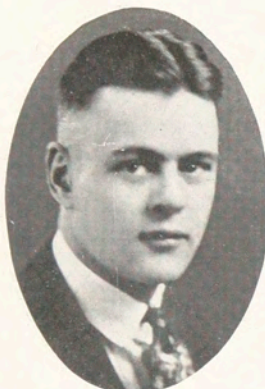

DANIEL CHAPMAN
Hornell, N. Y.

Mach. Design

Intellectually, this man Daniel is a giant and physically he is all set for Hollywood as the accompanying picture will show. That gentle little smile that you see just ready to crack is something that is always there especially when the bulletin board says, "Checks at the Main Office."

Daniel is very fond of the theatre, so he tells us. His preference is a nice quiet drama in which appears two beds. Imagination is a great thing and when it comes to letting it run wild, Dan is from Borneo every time.

KEETON W. CLARK, X E Φ
Rochester, N. Y.

Chemical Engineering

Federal Board Club; Track (1), Asst. Advertising Mgr. *Ramikin* (2), Football (1), Music & Literary Com. (2), Cheerleader (2), Carnival (1) (2).

This very earnest young man fooled us all until we answered a 'phone call from Mrs. Keeton Clark. The first time we ever saw this chap he was running and we have seen him running ever since for one thing or another. Clark's well rounded voice and enthusiasm won him the place of cheer leader, which goes well with "Rock-a-bye baby." He is very fond of studying and balancing equations, and as a side issue he practices with "the rubber-tired" express.

MURIEL E. CORBIN—"Mullie"
Pauling, N. Y.

Home Making

Mullie came to M. I. to learn to cook and sew,
Now she's as busy, making her trousseau.
We wish her all success in the years which come and go
When the meat or the potatoes burn you know—
She'll wish she'd waited just a wee bit longer
Before departing to her abode.

FRANK J. CUSHNER—"Beanie"
Ansonia, Conn.

Trade Normal

F. B. C.

The boy who left a wonderful job in the Ansonia Clock Works to become a teacher; "He was making faces." Mother Jones said he was the only Federal Board man that could eat three plates of beans without stopping. "The marines won the war" but Beanie really admitted that Uncle Sam had a Navy. He became dignified when he transferred to the teachers' course and discarded the "little suitcase" that he used to carry his books in.

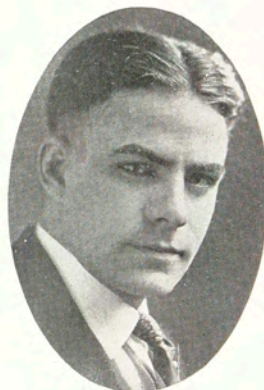

ANDREW C. DOYLE, X Δ Φ—"Andy"
Green Island, N. Y.

Trade Normal

Baseball (2) (3), Football (2) (3), Carnival; F. B. C.

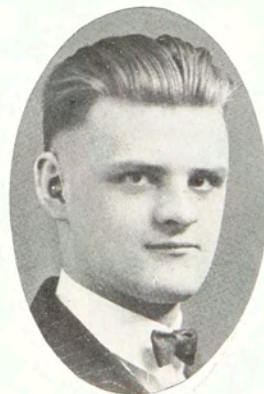

Andy came to Rochester with the idea that the teaching profession needed another good man. He immediately found that he needed an assistant, and this person turned out to be no other than one, Mr. Mahoney. He is not a ladies' man, but we hope the Dorm doesn't catch fire.

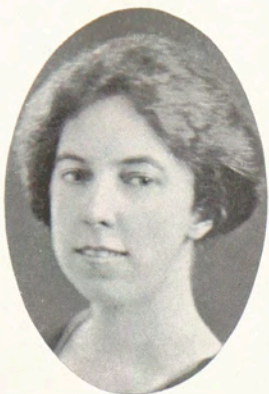

ANTHONY S. DUOBA, X E Φ
Rochester, N. Y.

Electrical

What is all that noise down there? Anthony Duoba. No, he isn't as ferocious as he sounds. After you know him he is nice and gentle and quiet just like the blasting in the Erie Subway. He is registered in the Electrical Department, but for a life-time profession, manufacturing T. N. T. should be his pick. Anthony is a Quaker by denomination, goes to church regularly and suns himself by the lamp-posts between times.

RAMIKIN

LEILA ELTON Costume Design and Trade Dressmaking
East Bloomfield, N. Y.

Leila, who is wise and good—
Makes dresses, coats, and even hoods,
And if in Paris you should see her store,
Look at her garments, which you would adore.

MARJORIE ESLEY, ΔO—"Marj" Art Education
Walworth, N. Y.

Art League, Vice-Pres. Art League (2), Vice-Pres. Freshmen
Class (1), Carnival (2), Basketball (1), Toastmistress Girls'
Athletic Association Banquet.

Marjorie, with your winsome ways
And talents many, too,
Your success grows surer day by day
With the artistic things you do.

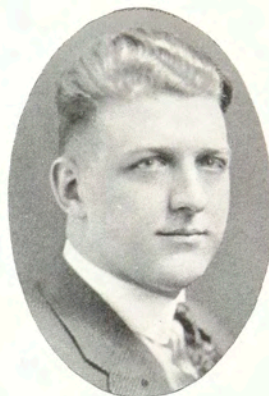

HELENDORE M. ESPEY—"Helen" Home Making
Rochester, N. Y.

Helen likes the short course because it requires less time and
she can spend six weeks in the practice house. It is nice to live
in the city so you can go home. Wonder if she has forgotten the
serenade she received by a competent group one night when she
was entertaining? Wherever we go we see her now in the hall
and from appearances she is one of many popular girls about
our school.

GLENN E. FLURSCHUTZ
Rochester, N. Y.

Mechanical

No, not Florsheim but Flurschutz. The chap with the Irish name and the Jewish voice. "Floor-shoes" is the common name that he answers to and "Set them up again" is another. "Civilization is going backward, at least in this country," he says, if they don't stop making amendments. He is an adept to that art of foot gymnastics, commonly known as Fairy Dancing. Also, he excels to a high degree and soon may be champion gum chewer. To be a traffic officer is his ambition.

NELL MARION GARLING—"Nell Marion"
Auburn, N. Y. Costume Design and Trade Dressmaking

Now that her work is nearly done—
She should select the (only one)
Wine him and dine him on bread and cake
"Absolutely the best," a girl can make.

MARY A. GARTLAND
Canandaigua, N. Y. Lunch Room Management

There was a quiet and unpretentious girl among us whom we all liked. Having finished her course in January, she went to New York, where we are sure she is putting into practice her unwritten motto, "Do well, that which you do."

RAMIKIN

GLADYS GIVEN
Le Roy, N. Y.

Trade Dressmaking

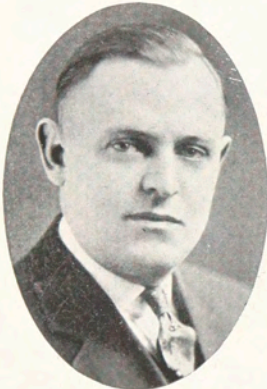

Swimming (1) (2).

Now Gladys as you know
Makes childrens' dresses just so

She says she soon will run a shop,
But her big brown eyes say lots.

About her love affairs we do not know—
She says with the men she does not go (?)

But if in Le Roy some time we should stop
We might learn just lots and lots and lots.

NEVILLE J. GORMAN—"Jimmie"
Waterbury, Conn.

Trade Normal

Jimmie is one of the noble disciples of Herbart and Major-General of the Waterbury Contingent for 1922-23.

In the grand rush to History of Ed. class, Jimmie always manages to get to the fore and plant himself between two of the three fair damsels who attend the class. Of course, this doesn't mean that he is a bear with the ladies and he wishes this fact to be thoroughly understood by all. At present he is employed by the R. B. S. (Rochester Bouncers Service.)

CORA M. GREENAUER (MRS. H. J.)—"Cora"
Rochester, N. Y.

Lunchroom Management

Everyone knows that Cora is a competent and efficient worker; but she also has a keen sense of humor, for who but Cora, in the midst of one of Mr. Horn's lengthy Renaissance discussions, would ask, "Now, what has that to do with a ham sandwich?"

RAMIKIN

HENRY L. GUILFOYLE, X E Φ
Binghamton, N. Y.

Electrical

Federal Board Club.

An owl looks wise and says nothing; Henry looks wise and says that the electrical world needs another good man and is acting accordingly. His chief life is married life, this being the reason why he never hangs around the front door of Eastman building. A very studious person, our Henry is. He has been known to sit down at 7:30 and read the *Whiz-Bang* from cover to cover and then say "now that my studying is done, I guess I will read some snappy stories.

GERALDINE B. HARRIS, A Ψ—"Gerry"
Binghamton, N. Y.

Dietetics

Dorm. Council (2), Dramatic Club Treas. (3).

Gerry, when you get in the Hub City please don't forget us of the Flower City where we enjoyed banquets, luncheons, and trips together.

ETHEL HERBERT
Rochester, N.Y.

Costume Design

Ethel has a hard time restraining herself from drawing those really "Voguey" ladies, but she does it with aplomb and just give Ethel a chance and she'll be starring in *Vogue* and *Vanity Fair*.

RAMIKIN

ROSALIE C. HERBRECHT
Syracuse, N. Y.

Trade Dressmaking

Where is Dot, where is Dot,
Up to the fifth floor Rosalie does trot.

Her little shadow she may find,
Because it is nearly her class time
And for Design she would not be late.

Her love for this class deems her fate,
As a designer she intends to be.

But for us this remains yet to see.

EDWARD HICKEY, X E Φ
Oswego, N. Y.

Chemical

Federal Board Club.

Folks you never knew that there was a master chemist in the school, did you? Well we never did either. Edward P. Hickey claims he is and for all we know perhaps he is. If the strength of those odors that be flying around the hall of Eastman signify that he is a chemist, then we will say that he is some chemist. How often we have walked through the halls with the idea that someone had turned a skunk loose and an investigation found Willie preparing some ill-smelling substance that would have driven a garbage collector to despair.

WILLIAM HICKEY, X Δ Φ—"Bill"
Auburn, N. Y.

Structural

President Federal Board Club (3), Secretary M. I. A. A. (2), Siren (2).

Bill is undoubtedly the best authority on Ford cars in this school. Our reporter could not get in touch with Mr. Hickey, but he had forgotten that Mr. Hickey had a home and everything that goes with it.

This is the fellow who began the exportation of fraternity pins. Bill was one of the pioneers in this business and since then it is alarming to note the great strides made in it's development. In his Senior year Bill was elected to pilot the men of the F. B. C.

PETER A. HOLOHAN
Waterford, N. Y.

Structural Drafting

Football, (3).

Peter turned out to be the stopping place for many a would-be line plunger during the 1922 football season. We don't know what the reason could have been, but he decided that R. P. I. wasn't the best place in the world, so he packed up his trunk and set out for Rochester. He proved to be of great worth to M. I. for it was he who helped to put R. S. O. down to the sod.

ZIAO FONG HSIA
Chefoo, Shantung, China.

Craft Education

Art League Carnival (2) (3), Pageant (1) (2).

Gaze for a moment upon the future ruler of China. This is hard for you to believe we know but that is the truth. Course everyone doesn't know this but one of our clever reporters managed to get hold of it as first hand information. Being a very likely chap in the art, catch as catch can, he has thoroughly convinced us that he will make a success as ruler of China.

DOROTHY HUTCHINS
Lakewood, Ohio.

Lunchroom Management

The phrase, an all-round girl, is somewhat trite yet we can think of nothing else, which so aptly describes this genial person, who, with greatest ease, plays a difficult piece of Chopin, makes appetizing desserts and, (as her room-mates say) works with the most annoying regard for system, as our happy Dorothy.

RAMIKIN

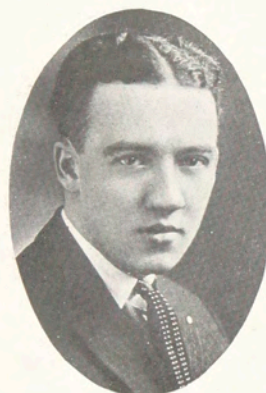

WM. TRACY JANES
Ogdensburg, N. Y.

Electrical

Federal Board Club.

This Mr. Janes comes from Ogdensburg, the land of opportunity for those who have a desire to side step from the 18th amendment. Tracy is pretty much of an electrical wizard, is not a track man, does not stay up late at night and does not go in for politics. Women? No, that is, not much. He is already spoken for.

JOHN F. JUDGE, X Δ Φ
Syracuse, N. Y.

Structural Design

F. B. C., Manager Baseball (2), Chairman Carnival (3).

"Tommy" is soon to step from the halls of M. I. as a structural engineer. If he steps onto the engineering field as he steps onto the dance floor, "Look out! Engineers!" for "Tommy" is there with the foot work on the waxed floor.

"Tom" once thought that hair was useless. He acted accordingly, and somewhere in this book you will find his picture as he looked when ready for jail. He didn't go to jail, though we think he looked that way.

ARTHUR J. KANE
Waverly, N. Y.

Mechanical

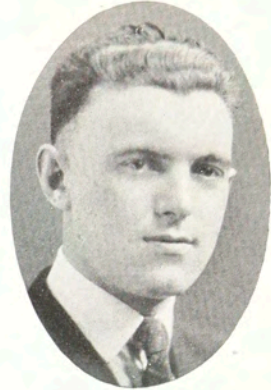

Here is the speed-king who fell upon the Institute saying, "If I don't make that track team." He made it all right. This track team is a team all by itself and this chap is the fleetest, "fleeter" on it. Women don't bother him at all, because—we'll we won't squeal; perhaps some fair maiden will hang over his picture a little while longer than the others and we would awfully hate to have her think otherwise.

RAMIKIN

FRANK KEEFE—"Mickey"
Waterbury, Conn.

Teacher Training

"The boy with the million dollar smile." We have thought very deeply over Mickey's future, and came to the conclusion that he is taking up the wrong Vocation. We are positive that he would give "Doug" and "Charlie" and many other screen favorites a run for their titles.

DOROTHY E. KING—"Dot"
Westfield, Mass.

Costume Design and Trade Dressmaking

Carnival (1) (2), Freshman Initiation (2), Dramatic Club, Bachelor Girls' Club, Dormitory Formal Committee.

For a seamstress look at Dot King,
She works as if her fingers were wings.
She came to us from a New England state
In spite of this to class she's often late.
Never known to hurry and never known to fret;
Cheer up! You will get to Boston yet.

THELMA KNAPP
Rochester, N. Y.

Illustration

Art League (Sect.), Pantomime (2), Carnival (3), Dramatics (3).

If you want a thing done really well ask Thelma to do it. She won't make much noise or fuss but how she will work and—such work—Thelma is one of the artists from Bevier who is going to deserve the name.

RAMIKIN

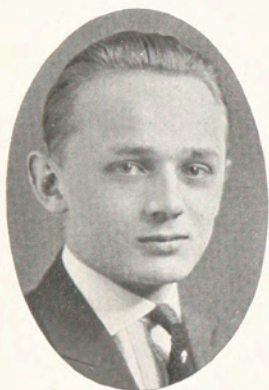

GERTRUDE J. KNOEPFEL, Δ O—"Gert"
Scranton, Pa.

Craft Education

Vice-Pres. Senior Class (3), Dormitory Council (3), Junior Prom Committee (2), Chairman Dorm. Dance (3), Senior Activity Committee (3), Art League, Batchelor Club (3), Carnival (3), Gym Meet (1).

Gert—"A shining light"—is as bright as she is fair. They say blondes are fickle but there are always exceptions. She will surely want to be back in Rochester next year to attend all the dances. We thought at one time this year she had purchased a Ford coupe but that cannot be true as we do not see her riding about in it now.

VICTOR R. KNOP, Φ Σ Φ
Rochester, N. Y.

Architecture

Track (1), Pres. M.I.C.A. (2) (3), Orchestra (2), Junior Prom Committee, Pay Day Committee (2), Carnival (3), Chairman Senior Activity Committee, Interfraternal Council (3), M.I.C.A. Cabinet (3).

Victor was good and strong with us in the beginning, but for some reason or other he lost out in the end. He started out to be an architect and for all that we can find out he is still at it. Some one said that he had a terrible habit of going to the Family theater and throwing bouquets at the Chorus girls. Surely Victor, this isn't so.

STEVEN KRASKIEWICZ
Rochester, N. Y.

Art Education

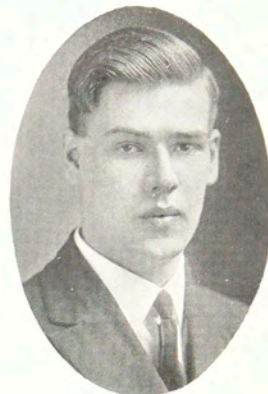

Art League, Carnival (1) (2) (3).

Some prayers have been answered and some have not, but here is the answer to the maiden's prayer. "Cracks-his-wits" is the popular boy of the art school. He is so popular that borrowing a smoke is as easy for him as it is to make the sun shine. He is a real son of Old Erin as his name will signify, but he tells us that he never expects to go back to that country. The rumor that he is a candidate for President in 1924 is all wrong.

LUTHER H. KRESGE
Binghamton, N. Y.

Normal Industrial Arts

We wish to present to you, ladies and gentlemen, the one and only Luther H. Kresge, the flashing evangelist from Binghamton. Possessing a keen appreciation for religion and its teachings, he has proved to us, that some day, somehow, somewhere, he is going to prove to the world that Darwin and his theory is all wrong. He made a cedar chest but we have never been able to find out the rest of it. His friend, Mr. Adamson made one and we know where it went. "Birds of a feather flock together" so come on, Luther, out with the secret.

RETA LARKER
Webster, N. Y.

Home Making

Reta is a "Home Maker" they say. There are two things we know about her, one that she dislikes perfume around her room and secondly that she does not like jewelry of any description. She always wears a pin—the emblem of some fraternity. That solves the problem of why she is taking the diamond ring course and she will be a competent little housewife we're sure.

FRANK LeBARBERA
Mt. Morris, N. Y.

Architecture

Football (2) (3), Track (1), Art League Pageant, M.I.A.A.

"What is that cloud of dust on the tow-path?" We are relieved of the doubt when a gust of wind blows this dust to one side and we see LeBarbera in his spring training, not yet able to keep out of his own dust. This speed boy could make good if it wasn't for that tired southern feeling that comes with him from Mt. Morris. After he had shaken the mud from his heels he developed into a football player and landed a regular berth on the varsity team last fall.

JOSEPH P. LEDDEN
Rochester, N. Y.

Craft Education

Art League Carnival (1) (2) (3).

"Silent Ledden" the man of mystery at the Institute. This is one fellow that will never have to worry where his next meal is coming from as long as there is a crowd of people around. He will simply have to say his few magic words and then proceed to take in the eats just as he did at the Senior Show of the Carnival. His nimble fingers are just as clever in his work as in his mystery tricks.

MARJORIE LEETE, Φ Υ Φ—"Marg"
Addison, N. Y.

Home Making

Dramatic Club.

Marjorie never appears to be studying hard, and yet when the time comes, she is always there with good grades. With some it is a gift, but with her it is individuality. Grades are not the only things this individuality brings, for Marjorie has many admirers, gentlemen included.

GEORGE F. LENT, X Δ Φ
Albion, N. Y.

Illustration

Now that June is here we are waiting patiently for George's next move. For three years he has perplexed us, just what could be behind it all.

He has for his chief pastime, outside of swinging a paint brush, the delightful task of reading Barney Google in the Sunday papers. When he isn't doing this his address is usually 102 Spring Street. George expects to be a commercial illustrator and evidence of his future success has already been shown.

JULIA LOUISE LEWIS, H B II—"Louise"
Jamestown, N. Y.

Craft Education

No one finds her hurried—She comes to class as she will but her records never seem to suffer. We often hear of her getting up early in the morning to take a long walk before serving breakfast—not much—she believes in the theory that one needs all the sleep he can get, even if classes have to be neglected to do so. She's not as *slow* in some things as others.

A. JANET LORICHIO
Roselle, N. J.

Dietetics

Girls' Athletic Association, Current Event Club, Y.W.C.A., Basket-Ball.

Our ever faithful classmate and helper. Good luck, Janet. Don't forget M. I. when you are head dietitian in New Jersey.

JOSEPH M. MAHONEY, X Δ Φ — H B II—"Joe"
Troy, N. Y.

Mechanical

Assistant Manager Baseball (1), Manager Football (2), Student Council (2), Carnival (2), F. B. C.

The Stephen A. Douglas of M. I. Joe was manager of Football and was interested in all sports both inside and outside. It was rumored that Joe was after the Presidency of the school, but Clarkson came through with a bid in the last two minutes of play.

Joe expects to make his residence in Pike, N. Y., and later, after he gets settled, may run for the office of Fire Chief due to his excellent work on the Dormitory Squad.

RAMIKIN

ADELINE E. MARKS, A Ψ
Rochester, N. Y.

Design

Art League, Dramatic Club Play (3).

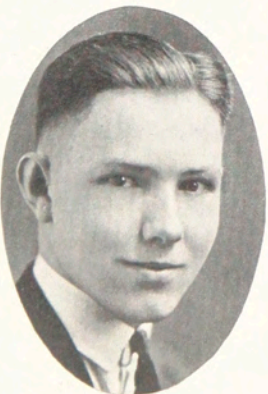

Adeline to decorate,
With clever fingers true,
A fellow can anticipate
A pleasant life with you.

Despite your curiosity
We love you more and more;
For Ade, has animosity
And ne'er will seem a bore.

RUTH MARTINEAU (MRS. A.)—"Ruth" Lunchroom Management
Rochester, N. Y.

Ruth finished her course in January, but being ambitious and industrious she came back with us, helping out wherever she was needed. We expect Ruth to finally locate in New York.

CLARENCE D. MARVIN
Pavilion, N. Y.

Electrical Construction

This chap takes a great deal of pride in a railroad ticket that he has used for twenty consecutive trips, and he claims that he will undoubtedly use it for trips to come. Giddap. Pavilion next stop.

He is far from being a man for the Wi-wo's. Can you notice that little smile that is just ready to break over his face? Well, that was produced by setting a cuckoo clock close beside him.

EDWARD H. MASSETH—"Tiny"
Rochester, N. Y.

Mechanical

F. B. C.

The school will lose a valuable track man when "Tiny" leaves. His hundred yards reminds one of a slow movie. Tiny has done some pole vaulting but quit because he couldn't jump with that big pole.

During the last semester, Tiny always visited classes during the last few minutes of action and his excuse was due to the fact that he had to prepare his own breakfast.

It is rumored that the General Electric is after Tiny but you can't get a word out of him.

RUTH MATTHEWS, ΦΥΦ—"Ruth" Lunch Room Management
Rochester, N. Y.

Dignity is a rare quality, and we sometimes forget that Ruth is its possessor, when around the corner we hear, "Now, isn't that just too revolting?" We think it "perfectly marvelous" that she can hold her dignity in spite of that apron which she "loves" to wear.

LAURA MAYBANK
Rochester, N. Y.

Costume Design and Trade Dressmaking

She is our neat, prim, little spinster,
If you doubt this ask the son of the minister
Say! She can sing and she can play—
But likes best to "stitch" all day.
Soon you will say I bought this frock,
In East Avenue at the Laura Shoppe.

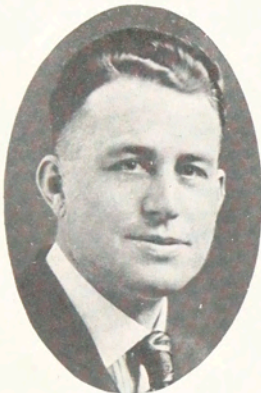

RAMIKIN

RAMONA A. MCCARTHY—"Mona"
Rochester, N. Y.

Dietetics

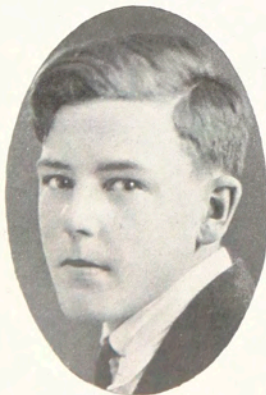

Beloved by one and all; the pride and joy of both teacher and classmate—(especially when an exam is in view.)

JAMES MCCORMICK—"Mac"
Waterbury, Conn.

Trade Normal

The wise men of the East came, and with them came Mac. It took Mac some time to locate and settle in this great city and especially to find something to do during his spare hours. He was finally spotted by a proprietor who was having considerable trouble to maintain order in his dance hall; Mac solved the problem. It is a common sight on Saturday night to see Mac at his work tossing the Slickers about.

RICHARD H. MCCULLOUGH
West Webster, N. Y.

Electrical Construction

This is another of those wild and wooly Electrical Construction boys. The Institute will seem like a morgue after they leave in June. Richard is one of the leaders in this gang of rough-housers and the pages of *Mechanics'* history tell of his cruel and heartless deeds. Not long ago he bought a piece of candy in the store, walked out into the hall and deliberately threw the paper on the floor. He is sure to make good after he leaves the school if he still maintains his principles of Rip Van Winkle.

MADALAIINE HUGHES MCGILL—"Mandy"
Waterbury, Conn.

Art Education

Senior Activity Committee (3), Freshman Initiation, Art League, Junior Prom. (2), Batchelor Club (3), Gym Meet (1), Hockey (2) (3), Carnival (1) (3).

Some people love to hear the band play "Annie Laurie" but Mandy's favorite is "Johnnie's in Town." These are long days for her because Johnnie isn't in town. All she has to do now is to learn to sew a fine seam and teach her Sub-Normals. There is one other thing she should learn to do and that is to brew a fine cup of tea because Mandy certainly loves her tea. She used sugar and cream with it, so we guess she won't be an "Old Maid."

DESALES McMILLAN
Rochester, N. Y.

Trade Dressmaking

Swimming 1, 2, 3. Captain Ball 2.

A friend to one, a friend to all;
And she surely can play captain ball.
In athletics, my she does excell,
And down in Corning was the city belle,
She abideth in Rochester now which is very fine
But give her Syracuse in the good old summer time.

ROBERT A. MERRIAM
Brownville, N. Y.

Trade Normal

"Still water runs deep," but that "cedar chest" seemed to throw a little light on the cause. It must be wonderful to dream day after day of one so far away. There was a great change in Robert one week before the Easter Vacation, and we were somewhat worried as to the cause, and as the last day of school drew near, Robert was seen grinning from ear to ear. Next stop, Brownville.

RAMIKIN

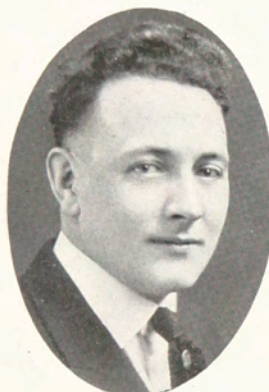

WILLIAM C. MILES—"Bill"
Rochester, N. Y.

Mechanical

F. B. C., Football (1), Welfare Committee (2).

Bill wasn't born to study. He was picked out for harder work than that, but what is his work, we wonder. With the fair sex he is about fifty-fifty.

His mind is given over to thoughts bordering on a sewerage disposal plant for the Institute. He also plans to do away with those savory odors that so enhance the halls of the Eastman Building just about noon time, when everyone is hungry. We wish him all the luck in the world in accomplishing this proposition.

JOSEPH L. MORRIS—"Joe"
Reading, Pa.

Electrical

Joe just got married. We are afraid that he soon will be bald-headed for he still persists in giving away locks of his golden hair.

At one time Joe was the Sheik of the West Side Dancing Academy. He was also a candidate for the track team under the supervision of A. J. Kane.

In 1920 Joe was stationed at the corner of Main and State Streets selling the *Police Gazette*. In 1921 he found himself and came to the Institute.

MAGNUS M. MORTENSON—"Mort"
Eltingville, S. C.

Machine Design

F. B. C.

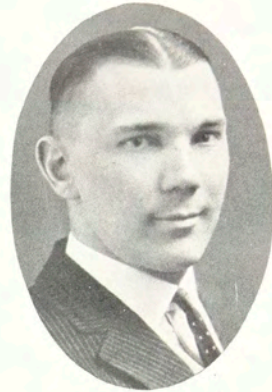

The world gets a good one when this chap leaves our fold. The picture of "Mort" does not do him justice, and the only thing that we can dope out is, that he framed the photographer. "Mort" does like automobile rides, roller coasters, Syracuse, and many odd things common to Machine Designers.

FRANK J. MURZGENSAI
Hartford, Conn.

Architecture

F. B. C., M. I. A. A.

Frank is the boy with the Irish name and features. His desire to come to the Institute was only more worlds to conquer. It is a common sight to see him starting for home at 4 o'clock with both arms loaded with books and drawing boards. He has a fascination for white socks which tend to show him off as a real "duke." Punctuality is the key note to his future success as an architect. He comes and goes with the janitor and sometimes we are inclined to think he might be the night watchman.

UME NAITO
West Henrietta, N. Y.

Costume Design and Trade Dressmaking

Patient, demure, a lady so sweet,
Who goes tripping by with tiny feet.
From over the water we welcomed one day,
A dear little maiden—so quiet they say.
From the land of the cherry tree—
To our "home of the free."

FRANK J. NAPOLI
Rochester, N. Y.

Architecture

M. I. A. A.

No my friend, this is not "Trotsky," only one of his advanced agents; give him a soap box and you will be convinced. We are almost sure at times that he is trying to introduce aesthetic dancing with our modern fox-trots. He blossoms forth attired in the latest of jazz effects and steps around like Rudolph himself. He hasn't told us much of his past, but we are sure that the burden of his future will be somewhat lighter after his 3 years at Mechanics.

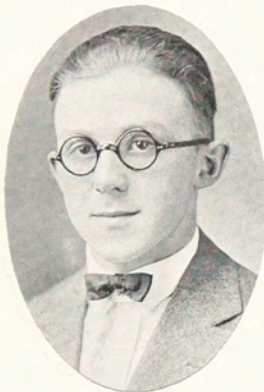

ARTHUR W. NEFF, $\Phi \Sigma \Phi$ —"Art"
Rochester, N. Y.

Trade Normal

Senior Activity Committee (3), Carnival (3).

Art left us once and then came back again, and now he expects to be a guiding star for those searching for the beacon light of knowledge.

Not long ago he decided that our public dance halls were going to ruin and immediately set himself to that high, sublime position known as "Bouncer." Some one told us he was lazy—no, lazier.

CLARENCE NICHOLS, $\Phi \Sigma \Phi$
Lodi, N. Y.

Electrical

Carnival (2).

We have searched the map over but we cannot find Lodi and we have finally decided that he is just trying to fool us.

It is understood that he believes in concentrating all his interest on one point. He does this every night in the week and now that Sea Breeze is open they will go out in the afternoon. Who she is constitutes the mystery that holds him from us. Electricity is his second interest if he has one.

EVELYN I. OLSEN
Jamestown, N. Y.

Lunch Room Management

Evelyn is just as sweet as she can be, and has made many friends at Mechanics. In spite of the fact that she doesn't say much, we know that she is often annoyed by numerous telephone calls, (?). She has many good qualities, and we are sure that her friendly ways will win her success wherever she goes.

GRACE B. PECK, Δ O—"Grace"
Charlotte, Michigan.

Art Education

Art League, President Dorm. (3), Dormitory Council (2),
Vice Pres. Y.W.C.A. (2), Secretary Art League (2).

Grace is not worrying about getting a position as a school
marm, because there is always the farm to fall back on. There
is only one thing we wonder about and that is why she blushes
when she is questioned about Lent.

ANDREW F. PHELAN, JR.—"Andy"
Waterbury, Conn.

Trade Normal

We have often wondered why they call him the "Son of Mac"
but then some one must watch over and advise him while he is
in such a large city. He has great possibilities of becoming one
of our foremost teachers, always with something to say about
everything. A mighty voice he hath for such a little man.

A. WHITCOMB POLLARD, X Δ Φ
Belmont, N. Y.

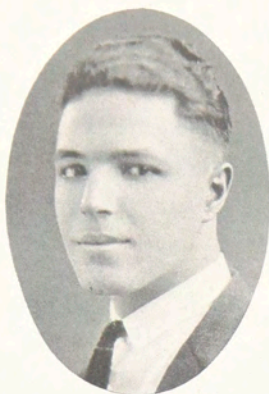

Mechanical

Baseball (1) (2), Interfraternal Council (2), Assistant Adver-
tising Mgr. *Ramikin* (1).

Ladies, this is Whitcomb. Now don't rush, stand back and
don't get too eager. We are about to let you on to a secret. He
is already spoken for. Please drop those tears outside, ladies,
for we haven't our rubbers with us. Belmont is his home, no
not the race track, Belmont. He came to us a quiet, bashful boy,
but since then he walks around and smokes cigarettes just like
the rest of us.

RAMIKIN

WILLIAM I. POWELL—"Bill"
Ithaca, N. Y.

Mechanical

Bill, when not entertaining the ladies, can be found by the side of a baby grand massaging those yellow and black stripes. His contortions at the piano have aroused the interest of the American Association of Surgical Research as a possible cure for paralysis.

Bill proved himself a speed artist in a few subjects, but is known to take the air especially when he peeks out of upper story windows.

MERLIN W. PULIS, X E Φ—"Merlin"
Rochester, N. Y.

Industrial Electrical

Notice that head of hair which drapes itself over the top of this gentleman. This is the result of lazy hours spent in combing, fondling, brushing, and polishing. He dances all the latest dances with the exception of the "Can-can." This does not mean however, that he is one of the boys who wear the slitted trousers, no, Merlin isn't that kind. He has a nice quiet way of getting around.

DANNY F. QUIGG—"Dan"
Andover, N. Y.

Electrical Construction

Dan, the Sheik of Andover, came here to study electricity and he has proved wiser than we ever took him for. He took Edison off his feet and *Steinmince* is reported as tottering.

Somewhat Danny got down to the farm a short time ago and we think we pretty near lost our Danny. How about that?

RAMIKIN

MILDRED L. QUINN, H B II
Cortland, N. Y.

Lunch Room Management

Dramatic Club.

Mildred Quinn thinks it a sin,
If every dance she does not take in.
You would not miss her, if you were there
For she is the girl with the "wuzzy" bobbed hair.
Now Mildred is capable, while she is at work.
Can she take responsibility? Of course. She'll not shirk.
She has several admirers; three or four, or so,
But especially George, from R. S. O.

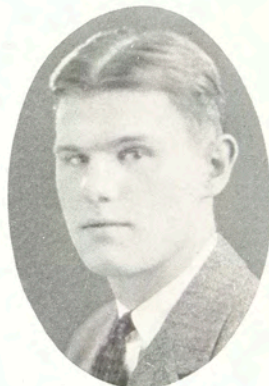

HUGH S. REDPATH, X Δ Φ
Endicott, N. Y.

Mechanical

Here is the lad with the salt and pepper eyes and the cream and mayonnaise complexion. There was never anyone that attracted Red anymore than that little miss back in Endicott. We could never get him to go with anybody but a certain "Gert" and even that was just for a short time.

Once upon a time somebody put an egg in his bed and foolishly he sat on it. The result was only natural and it was some result. Now, suppose he had put his little footies in that terrible result. Mike's chief aspiration is to become a consulting engineer.

MARION REED, Φ Υ Φ
Rochester, N. Y.

Lunchroom Management

Pep is Marion's middle name and she thinks laughter is sunshine in the house. Her time is not given over entirely to laughter, for while everyone enjoys this trait, they also admire her ability as a worker. Ask any of the staff in the kitchen for their opinion.

RAMIKIN

AMBLER ROWLAND, X E Φ
Saratoga Springs, N. Y.

Chemical

Hail! All hail! The barnyard golf champion is here. Rowland the champion horse-shoe player of M. I. What is the reason for this? Well, he comes from the land of "Spring water" and horse races, Saratoga. Probably he became so used to dodging the feet of the horses as he attempted to crawl under the fence, that he and a horse-shoe became close friends. Ambler is strong for patronizing home markets. He advocates Saratoga Vichy for health and energy, and is a staunch prohibitionist.

DOROTHY G. SAYRE, A Ψ—"Dot"
Montclair, N. J.

Dietetics

Student Council (2).

Don't work too hard, Dot, and take life so seriously. It never pays; you'll get there just the same.

BERNARD D. SEELEY, X Δ Φ
Wayland, N. Y.

Architecture

Vice-Pres. M. I. A. A. (2) (3), Carnival (2) (3), Budget Committee (3), Purchasing Committee (3).

Anybody would think at a look that this bird was a politician or a deep sea diver. The fact is that he did dive, but not in the sea. He has never told us anything about her, but the secret has been revealed by the postman. Cupid can shoot pretty straight, even down in the wilds of Wayland. Since he has been at the Chi Phi house, he has developed a great ability in the capacity of a chef. His dishes may lack the fancy touches that characterize the Odenbach or Kenealy's, nevertheless Bernard is sure that the necessary calories are contained therein.

HELEN F. SEKOL, Δ O—"Helen"
Scranton, Pa.

Craft Education

Senior Activity Committee (3), Dorm. Council (3), Batchelor Club (3), Hockey (3), Captain Ball (3), Base Ball (1), Gym Meet (1), Basket Ball (3), M. I. Ski Club (2), Carnival (3), Junior Prom Committee (2).

Every year Helen finds new friends and we know the reason why. Her school teaching duties begin next fall when she will be in Clyde, N. Y. and her own boss for all. We are quite sure she will journey back to Rochester quite often to see her girl friends or to receive instructions in Psychology.

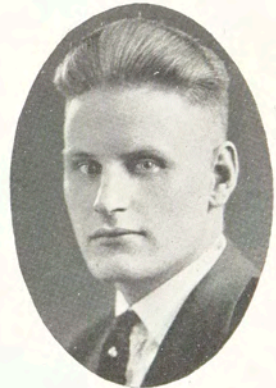

LOUIS SEVERSON, X E Φ—"Sevvy"
Eau Claire, Wis.

Electrical

Football (3), F. B. C.

After serving on the pay roll of Uncle Sam, Louis came all the way from Wisconsin to show old M. I. how well he could play football.

Just at present he is studying the effects that electricity has upon poultry. Back in Wisconsin, he says, they keep the lights on all night in the chicken coop and in the morning go around with a wheel-barrow to collect the eggs. Yes, Louis fools everybody, even the chickens.

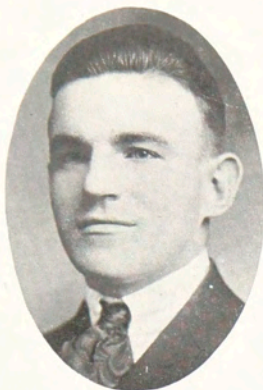

LEE N. SHERWOOD, X Δ Φ—H B Π
Wellsville, N. Y.

Normal Art

Junior Prom Ticket Chairman, Vice Pres. M.I.C.A., Ewak Club, Senior Activity Committee, F.B.C., Contribution Editor, Siren (2).

Lee is a real son of the Southern Tier, and loudly he proclaims the wonders and fascinations for that land. Lee once had a running mate and between the two of them, they nearly ran a local hostelry out of business.

JOHN F. SLAVIN, X Δ Φ—"Slick"
Cohoes, N. Y.

Structural

F. B. C., Baseball (2) (3), (Captain 3), Football (2) (3), Basketball (3).

A man that can hold down the captaincy of football and baseball and a regular berth in basketball in his Senior year is sure some man. Jack comes from Cohoes, which of course, makes all the difference in the world. He possesses a gift of speech, which when allowed its freedom, would force a jewelry auctioneer out of business.

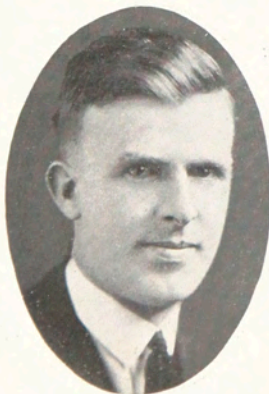

ELMER V. SMITH—"Smitty"
Webster, N. Y.

Electrical Construction

Basketball (2).

Oh! Elmer. Here is the lad who hails from ——— Webster, did you say?

Elmer was a wonderful pill-tosser on the M. I. five. He smokes Camels, stays out nights, rides the Park Avenue Street cars, and on Sunday visits the folks (?).

HERMAN F. SMITH
Dansville, N. Y.

Structural

F. B. C.

Herman Smith, alias "Set Tight" or "Dansville Sparkplug" has been in our midst for several years. During this period he has been a faithful runner between our Organization and the Veterans' Bureau.

His graduation from the school will sever the very close ties that have existed between the Institute and the Veterans' Bureau, but he will leave with us his motto: "Set Tight Boys."

EDRA L. SNYDER—"Eddie"
Hornell, N. Y.

Costume Design and Trade Dressmaking.

On the sixth floor you often hear,
"Come play the uke, Oh, Eddie dear."
As a serenader she sure is fine,
And she is taking Costume Design.
But actions speak louder than words or deeds—
And as a home maker her life soon she'll lead.

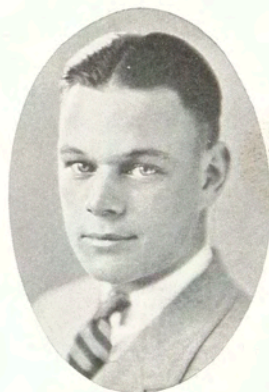

OREN C. STEELE, $\Phi \Sigma \Phi$
Batavia, N. Y.

Special Industrial Arts

Pres. Freshman Class, Senior Activity Committee.

Oh! he's all right. He is just one of those specials, happy and contented and always borrowing a smoke. Playing "Old Maid" is his favorite pastime and when he is not doing that, he will be found in that popular vocation, "Shooting the Bull."

CARL E. STEVENSON
Macedon, N. Y.

Electrical Construction

Note that intelligent expression denoting a love for learning. That high forehead which reveals an artistic taste. Those quiet unassuming eyes which are buried in mystery and romance. He is one of those sleeping beauties in the electrical department. Does he like the girls? Well, so-so. Wine, Women and Song, have ruined many men and so Carl doesn't sing.

RAMIKIN

HELEN STOUTENBURGH—"Jim"
 Pike, N. Y. Costume Design and Trade Dressmaking
 Carnival (1) (2), Freshman Initiation (2), Senior Treasurer (2).

There once was a student at our school,
 At our school she did dwell,
 She loved her lessons truly,
 But *all* men twice as well.

 Bath, N. Y. Dietetics

Dorm. Council (1), Student Council (2), Carnival (1) (2).

In the year 1921, didst make a long journey from Bath a little
 maid. Her shining light has ever led us onward. Keep up the
 good work, "Red" you'll be a dietician by and by (for two—
 which one?)

CARL A. TIBELL
 Arcade, N. Y. Architecture

F. B. C., Art League, M. I. A. A.

This gentleman from Arcade possesses the stern reserve of a
 puritan, the neatness and ability of a master Architect and a
 genius to make good notebooks. We have often wondered how
 a chap like this could have escaped the storm of matrimony.
 Coming from a place like Arcade is nothing to his credit for we
 are told that this metropolis has about 400 inhabitants, 300 of
 which will never again be active on Mother Earth.

MARIAN BREWSTER TUTHILL—"Tut"
Rochester, N. Y.

Art Education

Art League (1) (2), Carnival (1) (2), Captain Ball (1) (2) (3),
Basket Ball (1) (3), Hockey (3), (Capt.) *Ramikin* (3).

"Tut" is no relation to King Tut as far as we know, but she may enlighten you. Always ready for a good time she goes about, greeting one and all with a glad "hello." "Athletics" are her strong points. She most surely is an "Artful Dodger" and a "Wildcat." We hope in later years that her one ambition in life will be realized—that of being a matron of an orphan asylum.

RICHARD F. TUTTLE, $\Phi \Sigma \Phi$ —"Dick"
Victor, N. Y.

Electrical

"Victor." No, it's not a loan or a pawn-ship, it's the name of his home town.

Dick doesn't seem to like the girls at all but he has been seen out with the ladies and every time they have proved to be his sisters. What a large family you have, Richard.

H. G. TWIETMEYER
Hanover, Ont., Canada.

Special Industrial Arts

Where is he from? The shrine of the Bootleggers. He claims to be a staunch prohibitionist and just now he is making a deep study to determine the exact reason why people under the influence of Bevo have hic-coughs.

In his life there is only one girl and some day he is going to invite us all out to his house and eat fudge. He is famous for his conduct in the machine shop and the West Side Dance Hall.

STANLEY VASAUSKAS—"Stanley"
Waterbury, Conn.

Mechanical

Count Vasauskas, the roller skate marvel is before you.

It is reported that he is some skate—in fact, he goes on skates both ways. Just notice for a moment that ridge over his right ear. This was the result of an attempt to perform a difficult step known to skaters as the "Old Deacon Whirl."

He is also a marvel on that melodious instrument—the Jew's Harp.

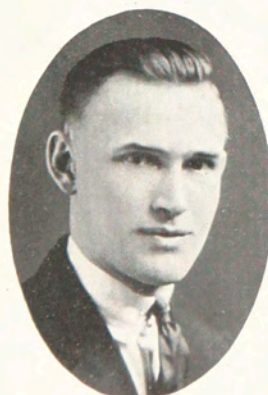

ADELAIDE C. VINCENT, A Ψ—"Ad"
Little Falls, N. Y.

Interior Decoration

Vice Pres. Junior Class (2), Art League, Ewak Hiking Club' Gym Meet (1), Captain Baseball (1), Basket Ball (1) (3), Captain Ball (2) (3), Swimming (1).

She is one who enjoys all sports from baseball to dancing and canoeing. She will have her plans all made now for her home in the Mohawk Valley if that is where *he* may be located. She surely will never be too careful about the cloth she uses to dust the new furniture.

MICHAEL J. WALL—"Mickey"
Waterbury, Conn.

Trade Normal

Serious Mike! Like the advertisement for Grape Nuts, "there's a reason." Some of the single fellows can't seem to understand why Mickey is so serious, but wait until they say "I do" and have a brother-in-law to pal around with while away from dear Wife, then they will know of all the worries and troubles Mickey has to contend with while at M. I.

DONALD E. WEBSTER, X E Φ — H B II
Cazenovia, N. Y.

Chemical

Orchestra (1), Interfraternal Council, Senior Activity Committee (3).

We have traced back in all possible directions in hopes of finding some relation between Donald and Noah, but we have failed. Donald didn't choose to do his blowing by means of the printed page, he chose the trombone. He is a very ambitious, quiet-going, individual with a step like a drum major. His only fault is that he talks with the ladies.

FLOYD H. WHITMARSH
Rochester, N. Y.

Machine Design

F. B. C.

The quiet man around M. I. is Floyd. Quietly he comes and goes, day after day. Before he came here it was his chief delight to chase the huns around, but November 11th came and put a stop to that pastime.

As a machine designer he is sure to make good. He has no bad habits to speak of except that he studies too hard.

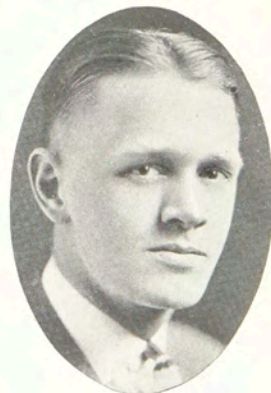

GUNNAR O. WIIG, Φ Σ Φ
Rochester, N. Y.

Chemical Engineering

Basketball (1) (2) (Capt.), Baseball (1) (2), Chairman Mardi Gras (1), Secretary M. I. C. A. (2), Pres. Interfraternal Council, Treasurer Student Council, Treasurer Athletic Committee, Chairman Senior Activity Committee, Advertising Manager of *Ramikin* (2).

The right hand man of the Institute is this man Wiig. Being well adapted to most anything that came his way, he has walked away with the gravy. Finally he ran out of something to do, so he took a position of heaving sand-bags just to keep in condition. Some day he hopes to be a Chemical Engineer and then maybe he will be able to tell us why silver dollars are not found in sand-banks.

MARION A. WILCOX—"Marion"
Campbell, N. Y.

Art Education

Art League, Treasurer Freshman Class (1), Basket Ball (1) (3), Hockey (2) (3) Captain Ball (2) (3), Ewak hiking Club (1) (2) (3), Student Volunteer Conference Delegate, Pageant (1), Carnival (1), Senior Activity Committee (3), Vice Pres. Girls' Athletic Association (3), Secretary Senior Class (3), Treasurer Y. W. C. A.

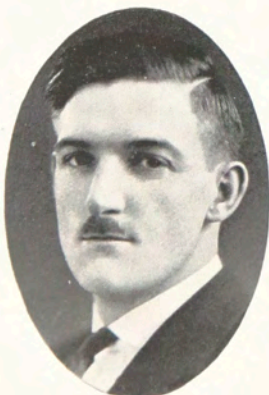

Marion doesn't worry about the future; the present is all she has time for. She believes in taking time whenever she cares to, such as after a week-end in Schenectady, etc. She is going to be a teacher she says, but we would rather picture her in a little home for two.

CHARLES WILLIAMS
Olean, N. Y.

Electrical

He hails from Olean which of course is not his fault and this is putting it in a mild sense. His chief hobby must be burning the midnight stuff for he is seldom seen out at night. When he is seen it has never been known that someone was clinging to his arm. This all tends to add to the mystery that surrounds him. Back in Olean there must be somebody who patiently waits his return.

EUGENE A. WINTER, X Δ Φ
Rochester, N. Y.

Commercial Art

Carnival (1) (2) (3), Art League.

Gene is the boy who paints all kinds of animals from purple snakes to cuckoo birds. He came to us after working for Uncle Sam and now expects to paint pictures for the rest of his life.

You would never think that he was a detective. Well he isn't. That moustache is there for ornamental and not professional purposes. He is very indifferent to the girls, but that is the way it should be for Gene is bound up for life.

JOHN YERGER
Rochester, N. Y.

Electrical Construction

Now that he is soon to graduate John expects to go out into the world and show them what a real electrician is. He has proved that he is worth his salt for he and a few others have done a lot of work around this Institute. Women and he are as far apart as a lot of fellows are from smokes. Besides being a master electrician, no one person buys more candy at the store than this fellow.

GENEVIEVE S. ZUKOWSKI—"Jenny"

Costume Design and Trade Dressmaking
East Rochester, N. Y.

In English, in budgets, in nursing, and all—
Genevieve is not there to answer roll call.
She is not exactly a ten-o'clock scholar
But then I'm sure she'll be earning her dollar
For her work done so nicely and well,
In a progressive shop will always sell.

The Junior-Seniors

The Home Economics Teacher Training class of 1924 will attend the University of Rochester next year in order to obtain their B. S. Degree.

Therefore the Juniors taking this course have set a precedent whereby each year these Juniors will have a portion of the *Ramikin* following the Seniors and will be considered Seniors in this way. The affiliation of M. I. with the U. of R. for this degree course takes these students from the activities of Mechanics during their senior year as they must have a resident year at the University.

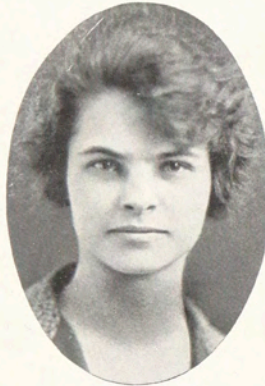

RAMIKIN

WINIFRED BURTCH—"Winnie"
Branchport, N. Y.

Teacher Training

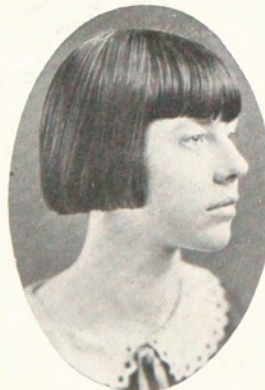

Winnie, as we call her, is the one girl we have at M. I. who never worries. Why worry about your lessons, is her motto. When the final chance comes however she's always there with the rest of us. She just loves to play pranks and never will any of us forget when she rode around the Dorm in her "Stutz." "Pep" is her middle name and she lives up to it.

CAROLYN BUTTS—"Butts"
Rochester, N. Y.

Teacher Training

"What will I do now? They have changed the rules again and I can't get all my subjects in." That is what we hear Carolyn say as she goes about school. Notice that the sentence begins with "What!"

LUCY A. CARDWELL—"Luc"
Seneca Falls, N. Y.

Teacher Training

Basketball (1), Carnival (1), (3), Business Manager Dramatic Club (3), Junior Banquet Committee (3), Assistant Librarian (3).

"Luc" is what we call her and it's not spelled loose either because she is all there with knowledge and pep. Perhaps she has quite a bit more knowledge than most of we H. E. girls, as she knows how to capture. We all wish her good luck in every way, even in her cake-selling project this summer in the little town of

RAMIKIN

GENEVIEVE CAZEAU, Φ Υ Φ—"Yennie"
Rochester, N. Y.

Teacher Training

"Yennie" is the silent partner in Suite 211 of the Dormitory. Whenever you can't find her—listen and you'll be likely to hear her on the third floor of the Dorm. If not there she may be found in Miss Dunce's room giving a dress demonstration. Sometime she will be missing from school.

ETHEL CROSIER
Hall, N. Y.

Teacher Training

Gym Meet (1), Baseball (1) (2), Captain Ball (1) (2) (3), Hockey (2) (3), Swimming Meet (3), Y. W. C. A. Sect.

If you don't tell anyone we'll tell you Ethel's nickname—it is chubby. Just ask her why she received that name. Ethel is so jolly and good-natured don't forget to call on her if you ever go to Hall, N. Y. In case you don't know where it is I'll tell you how she explained the facts to me. It is a little *group of houses* 7 miles from Penn Yan, 9 miles from Geneva, and 15 miles from Canandaigua.

IRENE M. DILLENBACK—"Dilly"
Fort Plain, N. Y.

Teacher Training

Baseball Captain (1), Captain Ball (2) (3), Hockey (2) (3), Pres. Y. W. C. A. (3), Dorm. Council (3), Girls' Athletic Association Council (3), Delegate to Student Volunteer Conference (3), Ramikin (3).

Dilly romps amidst the hay
Although Fort Plain, her letters say.
And every teacher she'll obey
When all the rest do play.

Two boys called Ralph she likes so well,
Betwixt the two, Yale and Cornell
We are sure to yell,
The score's 2 and 1 in favor of Cornell.

JANE HOPKINS—"Jane"
Pittsford, N. Y.

Teacher Training

Captain Ball (2) (3), Hockey (2) (3), Secretary Junior Class (3).

"Hopkins Certified Milk" is what we all think of when we speak of Jane. She knows what kind of milk she wants to drink and you can't change her mind. She looks for that certain brand, when away from home almost as much as she does for those letters from Allegany. Perhaps she has an M. D.'s prescription.

HELEN JACQUES, A Ψ—"Jacques"
Rochester, N. Y.

Teacher Training

Pres. Sophomore Class, Sorority Council (2), Student Council (3), Treasurer Girls' Athletic Association (3).

After a hard week's work at M. I. "Jacques" enjoys her week-ends at home—especially when she knows her "boy chum" is coming. How lonesome it is though and how bored she is on Monday morning when she returns to the usual routine again. Helen likes her work at the Institute regardless of all that, because she wants to learn to cook and sew for future needs. Maybe to teach school *but* maybe-not.

BERNICE JEFFERY—"Bunny"
Son Yea, N. Y.

Teacher Training

Vice-President Sophomore Class (2).

Bernice has decided she'd like to have a practice house to live in. There is never much to do there if you don't try to find it. By the looks of the pin she is wearing, we think her practice house will be an unusual one where there is a man around to help a bit. Remember Bernice, that the way to a man's heart is through his mouth.

KATHERINE L. KERRIGAN—"Kerry"
Rochester, N. Y.

Teacher Training

Carnival (1), Class Secretary (2), Captain Ball (2).

"Kerry" is our star pupil in dressmaking. She loves to sew a fine seam—not much—She is very quiet and peaceful though, and never says *very much* about it.

ELIZABETH LONGSHORE—"Beth"
Shamokin, Pa.

Teacher Training

Gym Meet (1), Baseball (1) (2), Captain Ball (2) (3), Junior Rep. Athletic Council.

"Beth" is our good natured member of Class 1924—except when we try to make her blush. Determination should be her middle name because when she makes up her mind to do something you can't change it. There is one thing she says—I think she will change—after teaching school a few years.

ELIZABETH MIFFLIN—"Betty"
Paxinas, Penn.

Teacher Training

Vice-President Y. M. C. A., Captain Ball (2).

"Betty" needs encouragement because she is afraid she won't get a position to teach in Mexico after she gets her B. S. degree. We think she has almost decided to start her chicken farm down there if she fails in everything else. It's a peculiar place to want to go and there must be quite a drawing card—how about it Betty? Never mind, he'll return after a few years.

Although pictured in the Junior class, I was actually graduated with the senior class. Arthur L. Brown

The Junior Class although not especially active at the beginning of the school year, finally became organized and is now in a flourishing condition.

To start off, the class held a banquet in the Girls Rest room in the Eastman Building. The affair was a roaring success and a great deal of that success was due to the cooperation between the Junior Class and the girls of the Lunch Room Management course, who had charge of the dining room arrangements. The dinner menu was kept secret to increase the interest of those concerned. After the dinner three members of the faculty gave highly instructive and interesting talks, and in turn two members of the Junior Class offered toasts to the faculty members at the banquet.

It has been suggested that the Junior Class of this year do all in their power to establish the banquet as a tradition for the coming Junior Classes.

The Junior Prom of this year was held in the Solarium at the Sagamore Hotel and the affair was a marked success, and as well attended as any Prom of recent years.

The well arranged program and the smoothness in which all the events were carried on indicates the very great efforts put forth by the committee.

1923

The Class feels highly elated over the success of the Candy Sales that the interested members arranged for. Up to date no one has complained of any ill effects as the result of eating the candy prepared by members of the class.

It has been suggested that the Junior Class cooperate with the Senior Class during commencement week of this year in making the Senior picnic trip to Cobourg a greater success. At the time of going to press the Junior Class is still anxiously awaiting the verdict from the members of the faculty as to whether such an unusual thing could be permitted.

CLASS MOTTO: "Carry on."

Here we are! We have not quantity but quality.

We will not boast about ourselves but let our teachers speak.

Miss Russell: "I think I can depend upon this class." "Miss Leete, what makes your ice cream so lumpy?"

Alice, slightly fussed: "The next time I'll put the dasher in."

Miss Hutchinson, in charge of dinner: "How many shall we plan for?"

Miss Russell: "I cannot give you any definite number. Never mind Alice, soon it will be for only two."

The Sophomore Class (Cont'd)

Miss Duntz: "Now class, read your instructions."

Miss Duntz: "Miss Lintz, what's the matter with the collar on your dress?"

Miss Lintz: "Oh! That's just the railing around my boat neck."

Katherine Hanby: "Is Miss Duntz here this morning?"

Gladys Colcord: "No."

Katherine Hanby: "Mercy, then I can't do anything."

Miss Riker: "Be conscientious, girls."

Miss Riker: "Miss Curtiss, suppose you take charge of this test."

Miss Curtiss, aside: "That's a good joke."

Miss Van Horn: "Have you read what Hawk and others have to say on the subject?"

Miss Van Horn: "I cannot be in two places at once, if you want to know anything, ask Miss Guilford."

Mrs. Meehan: "It's so silly for you girls to think that you can't dive."

When Mrs. Meehan goes to Europe, Gladys Cook is going to take her place as diving instructor.

Miss Spielher: "Can't you girls begin to work until the roll is called."

Miss Spielher: "Take Miss Minor, for instance, she can't wear that sort of gown."

Miss Wessell: "What can I do for you today?"

Miss Wessell: "Miss Crombie, I think you need a specialist."

Miss Pleasants: "Lest we forget."

Miss Pleasants: "Miss Colcord, to warm the plates."

Mr. Norton: "Let's check up on the reading."

Mr. Norton: "Miss Cummin's, what are we going to have today?"

Miss Cummings: "Consumption."

Mr. Lee: "Good Lord, haven't you any initiative?"

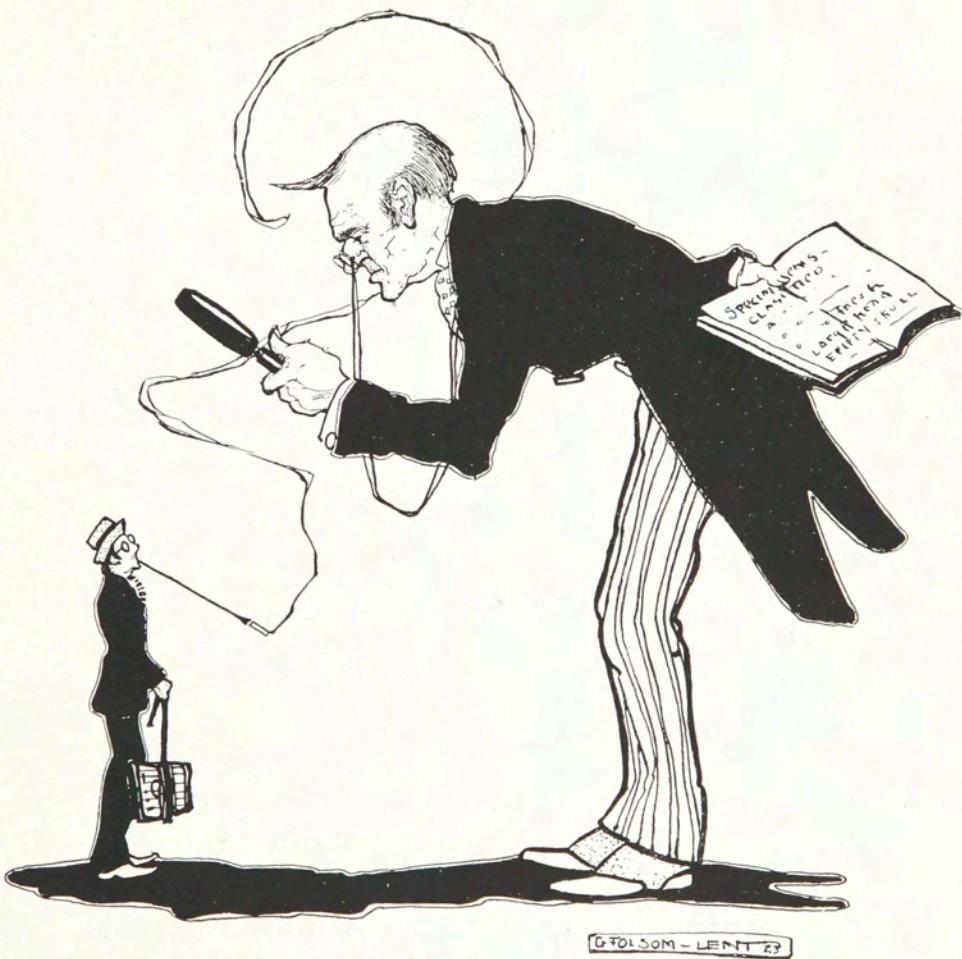

Mr. Lee: "Miss O'Shea, would you like to give the lecture, this morning?"

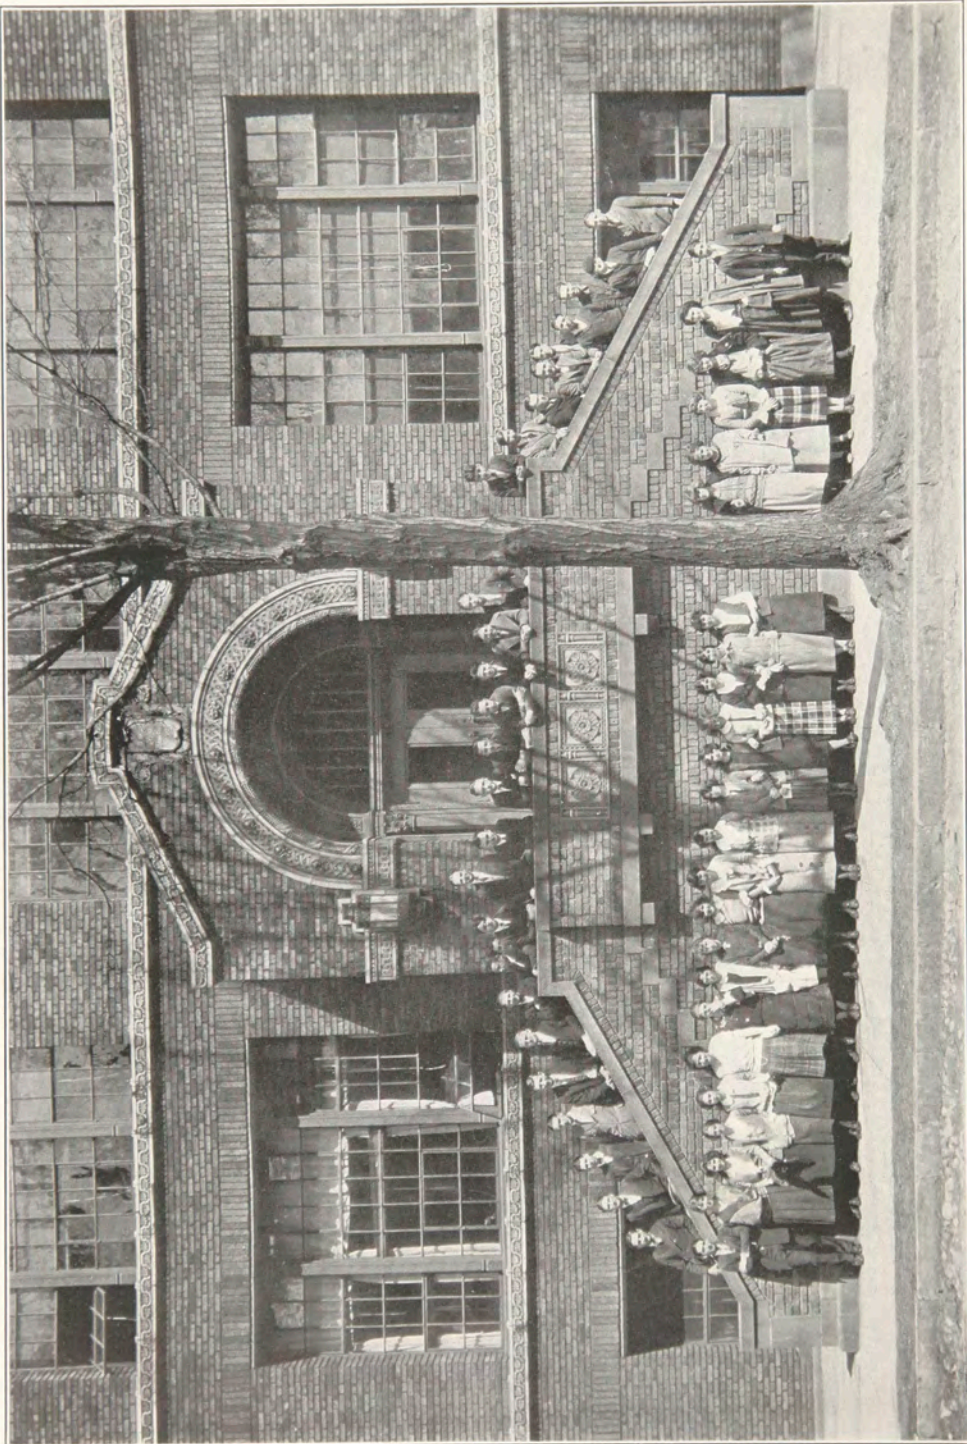

Miss O'Shea: "No thank you."

Mr. Lee: "Your resignation is accepted."

Helen Flinn: Much to the sorrow of her classmates, Helen was forced to leave us early in the term. We certainly miss her mirthful expressions and are waiting patiently for next fall, when she will be with us again.

The Freshman Class

For several days preceding September 8th, 1922, there was much activity in many homes. Bags were being packed in far-off Peabody, dresses were being pressed in Binghampton, neckties were being bought in Corning, all in preparation for a much anticipated trip to Rochester, N. Y. Although strangers to each other, young people to the number of 255 were leaving as many homes, all with the same aim in view, namely: to enter Rochester Athenaeum, and Mechanics Institute, and to become in time members of the alumnae of that great institution. They came from Massachusetts; they motored from Kansas, Pennsylvania, Ohio, and New York—this band of eager, hopeful, sightly, home-sick freshmen.

The days of registration are already somewhat hazy memories, for faces were so new, friends so scarce, rooms so strange, and events happening so fast. Even up to October 17th when they entered the assembly hall, these 255 people remained a divided group. However, when they left the assembly it was a strongly organized Freshman Class. The meeting was called by a temporary chairman and officers were elected.

The first school affair in which the class participated was Freshman initiation. This was purely a test for the survival of the fittest. The attack raged for a week during which time commandments were posted about the halls which were strictly adhered to by all (?) freshmen. The girls were subjected to a secret initiation which took place in the Dormitory, and which caused quite a disturbance on the part of the men students.

After initiation, the activities of the school were quickly taken up, for the class realized its responsibilities. Freshmen men turned out for football and basketball. Even the girls heard the cry and as a result they took part in the first girls' hockey game played in Northwestern New York.

The Freshman Class (Con't)

Among the more purely social activities a banquet, bridge parties, and auctions were held. Last, but not least came the Freshman Hop, held in Bevier on May 4th. Much credit is due the committee who made the dance the pleasing memory we have of it as the ending of our first, and long to be remembered year at Mechanics.

RAMIKIN

THE RAMIKIN STAFF

RAMIKIN

VOL. 12

MAY 1923

EDITORIAL PAGES

PUBLISHED BY THE SENIOR CLASS OF THE ROCHESTER
ATHENAEUM AND MECHANICS INSTITUTE

In writing this editorial, it is not our object to criticise destructively, but to offer constructive criticism in the form of a few suggestions which we hope may prove to be of some value to those upon whom the supervision of future *Ramikins* will fall.

To the Student Council we would like to make this suggestion: The present policy of appointing the Editor-in-Chief and Business Manager in the middle of the school year, allows but a few months in which to publish the book. During these months the staff is compelled to rush every undertaking and consequently the various details of the book are apt to lack the finishing touches that are so necessary to make a book a complete success. Every year the *Ramikin* staff is nearly composed of students inexperienced in this line. They can do nothing but follow the examples and ideas that former *Ramikin* Boards have worked out. This leads to the tendency of non-original books, and as a result, we find the books, though changed somewhat in minor details, following the

same form and ideas year after year. Under the prevailing administration policy, a staff could not do otherwise. They realize that the book must be published on a certain date and because of this lack of time and experience, they follow the only way, and under the present conditions, perhaps the best way. We would suggest that the Editor-in-Chief and Business Manager of the *Ramikin* be appointed in June, just before the summer vacation. This gives practically a whole year to work out and decide on all new and original ideas for the coming volume. The summer months allow the Editor time to collect many suggestions such as cover, size of the volume, quality of paper and the many other details that are so necessary. What *Ramikins* need right now, is originality. They must get away from the hard and set form which is getting to be very noticeable. We feel that the success of future *Ramikins* lies in this fact. One whole year should be spent and this amount of time really is necessary in the publication of a good school annual.

RAMIKIN

To the Editor-in-Chief falls the responsibility of building the book. He builds the book from the material gathered by his staff. A wide awake, dependable staff means a good snappy annual. The Editor should pick his staff early and make what changes he finds necessary. Give notice for write-ups at a date that will allow plenty of time for those who write them. Insist that these write-ups be handed in on a set date. The biggest task of an Editor is to follow up those who are delinquent. Give plenty of notice and much of this trouble will be avoided. Start the copy early and have written material typewritten when it is handed in. This saves much time and labor for the Editor.

The Business Manager should be appointed by the Council at the same time the Editor-in-Chief is, and likewise should select his staff early in the year. Advertising is one of the big things in the business end of the *Ramikin*. Insist on an efficient advertising manager for the greater the amount of advertising, the cheaper the book can be sold to the students. The Business Manager should work with the Editor on the photography. The sales of the book should be conducted in a manner devised by the Business Manager and is dependable upon his originality and policies. Former *Ramikins* have seldom paid for themselves, the reason being that many leave school without paying for their "cuts." Do not send a photograph to the engraver until the "cut" has been paid for.

All these suggestions have been made from the experience of past *Ramikin* Boards as well as the pres-

ent one. Every year the newly formed staff faces these same problems, and if we have succeeded in enlightening those to whom these problems will fall, then the purpose has been accomplished.

Girls' Athletic Association

In this volume of the *Ramikin* we take great pleasure in giving the newly formed Girls' Athletic Association, a space that ranks with that of Mens' Athletics. This *Ramikin* is the first in which Girls' Athletics appears in this manner. The formation of this new association was completed during the school year 1922-23, and now we find organized Girls' Athletics on par with that of the men. A need of such an association among the girls was keenly felt, and under capable supervision a constitution was drawn up and later accepted by the Student Council, making it formally recognized by the student body through their representatives.

The problem of editing a school annual is a tremendous one. A few noble, earnest workers stick together to see the thing put over, and it is upon these few that the Editor-in-Chief relies. A few such workers made possible this, the Twelfth Volume of the *Ramikin*, and the Editor wishes at this time to express his thanks and appreciation for the great amount of aid and assistance that these people gave toward its publication.

THE SIREN

THE SIREN

Published and Printed by
THE STUDENTS' ASSOCIATION
of Mechanics Institute, Rochester, N. Y.

Editor: Chi

Now, how long will this state of affairs last. It can not last very much longer because if the Siren is to be printed, more assistance than that of two or three will be required and much more material than was handed in for this issue will be needed.

It was planned to print the Siren

student in the school. It is up to you, so come on, lets get going and act alive. We want another issue in two weeks—will we have it?

At a recent assembly of the men students, one of the greatest problems was discussed that has ever risen in connection with the social life of the men of the Institute. During the three years of the existence of the M. I. C. A., three secretaries have been in charge. The present secretary is Mr. Robert Lockhart. The dissatisfaction of the men with the management of the assembly has been a serious problem. The Federal Board of the Institute has principal responsibility on Mr. Lockhart. The present secretary is Mr. Lockhart. The thing has come to a point where something must be done.

There can be no doubt that Mr.

Once upon a time, a rich, industrious farmer died and left his entire farm to his son. Later, under the keeping of the son, who was a lazy shiftless young man, the farm was soon on the way to ruin. The buildings began to fall and weeds began to grow where once the finest of grains and vegetables grew.

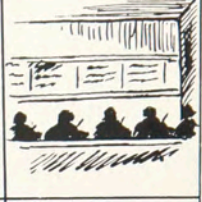

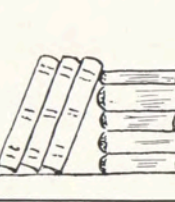

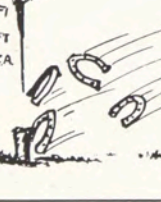

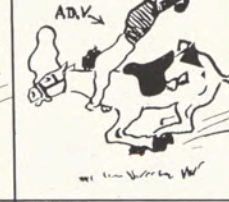

The son grew old. His children grew up and left him and finally his wife died in the poverty and wretchedness of what remained of the once fine estate.

Finally he was compelled to sell the farm and taking an old mule and a goat that still belonged to him, he moved into an old shack, far from anyone. For a small sum a day, he allowed a man to hire the mule. The mule worked hard all day and had scarcely anything to eat. The goat did not fare any better than the mule. It went on this way until the mule and the goat could stand it no longer, so they ran away. The shiftless, lazy man had lost everything. He had depended too much on the mule and the goat.

Don't be like that man. "Nothing comes to those who do not work." Sunshine can always take the place of rain, so why not "wake up and hear the birdies sing."

The founding of an Inter-Fraternal Council in Mechanics this year has filled a long-felt want in fraternal affairs.

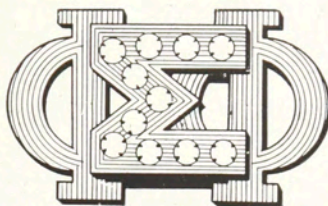

The Council was originally organized with the intention of regulating rush parties, initiations, and social events in the fraternities, but it has been found that through this body the three fraternities of the school have been able to work in closer harmony than ever before.

At the suggestion of the administration of the school, the annual Inter-Fraternal Mardi Gras and the Alumni Basket Ball game this year were incorporated into one event. From the Council was appointed a committee of three—a representative from each fraternity—to make all arrangements, subject to the approval of the Council and of their respective fraternities. The success of the undertaking was apparent to every one who attended the event.

A committee from the Council also made all arrangements for the Inter-Fraternal Banquet, which it has been the custom to hold annually.

Fraternity History at M. I.

Clubs and organizations of all kinds have seen their life and death without accomplishing very much, at this Institute; but fraternities have come to be accepted as an almost necessity.

Fraternities have existed here at the Institute for twenty-two years, Phi Sigma Phi being the oldest was founded in 1901. It was founded by six charter members and it was around these that the fraternity was built. Their first meetings were held in the Rochester Hotel and after the hard fight for existence finally became situated in their first home on Spring Street in what was commonly known as Colony Hall. Later they moved to 60 South Washington Street where they are at present located.

Chi Delta Phi was the next fraternity to be organized. They became organized in the fall of 1914 under the name of Delta Delta. The following year they became situated in their first home on Troup Street and changed their name to Chi Phi. This home was maintained until the men were called to the service of their country. In the fall of 1919, the returning brothers reestablished their fraternity and on May 11, 1920, became incorporated under the laws of New York State under the name of Chi Delta Phi—the Delta being taken from its original name. In the summer of 1921, they moved into a new home at 79 Tremont Street but in the fall of 1922 they moved to a more central and convenient location at 7 North Washington Street, where they are located at present.

In December, 1921, Chi Epsilon Phi fraternity was founded. This fraternity is one in which only students enrolled in the Chemical or Electrical courses are eligible for membership. This fraternity, being only in its infancy, has not as yet had the opportunity to show its real worth and strength.

Each one of these fraternities has as one of its chief-ideals, the advancement of scholastic standing at the Institute. In 1921, Phi Sigma Phi donated a cup which is known as the Inter-Fraternal Cup to the fraternity attaining the highest scholastic standing. It was awarded to Chi Delta Phi and it is still held by that fraternity.

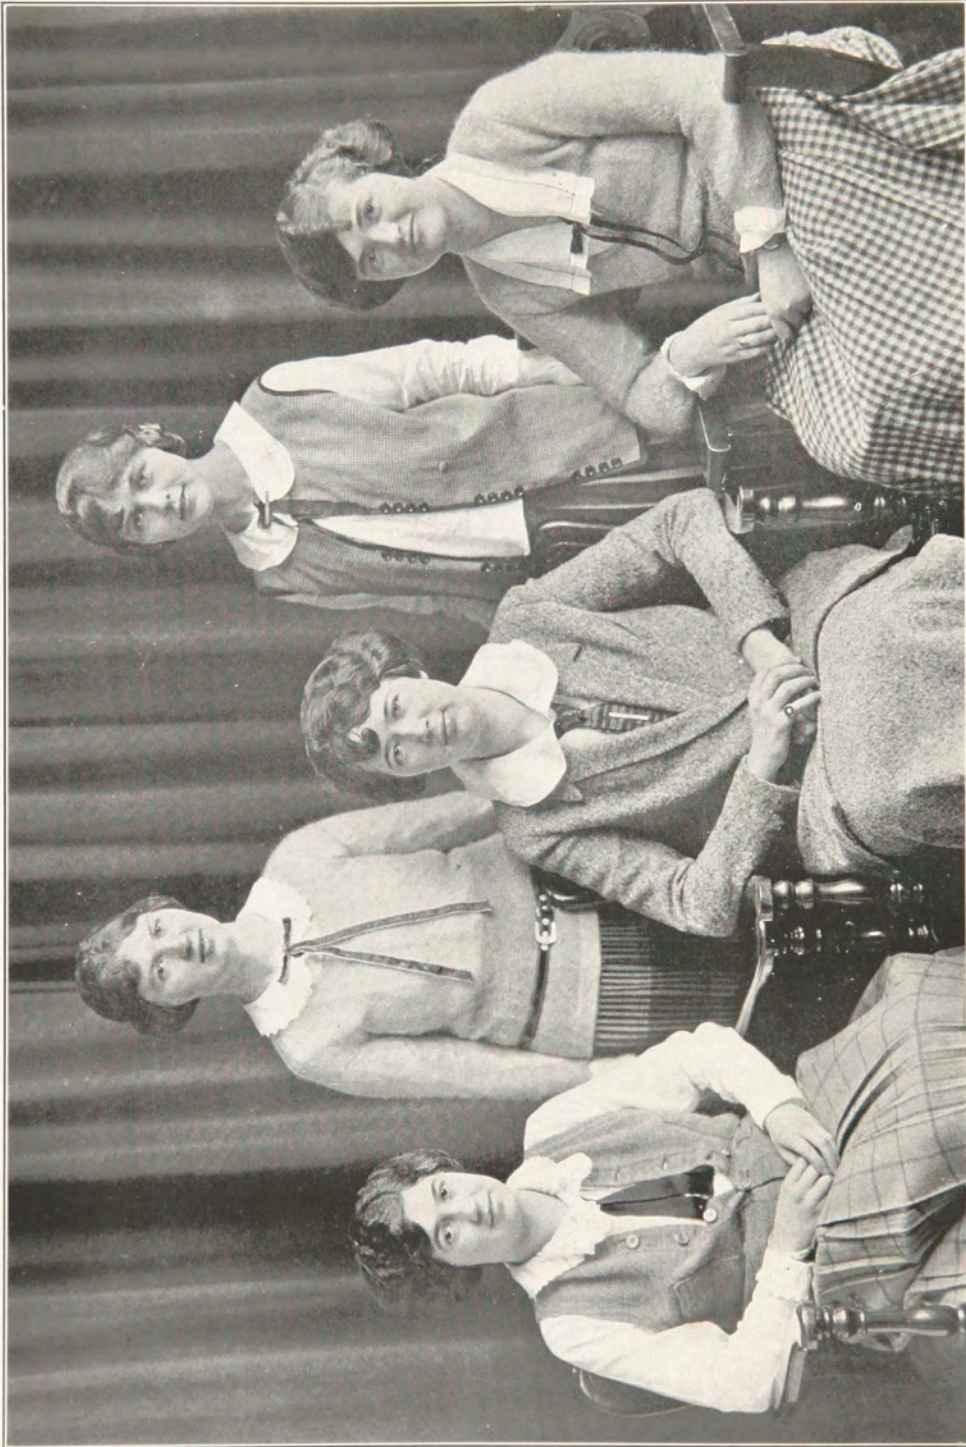

The part that fraternities play at the Institute is a very active one. The annual Mardi Gras is given and supported by the fraternities to the Student Body and it is at this time that the championship fraternal basketball game is played. During the course of the school year, each fraternity holds many social activities in the form of dances and parties.

M. I. fraternity men are now situated in nearly all parts of the country. They have gone from the Institute with something that was much more to them than their newly acquired knowledge—an appreciation for Christian Brotherhood. This is the greatest value of fraternities and it is because of this that they have existed for so long and, undoubtedly will continue to exist in the future.

GRACE BURR
GLADYS COOK

Delta Omicron

GRACE PECK
GRACE WALDRON

In order to unite the sororities of the Institute on a common basis the Sorority Council was organized with a constitution. This council is made up of two members of each sorority who are upper-classmen and one faculty advisor. The chief functions of the Sorority are to regulate the rushing of prospective sorority members and to guide the sororities in matters of common interest to them. This has proved to be a very strong means to encourage the feeling of friendship between the sororities.

If you think M. I. the best,
Tell 'em so;
If you'd have it lead the rest,
Help it grow;
When there's anything to do
Let them always count on you—
You'll feel good when it is through,
Don't you know?

If you're used to giving knocks,
Change your style;
Throw bouquets instead of rocks,
For a while.
Let the other fellow roast,
Shun him as you would a ghost;
Meet his banter with a boast
And a smile.

When a stranger from afar
Comes along,
Tell him who and what you are,
Make it strong.
Never flatter, never bluff,
Tell the truth, for that's enough:
Be a booster, that's the stuff,
Don't
Just belong.

Sorority History at M. I.

Without a doubt, there are no organizations among the girls of Mechanics Institute so strong and so lasting as the sororities. Though the three sororities which are now at the Institute are comparatively young, their closely knit organization bids high for strength and endurance. Their long list of activities and accomplishments shows that the purposes for their founding are being realized.

Phi Upsilon Phi Sorority was organized in November, 1919, with the permission and co-operation of President Farnum. The purpose of the organization was to promote good fellowship and friendship among the girls of the different departments of the school. Early in the history of the sorority a scholarship was established to benefit one girl each year and this scholarship has been maintained. The custom of sending small favors made by the girls of the sorority to the Homeopathic Hospital each month has been continued.

Soon after the founding of the Phi Upsilon Phi, Alpha Psi Sorority was organized. Their first meeting was held Thursday, November 11, 1920, and at this time the constitution was read and adopted. Officers were nominated and elected and Alpha Psi was founded as the second sorority at the Institute.

The need of the third sorority was felt, and late in the fall of 1920, eight girls with the aid of two faculty advisors organized Delta Omicron Sorority. Their membership being limited to sixteen, permitted eight more girls to become members and in the following spring this was done. Rushing began at once and the following years have seen their stable resolutions and hopes for perfect harmony still intact.

THE STUDENT COUNCIL

The Student Council is the official governing board of the Student's Association and regulates all student activities. Its members are elected annually from all the departments of the school.

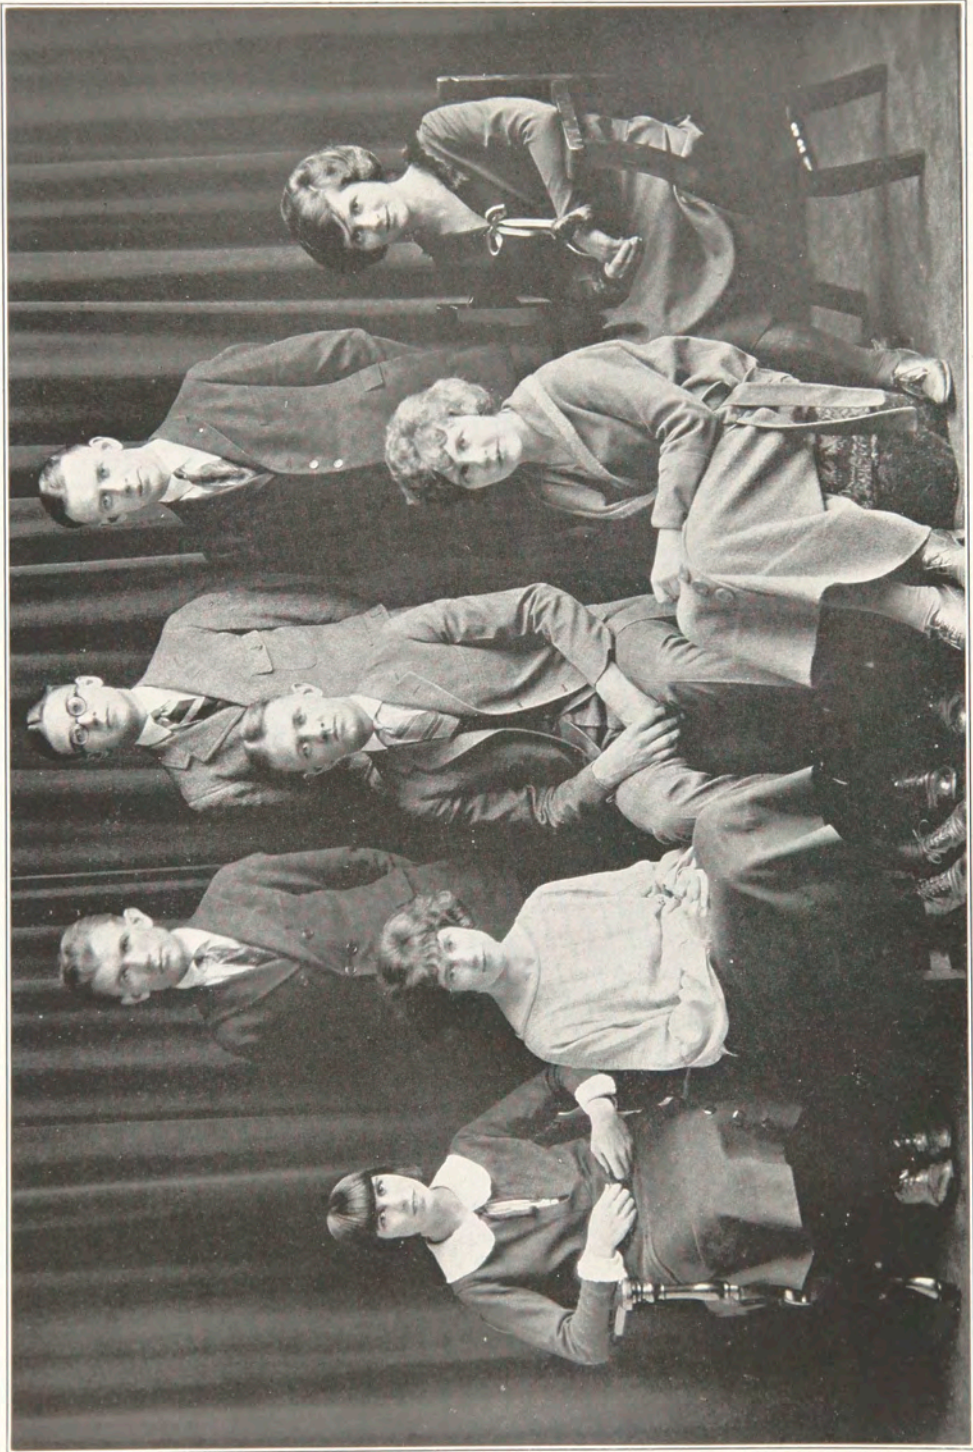

The Association is financed through the charge of a fee of four dollars a semester which is paid by each full time student at the time of registration. This automatically makes the student a member of the Student's Association and admits him to all home games played by M. I. teams.

In the Fall of 1922 a committee of five was appointed to act as a Purchasing Committee. All purchases made by the various organizations in the school which come under the jurisdiction of the Student Council must be made through this committee, thus preventing unwise expenditures.

During the year the Council has worked steadily to carry on the work of former Councils and develop efficiency in student government. The Council wish to extend their thanks to Mr. Culver for the invaluable assistance and interest he has given during the year.

The term "Senior" may have earned for itself the reputation of seriousness and dignity, and the Seniors of R. A. M. I. have not been wanting in these particular characteristics. However, like all modern young people, we believe that there is another side to Senior Life which is of a rosier hue. The "Senior Activity Committee" was appointed to emphasize this rosy side, and their efforts brought about several social events that were thoroughly successful. Among those pleasant festivities were a sausage roast during the crisp autumn weather, a sleigh-ride that was as unusual and thrilling as the winter in which it took place, and several dances at Bevier, scattered throughout the season, where the music made even the most weary feet want to shuffle. At the time of writing there are still several parties in view, such as the May Dance, a trip to Cobourg, the Senior Dinner Dance at the Rochester Club, and as the last social get-together of the class, the Senior Picnic, which this year will be a canoe trip to Westminster Park.

Although the committee would not want to say that they were successful in painting things red, at least they feel the hue is one of pale pink.

MISS ANNE COLBERG

MISS ANNA STUBBS

The Eta Beta Pi Club began its life in the fall of 1921 with a membership of ten which during its short existence has increased until at the present time it has an active membership of twenty-six and an alumni membership of fourteen.

During the school year several events have been held, among the most interesting being rush parties including taffy pulls, and old-fashioned picnic, and theatre parties. The night of the school Carnival, the Club had a very prettily decorated booth where the merry-makers could purchase most anything.

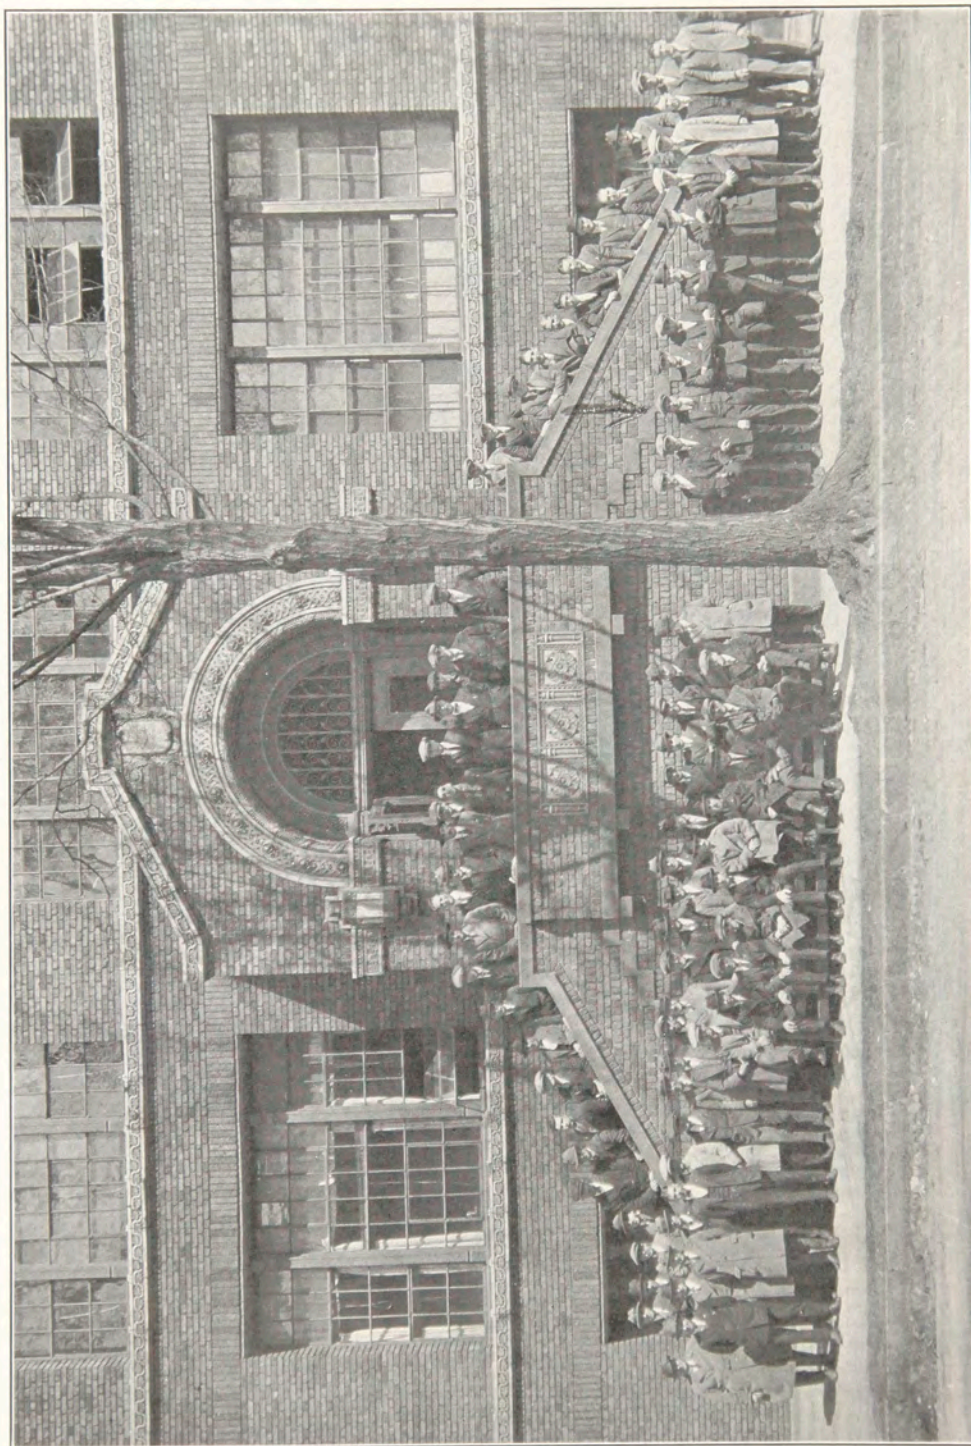

Eta Beta Pi has become prominent in the social activities of the Institute. Throughout the year we have very successfully lived up to our motto:

"NOT AT THE TOP, BUT CLIMING"

Three years ago the students who were in training, under the Veteran's Bureau, at the Institute organized the Federal Board Club. The club was formed to bind the men together with the old "Buddy" spirit, so that they would be able to aid each other in times of need. The welfare work of the club is the prime purpose of it, although it sometimes branches into the social world when its members feel the need of a little diversion.

During the past year the club has had a great demand on its welfare work, but "Bill" Hickey and his brother officers have responded nobly to the work, which they carried on successfully in spite of what, at times, seemed almost impossible obstacles. Despite the great amount of welfare work the club found time in taking part in the Annual Carnival, to run a successful dance at Bevier, and to attend a smoker given by the K of C.

On May 29th of this year the newly elected officers of the club will take their places for the coming year. Of course, this is always celebrated by a banquet which is to be held this year at the Ad Club Rooms. Without doubt, the new officers will carry on the work of their predecessors to the glorious finish that the organization is worthy of in carrying it on.

*To live in hearts we leave behind
Is not to die.*

Listen my children and you shall hear
The thrilling events of the Art League queer.
Parties we've had, and things we've done,
Despite indigestion, we've always had fun.

First we initiated the Freshmen callow,
And gave them depth who once were shallow.
After the fight, with beans they were fed—
We flatter ourselves, for not one was dead.

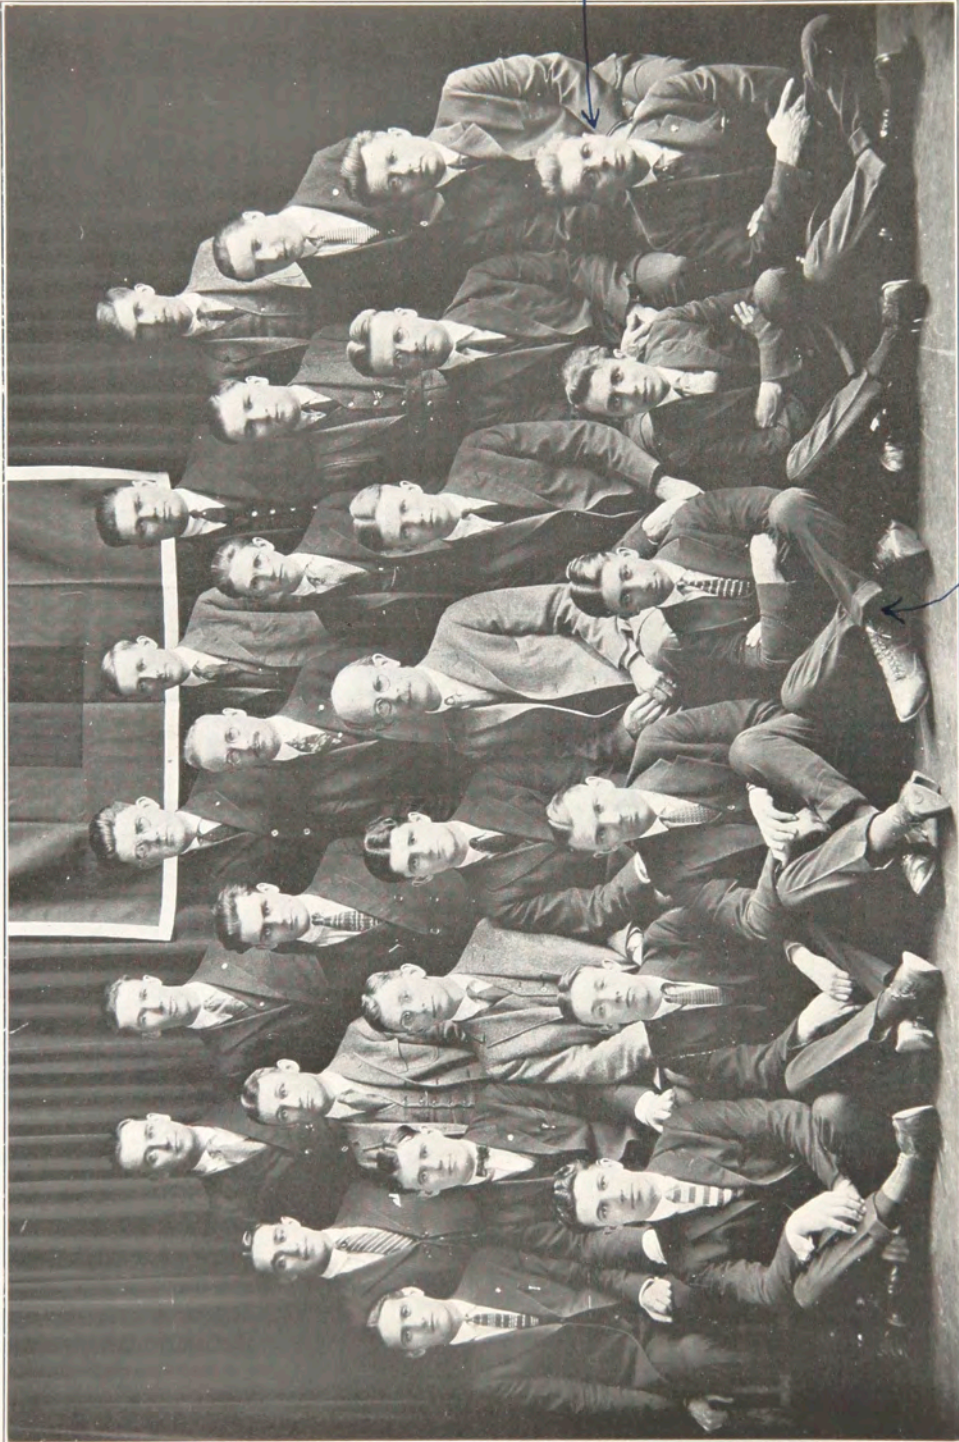

The coldest event of the season was this:
A snowflaky sleigh-ride of unalloyed bliss.
The food and the fun were not lacking that night,
A blazing success, containing no blight.

A theatre party with supper before,
Attended by students and teachers galore.
It was a sweet evening, with lollypops fine—
The Faculty all had a *licking* good time.

So, my children, our tale is now done,
We take our cue from the setting sun,
The Art League thanks you, one and all,
We hope our story will not appall.

The Mechanics Institute Architectural Association was founded in 1921 by a number of architectural students who saw the need of such an organization. Aiming to develop good fellowship and personal co-operation among its members, the association has stimulated a stronger interest in architecture and allied arts, by means of lectures, sketching and inspection trips.

The Girls of Mechanics Institute have been successful this year in organizing a Dramatic Club which in its first year has accomplished much. Thirty-three charter members were enrolled and regular meetings were held every two weeks until the latter part of March. Early in the year two short English plays, "Rosalind" and "The Twelve Pound Look" both by James M. Barrie, were studied. Lectures were also given on Dramatic art.

The first active effort was the presentation of "Mrs. Jenkins' Boarding House" as a part of the carnival program. Successful as this was the club aspired to do something better and February 23rd was set as Dramatic Club night. A comedy, "Twelve Old Maids" written by Walter Ben Hare was presented and also a George Washington pageant written by Leona Whitworth Logue.

Some excellent dramatic talent was brought out during the year and much credit is due Mrs. Leona Whitworth Logue for her work in connection with the club. The individual responsibility and initiative taken by the students made both performances successful and will be through these means that the ambitions for next year will be realized.

Advisory Board

ROBERT B. LOCKHART	Secretary
DEAN ALFRED A. JOHNS	Chairman

The Association has had an unusually successful year and despite the loss of two valuable members of the Cabinet, it has weathered the storm and is now a firmly established unit of the school. Mr. George C. Matteson, a Federal Board student, was elected President of the M. I. C. A. and shortly after represented the Institute at the Silver Bay Student Summer Conference at Lake George, N. Y.

Some of the accomplishments of the Association are given here with a view to stimulating further interest in its work: From July 1922 to March 1923 one hundred and four (104) students applied for positions and of this number ninety-three (93) were placed. The total amount earned by Students placed is close to Eighteen hundred Dollars (\$1,800). Permanent positions were secured for seven of the Alumni. Several of the Alumni visiting Rochester were the guests of the Association during their stay. Twelve (12) Ex-Service men were provided with beds and otherwise assisted by arrangement with the Red Cross and American Legion. Two hundred and fifty (250) Federal Board Students of M. I., The R. S. O. and R. B. I. were given 500 Theater Passes and 200 Passes to the Rochester Exposition. 14 School and Fraternity Activities were aided. A Forget-Me-Not Day Breakfast was given for Federal Board men on Sunday, November 5th, 1922 by the Robertshaw Post Unit of the American Legion Auxiliary. 72 Students were assisted with cash loans from the Emergency Fund. 10 Students represented M. I. at Conferences held at Cornell University and Union College.

The second loss to the Association was in the departure of Mr. Victor Knop, who left school to enter business. Mr. Knop performed a notable piece of work as Chairman of the Fellowship Committee. This Committee worked silently but surely, in the solving of many perplexing student problems.

ROOM IN M. I. C. A. DORMITORY

The Henry Lomb Society

The Henry Lomb Society was organized at the instance of the Student Council of 1915-1916. It is an honorary society in which membership depends upon excellence in scholarship and interest in student affairs. The membership to date, including Charter Members, Electing Members, Honorary Members and Graduate Members, is about one hundred fifty. The Officers at the present time are:

MR. CLIFFORD ULP	<i>President</i>
MISS MILDRED CHAMBERLAIN	<i>Vice-President</i>
MR. HERMAN MARTIN	<i>Secretary</i>
MR. HAROLD BEAL	<i>Treasurer</i>

These Officers together with Miss Mamie Lee Ogden, Mr. Oliver Smith and Mr. Ralph Cogswell, constitute the Executive Committee.

The Electing Members are: Mr. Harold S. Beal, Mr. Harold Brodie, Miss Mildred Coffin, Mr. Byron Culver, Miss Bessie Gillard, Miss Mary Gillard, Mr. Jacob Hilgerman, Miss Ruth Hutchins, Mr. George Yonkers, Mr. Alfred Johns, Mr. Herman Martin, Mr. Elmer Meulendyke, Mr. Clifford Ulp and Miss Elizabeth Van Horn.

The Executive Committee held meetings on April 11th and May 4th and the Society held its mid-year meeting February 23rd. Mr. and Mrs. Carl Lomb and Mr. and Mrs. Randall were guests of honor at the Mid-year meeting, and President Randall was the speaker of the evening.

At a series of meetings, at which Mr. Ulp presided, held at 1:00 P. M. April 24th, 25th, 26th and 27th, students whose scholastic standing entitled them to be considered were discussed and at a meeting held at 4:00 P. M. April 30th, the following students from the Senior class were elected into membership:

The Y. W. C. A. was reorganized in M. I. at a Girls' General Assembly, January 10, 1923, so at present the society is very young but we hope that by the end of this year it will be a very live organization, doing a great work in and outside of Mechanics Institute. We feel that the Y. W. C. A. will link us with the girls of other schools as well as bring a better cooperation among girls in M. I. Many girls have shown a great interest in the Y. W. C. A. and we are planning many things for this year. Among them are doing outside work such as reading to children in hospitals, teaching craft work. We also hope to have some interesting speakers, some sing, helpful discussions among the girls as well as good social times.

Two of the main purposes for this year are to send some of our girls to New York to the National Conference of the Y. W. C. A. in March and some girls to the Silver Bay Conference this summer. In this way, we hope to have the girls learn more about the Y. W., what a wonderful association it is so that they will be able to carry on the work in M. I. better next year.

We are linked with the Girls' Athletic Association which is one of the liveliest organizations in the school and we hope with their cooperation we will be able to carry out all of our plans.

THE FOOTBALL TEAM

Football

Captain Slavin

The hopes and expectations last fall for a good football team at Mechanics Institute, materialized when one of the best teams to ever represent the school on the gridiron was turned out. Football has gradually come into its own and it is now without a doubt the leading sport at the Institute.

Although our opponents scored a total of points greater than that scored by our team, we are satisfied in the manner in which the games were played. In every game lost, our opponents had to extend themselves to the limit to win. This was particularly so of the St. Lawrence game in which St. Lawrence

won by a doubtful goal.

To Coach Jack Forsythe is due much credit for this well-organized, wide awake team. He drilled that "never give in" spirit into the team which showed so plainly against the heavier and more experienced Clarkson team.

Forty candidates turned out to Jack Forsythe at the beginning of the season and of these a great majority stuck it out to the close. There were some veterans from the '21 squad and around them the team was built. Louis Severson, who had been in the substitute squad for two years, proved to be one of the best centers of later years. Shaw, a freshman, made a steady berth in the backfield with Captain Slavin, Blanchette, and Powers. Pete Holohan, a freshman, made good at left guard, and Shoemaker, also a freshman, went well at left tackle.

The first game of the season was won by Alfred University, 27-0. Forsythe gave every man an opportunity to prove his worth in this game.

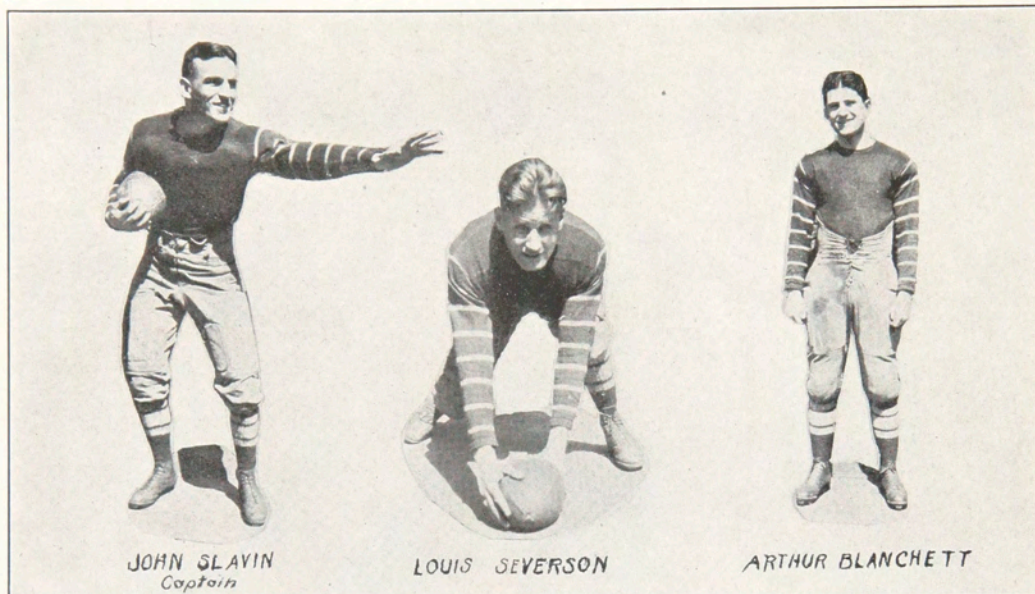

The following week, Buffalo University scored a game by two "freaky" breaks. 12-0; Clarkson Tech. made the third 27-0, and St. Lawrence the fourth, 9-0.

The crowning event of the football season was the game with R. S. O., greatest rival of M. I. The "Boilermakers" literally crushed the lighter R. S. O. team and shook the jinx that has been hanging over M. I. for so long a time. The close of the season was drawn by a victory for the Institute over Oswego Normal, 14-0.

Dewey Powers has been elected Captain for 1923. His past experience in football consists of one year at Clarkson Tech. and two at Mechanics, under Jack Forsythe. He is a Junior in the Industrial Arts Dept. and a member of Chi Delta Phi Fraternity.

Captain Slavin, Arthur Blanchette, Louis Severson, and Freeman Pepper will be lost to the 1923 Squad by graduation.

Much credit is due Manager Joseph Mahoney for the efficient manner in which he managed the team. To William Warren falls the '23 managership.

MECHANICS INSTITUTE BASKETBALL TEAM

Basketball

CAPTAIN WIIG

The prospects of a winning basketball team were not exactly satisfying. Nevertheless considering the difficulties to be overcome a team was turned out that won some notable victories. Though the actual record of games was not overly imposing, the character of the opposition and the enthusiasm and interest of the players added greatly to the brighter side.

The work of Capt. Wiig at forward, John Slavin at center, and Charles Shaw at guard is very commendable. These players were very consistent and it was this steady interest and head work that gave many points to the Institute's score. Dewey Powers at left guard played a good game and held that position all season. Carl Hotton and Elmer Smith divided the honors of right forward.

The results of the games with Alfred, Buffalo, Clarkson, and Queens show that these teams had to extend themselves to their limit to win. An alumni game was played at the annual Inter-Fraternal Mardi Gras and at this time old M. I. stars appeared to show that their ability as basketball players still remained.

Much credit is due Coach McKay for the way he handled the team under such difficulties. Three letter men of the '23 squad will be ready for next season.

BASE BALL TEAM

Baseball

MILTON CASE
CAPTAIN

The Baseball season of '22 was without a doubt the best and most successful season the M. I. team has yet experienced.

Starting out on a bright April morning, we went to St. Bonaventure, and as you know, we were well beaten. To be beaten by such a team as theirs left us no regrets as this team was as good as any International League Team.

The next game was with Oswego Normal at Rochester and our team came through with a win 8 to 4.

We then tackled another hard-hitting team from Clarkson Tech. and bowed in defeat after getting enough hits to win most any ball game.

For revenge we shut out Lima Seminary team the next week and got ourselves five runs.

Then we met our Hoo-doo again in the form of St. Bonas College and lost to this team at Rochester by a score of 17-5.

Next came the return with Lima which the team easily won 11-3.

About this time the team was rounding into what might be called mid-season shape due to the untiring efforts of our Coach Frank Clary, so we packed our grips and took a trip up in the north country where the wolves howl at night. Arriving at Potsdam we tackled the Clarkson team and our fellows were hitting so hard that Clarkson had to use three pitchers to beat us by a score of 4-3. This was without a doubt the best played game of the season and should have been ours. Due to what is known as a "break of the game" Cunningham "flyed" out in the last inning with two men out and two left on bases. He had been hitting well all season and the Clarkson fielder made a reputation for himself by getting under this particular hit.

We then proceeded to Oswego and played their team a game which was more of a batting contest on Mechanics' side. The team emerged from this contest, the last game of the season, victorious—23-3.

RAMIKIN

It was after this game that the letter men were named—ten in all with three men receiving silver charms for merit. The letter men then elected the '23 Captain, John F. Slavin.

The general consensus of opinion was that we had done well to break even with four games each way.

GIRLS ATHLETICS

GIRLS' ATHLETIC ASSOCIATION

Girls' Athletic Association

OUR PRESIDENT

Officers

LORETTA MCCARTY	President
MARION WILCOX	Vice-President
MARGARET O'SHEA	Secretary
HELEN JACQUES	Treasurer
ALICE LEETE	Publicity
HARRIET GUILFORD	Custodian

Although the Girls' Athletic Association of Mechanics Institute is still in its infancy, its members feel that many worth while things have been accomplished. Certainly, no other organization of Mechanics has done more, than this group of girls, to stimulate the enthusiasm of the student body and to help develop the right kind of school spirit. Even the most pessimistic observer must admit that during the first year of its existence the Girls' Athletic Association has carried out its purpose "to further all school activities."

This association was not formed at the whim of a special few. It was organized to meet an urgent need. Prior to its formation, the majority of girls, rushed with work, had been neglecting the physical as well as the social aspect of their school life. With educators on all sides, emphasizing the importance of keeping physically fit, this was a serious situation, and one which called for prompt action. Fortunately for the girls, Mrs. Meehan was keenly alive to the facts of the case and it was through her earnest efforts that the girls were able to organize their Athletic Association.

Every activity which the Association has so far attempted has met with the heartiest support and co-operation. This is indeed highly gratifying, since it proves that the Association is serving its purpose. The opportunities it has afforded the girls for getting better acquainted, for pulling together and for a show of friendly rivalry, cannot help but result in a better school spirit.

House Party

Before school was closed last June, the first thing the G. A. A. did, was to outline a tentative program for the present year. They planned to make their first event some sort of a "get-to-gether" party for the purpose of welcoming the freshmen girls.

Consequently, the day school opened they issued invitations for a week end party at Canandaigua. And what a flood of acceptances they received. At the appointed hour both guests and hostesses were on their way for camp. Happy, joyous spirits are contagious and before the girls arrived their destination the ice had been broken.

Two glorious days spent in the open only tended to strengthen the friendly spirit among the girls. They talked, played, swam, cooked, washed dishes and played pranks on one another to their hearts' content, and returned home, richer in friendships, and ready to take up their school work with more interest.

Social

The Girls' Athletic Association opened their social activities in November with a Musical Tea held in the dormitory. Miss Marjory Truelove a member of the faculty of the Eastman School of Music rendered a delightful and interesting program. This was an unusual privilege and was taken advantage of by many of the faculty and students.

Our next Musical Tea also proved a huge success. The musical program being rendered by three members of the Eastman Theatre Orchestra, namely Mr. Weiss, Mr. Neidlenger and Mr. Carmen.

The women of the faculty gave the last tea for the benefit of the Athletic Association, Miss Anne Colburg sang some delightful songs accompanied at the piano by Miss Lelia Babbitt.

Banquet

A noted historian has recently catalogued the present period as an era of change, and were he present at the first annual banquet of the Girls' Athletic Association, held in November, he would certainly have been convinced. Heretofore the men have enjoyed the rights and privileges of Athletics, but now the American girl is stepping into her own.

This banquet was the first big undertaking of the Athletic Association, and was given in honor of Mrs. Gertrude Gibson Meehan in appreciation of her interest, loyalty, support and good comradeship.

A very interesting program was planned by the toastmistress. This interesting program was closed by the Rev. Clinton Wunder who was the speaker of the evening.

The large attendance at the Banquet was one of the many evidences of the splendid spirit which has been stimulated in Mechanics thru the Association, and speaks well for its future.

Swimming

MARION REED

Splash! Spiff! Spaff!

Twenty-eight girls had started in the first dash. The calm pool was a thing of the past. It was a rough sea to plow through.

What a keen sense of sureness comes over one after the first few "dips," and that uneasy, restless feeling fades slowly into the background.

This was the first of a series of five meets to be held throughout the season.

The events included dashes, diving, plunge and strokes for form. Such clean cut strokes! Such neat dives! Such fast swimming!

Great strides have been made in swimming, for from a handful of mediocre swimmers, there has been developed a perfect bevy of mermaids.

RESULTS OF MEETS

October 24, 1922

20 yd. Dash—1st D. Landow; 2nd G. Given; 3rd tie, L. Reynolds and M. Reed.

40 yd. Dash—1st M. Reed; 2nd G. Given; 3rd D. Landow.

Plunge for Distance—1st A. Peters, 40' 10"; 2nd G. Cook, 40' 1"; 3rd M. Reed, 38'.

Diving—1st M. Reed; 2nd A. Peters; 3rd D. Landow.

Breast Stroke for form—1st M. Reed; 2nd M. Corbin; 3rd E. Staud.

Side Stroke for form—1st M. Reed; 2nd L. Reynolds; 3rd G. Given.

Judges: Miss Spurrier, U. of R.; Miss Proper, Y. W. C. A.; Miss Fullington, Y. W. C. A.

November 14, 1922

20 yd Dash—1st G. Given; 2nd M. Reed; 3rd M. Quigley.

40 yd. Dash—1st G. Given; 2nd D. Landow; 3rd M. Reed.

Plunge for Distance—1st L. Reynolds, 41' 4"; 2nd M. Gell, 36'; 3rd M. Reed, 35'.

Diving—1st D. Landow; 2nd M. Reed; 3rd G. Given.

Breast Stroke for form—1st O. Flint; 2nd M. Reed; 3rd M. Corbin.

Side Stroke for form—1st A. Brady; 2nd M. Reed; 3rd D. Landow.

20 yd. Back Stroke—1st M. Quigley; 2nd L. Reynolds; 3rd G. Given.

66 yd. Dash—1st G. Given; 2nd M. Reed; 3rd D. Landow.

Hockey

MARION TUTHILL

"Coming out to Hockey tonight?" "Yes, I'll be on hand at four fifteen." During the fall and spring this is the familiar saying of our hockey captain, as she rallies her team together for practice.

Field hockey is yet young in America and the interest and enthusiasm for it, is gradually reaching to a great zenith. The game was first played as a national sport in Ireland, Scotland, and England, and was not introduced into the United States until very recently. Last spring it was inaugurated at Mechanics by Mrs. Meehan, and was most enthusiastically received. We consider it one of the coming sports at Mechanics,

and it is due to the girls' enthusiasm and co-operation that the game has proved so successful.

In September, teams were organized and captains elected, Marion Tuthill representing the upperclassmen, and Margaret O'Shea the underclassmen. Full teams appeared at every practice, and so great was the enthusiasm that in November, amid driving snow, the first decisive game was played. Upper classmen wore scarlet head bands, numerals and stockings, and carried a grotesque rag-doll for a mascot. The underclassmen with electric blue head bands, numerals and stockings made a striking contrast to their older sisters. A real goat appeared as their mascot.

The game was played at Genesee Valley Park. The pine trees pierced the sky in the back ground, and the driving snow offset the brilliant colors of the costumes, forming a most picturesque sight.

It was a victorious afternoon for the upperclassmen—the score being 3-0.

Captain Ball

Irene Dillenback

The indoor sport season ended in a blaze of glory on March twenty-seventh when the final game for the school championship was played. The Lightning Bugs and the Wild Cats from the upper classes and the Whirls and Les Enfants Terribles from the Freshman class competed in the series. Keen competition evidenced in the games showed the healthy spirit of class rivalry that has been developed by the girls.

Captain ball was started last year at the Institute and it has proved to be one of the most popular and beneficial games in which it is possible for girls to indulge. If proof of its popularity is desired the fact that forty-five girls have been out for the teams is enough to show that the game has taken a firm hold.

Aside from the physical benefits derived, the game has helped to bring the girls together in a way that would otherwise be impossible.

March 12—Wild Cats <i>vs.</i> Whirls	4-2
Lightning Bugs <i>vs.</i> Les Enfants Terribles	7-3
March 20—Lightning Bugs <i>vs.</i> Whirls	3-5
Wild Cats <i>vs.</i> Les Enfants Terribles	2-1
March 27—Whirls <i>vs.</i> Les Enfants Terribles	1-1
Wild Cats <i>vs.</i> Lightning Bugs	9-10

Basketball

Adelaide Vincent

The Girls' Athletic Association has cause to rejoice over the success of its basket ball season. Never before in the history of school have the girls shown such whole hearted interest in the game, and never before have they been so enthusiastic in their support. This is indeed an encouraging sign, for it means that basket ball, as an indoor sport for girls is coming into its own at M. I.

The marked success of the game this season is due not only to the organized co-operation of the girls, but also to the fact that practices were held on the Y. W. C. A. court which is one of the best courts in the city. It was little wonder that practice in such a well equipped gym thrilled the girls to the point of enthusiasm and made them wish that basket ball practice came oftener than once a week.

Early in March teams were organized and captains elected. Interclass games were soon started. The competition shown in the games was keen and friendly. In not a single case was a game won easily. The result of this splendid spirit means much not only to the girls themselves but to M. I. It cannot help but create a new attitude toward the school life. No girl can afford to overlook the benefits to be derived from a brisk game of basket ball.

Riding

During the spring term horseback riding was introduced into the girls' athletic program. Much enthusiasm was displayed by the girls over the advent of this new sport, and consequently two afternoons a week were given over to it. The horses and instructors were procured at the "Von Lambeck Riding Academy." The popularity of this sport has been so marked that the Girls' Athletic Association feels sure of its being included hereafter in their regular program.

Hiking

Gladys Colcord

How good it is to seek the unsullied retreat of nature, and there dwell among colors and sounds so beautiful as cannot be bought in the marts of men. To walk and breathe and rest, and be renewed in soul and body. Thus thinking one fine Saturday afternoon in September a number of the girls set forth for the Indian trail at Maplewood Park.

Equipped with the new outdoor cooking set which had just been purchased by the Girls' Athletic Association, as well as lots of food, which is the prerequisite of every hike, the girls started on their journey. What a glorious afternoon it was, the sun sifted down thru the leaves on autumn trees, and the smell of fresh earth and flowers was an invitation from nature to leave the cares of school life behind and be her children once again. At the end of the trail is the Lake, which is a wonderful setting planned by nature, and may be enjoyed by everyone. After sitting and growing accustomed to the surroundings, the more energetic ones built a campfire. Soon the aroma of coffee and sizzling hot dogs reached the nostrils of the hungry hikers, who gathered around the fire and did justice to the food.

This hike proved so successful that three others were planned. The hikers next going for a jaunt over Pinnacle Ridge, which is one of Rochester's most picturesque spots. At all these hikes dusk came too soon and it was with reluctance that the girls started for home. Aye, a little tired and weary, perhaps, but refreshed in body and mind, ready to take up with more zeal the duties of the following week.

A Day at the Practice House

(These little scenes are not intended to form a connected play. They are simply intended to show the life of the practice house family for a single day.)

CHARACTERS

MISS PLEASANTS

Hostess or housekeeper

First Maid

Laundress

Cook

Chaperon

Parts played by Girls of Home Economics Dept.

(If scenes can be given near a business section so that there is plenty of smoke, etc., from business blocks, no camouflage will be needed to produce the desired setting.)

(As the curtain rises the family have just finished eating their breakfast and about to resume their household tasks.)

Chaperon: "How many of you have 8:20 classes this morning?"

Chorus: "We all do."

Cook: (talking to hostess who is cleaning living room) "What is the menu today? Anything which has to be cooked before classes begin?"

Hostess: "Oh didn't I hang the card on the nail out in the kitchen? Well, for lunch its Cheese Souffle, Fruit salad, Bread and Butter and Milk."

Cook: "All right, I'd better go and make the mayonnaise then."

Chaperon to housekeeper: "If you are going downtown today, you ought to mail the egg crate."

Hostess: "I'll do that this afternoon."

Laundress to first Maid: "I'll be finished making the beds and cleaning the rooms before you finish washing the dishes."

First Maid: "Oh, it won't take me very long. It will be you who will have to hurry as you have four bedrooms to put in order." (Short lapse of time.)

Hostess: "If we are all finished with our work, we had better start for school; it's 8:15." (The girls get their books for school as the curtain falls.)

Living Room of House.

Time: Afternoon of same day.

Hostess: "Well, I'm going shopping and I wish one of you would go to help carry home the bundles. Gee, girls, don't you wish we had a 'flivver?' Then there wouldn't have to be nearly so many trips to the stores."

Cook: "As we haven't one, I wish you would hurry up and go after the groceries so I can plan my work for the afternoon. I've started the steamed Pudding for dinner tonight."

Laundress: "Come on, Maid. We might as well begin washing. We ought to be able to have time to go to the library to study before dinner as some of the 'dorm' girls are coming over tonight." (Short lapse of time.)

Hostess: Starts on way and passes Laundress and Maid who are carrying clothes basket of clothes to the laundry and says: "Do you girls enjoy your work at the Institute?"

Chorus from all: "We sure do."

Same Setting as before

Time: Evening—Company arrived

Hostess: "Let's all sit around the fire and toast marshmallows."

(A ringing of telephone bell is heard.)

First Maid: (Leaves room, and on entering a few minutes later announces: "Miss Pleasants, it is for you.")

First Guest: "Who has the marshmallows?"

Chaperon: "I am sorry, girls, I will be unable to be with you this evening. I am going out." Exit Miss Pleasants.

Hostess: "Somebody start the victrola."

(Curtain falls for one minute representing Two Hours later.)

(Rises when guests have left.)

Hostess to family: "We must straighten the rooms around now so everything will be arranged for the morning."

(Family busily re-arranging room, singing "Home Sweet Home" as curtain falls.)

G. Pay, "I hear George Lent is Vice-President of the Dormitory."

E. Porter, "Yea'h, how come?"

G. Pay, "Why! Isn't he right after the President?"

Pay Day 1922

Promptly at 12:30 on May 24th, four street cars filled with M. I. students left Church and Fitzhugh streets bound for Sea Breeze. Everyone was happy as everyone should be when all that goes to make up the daily routine is cast aside in favor of an honest-to-goodness picnic under a faultless sky.

George Wickman, the committee chairman, had obtained a good coach from the Y.M.C.A. to run off the team games, and races.

Phi Sigma Phi won a five-inning baseball game from Chi Delta Phi, 6-3. The single men of the Faculty lost a five-inning indoor game to the married men because the latter tottered on the diamond arrayed in dainty boudoir caps and aprons which had a most upsetting influence on their opponents.

After an appetizing lunch, and after resting a bit we were in fine shape to cavort to the tune of Knop's "Silent Six" in Dreamland wishing that eleven o'clock would never come.

It did and we went home sorry, but happy.

Carnival 1922

On December 15th at 7:15 the doors of the Eastman Building were thrown open to receive the crowd for the annual Carnival.

The clever stunts contributed by the various organizations were all to be commended.

The Art League staged a show wherein the dancing proved to be of the type not easily forgotten.

The Dramatic Club billed a true-to-life comedy known as "Mrs. Jenkins Boarding House."

The Dorm Girls proved that 102 Spring Street was not so slow by putting out a bit of Gallagher and Shean.

The Federal Board Club drew checks on a Minstrel Show, while Chi Epsilon Phi showed the latest developments in pugilistic movements.

Phi Sigma Phi "sheiked" their audience into an Oriental show, while their neighbors the Seniors assisted by "Silent Ledden" mystified theirs with a magic show.

Eta Beta Pi vended candy, etc. in the hall.

Chi Delta Phi closed the historical event in Bevier with the Midnight Frolic.

CHI DELTA PHI BASKETBALL TEAM

Fraternity-Alumni Mardi-Gras

The third annual Inter-fraternal Mardi Gras was held on Friday Evening, March 16, 1923. This year the Mardi Gras was combined with the Alumni Basketball game, thus making it a more eventful evening. Hereafter this mid-year celebration will be known as the "Fraternity-Alumni Mardi-Gras."

The first thing on the program was the annual Basketball game between Phi Sigma Phi and Chi Delta Phi Fraternities, the latter winning by a score of 12 to 8.

Following this game, Dean and Mrs. Johns were presented with a small truck load of wooden articles in honor of their fifth wedding anniversary which happened to fall on the same date. The Dean responded in a fitting manner and in company with Mrs. Johns, made a circuit of the hall, drawing his load of offerings behind him amid the rousing cheers of the students.

The next number was a comedy game, a picture of which appears at the bottom of the page and which caused a lot of merriment.

After the Comedy Game, the Alumni Basketball team, composed of "Steve Brodie" and "Fat Baker" of 1915-16-17, Mansfield and Nichols of 1918-19-20, Kurtz and Hanna of 1920-21 and Ed. Riggs of 1920-21-22 played the School team. They made a great fight the first half, the score being 16 to 11 with the Alumni at the small end, but the last half was marked with frequent rest periods and the final score was 32 to 18 in favor of the School Team.

There was dancing after the games with music by Fitzgeralds Orchestra. The Grand March was led by President Randall, the line passing the check room where they received confetti, serpentines, hats and other favors, then on to the floor again which was soon a wilderness of confetti and serpentines lighted by colored lights. The dancing continued until one o'clock.

There were about 350 present, including the Alumni and next year it is hoped to make it a larger and livelier get-together than old M. I. has ever before experienced.

M. I. Hall of Fame

BY authority of the power invested in us, we take great pleasure in submitting the results of the annual elections to Mechanics Institute Hall of Fame.

BOARD OF ELECTORS.

The Most Popular

Much competition was noted in this, and until the time to close the polls, the outcome was much in doubt. Ballots cast for the Postman, Mr. Durand of Durand's Boat House, and the Cashier, were declared void because of no connections with the Student Body. Arthur Blanchette drew first place with 57 votes; David Kessler, second with 56, and Grace Peck third with 53. The following also ran: Mandy McGill, Gertrude Knoepfel, Marvin Carter, Andrew Doyle; while Miss Helen Stoutenburgh received honorable mention—(popular as Babbitts' Soap).

The Most Ambitious

What drives a person on to greater heights in this world? Ambition! Dorothy King becomes Queen Ambition, breaking the tape with 36 ballots—a perfect score. Frank Cushner was second with 32 and Helen Sekol third with 30. Other ambitious ones were Martin Barry, Louise Lewis, Whitcomb Pollard, Kenneth Winship, and Lucy Cardwell.

The Laziest

To be lazy and suffer for it is unthinkable, but to be lazy and get away with it is marvelous. Many nominations for this particular place were received and because of this we will submit first, second, and third places only. Harold Reid lead the large field of contestants by a margin of 25 ballots. Jack Slavin copped second, while Nell Marion Garling came puffing in with third.

The Most Athletic

It is a poor election that does not have its dark horse. After stumbling along all day Jack Slavin steamed into first place and took the count with 63 votes. His nearest rival was Adelaide Vincent with 49 scraps of paper. Doris Baltzell followed as third with 45, and honorable mentions were licked up by the following: Hugh Redpath, John Judge, Gunnar Wiig, and Gladys Colcord.

The Most Popular Instructor

Popularity like a teakettle is apt to boil over so hold your seats while we announce the winner. Miss Marion Rich upholds the "Blue Ribbon" place with the grand total of 65 tickets. Charles D. Gates is second with

59 and Hendrik VanIngen limped into third with 38. To keep peace in the family we will not submit the other nominations.

The Brainiest

To be all brains and nothing else is not so good, but to mix brains with personality is the making of a "Henry Lomber." Doris Baltzell is given the place as highest. Charles Tibell is higher, and Lee Sherwood is high. No other nominations. *Carl*

The Greatest Bluffer

Kenneth Winship took the count for 58 tickets. Winship seems to be King Bluff himself for his nearest rival is Marion Griffith with 12 ballots. Other Bluffers are:— Alice Taggart with 8, Arthur Neff 5, Marjorie Esley 2, Rosalie Herbrecht 1, Dewey Powers $\frac{1}{2}$.

The Most Musical

Many of us disagree on music. Music is the pleasing sound of harmonious vibrations. Whether it is from an instrument, person, a bird, or a squeaky rocking chair, make no difference. Even the cat's meow is music to the cat even if it isn't to us. We take great pleasure in announcing Arthur Dickenson as the winner. Clink Stedman holds up second and William Powell carries third. Other musicians receiving awards are: Howard Simmons, DeSales McMillan, Marion Tuthill, Eloise Burns, and Bertha Catchpole.

The Girls' Favorite

This is a delicate proposition, but results are results. School popularity is like soda water—it effervesces very readily. Ben Trobia seems to be the greatest favorite with 53 smacks. Frank Napoli is second and Stephen Kraskiewicz third. Other would-be "Valentinos" withdrew before the polls closed.

The Most Popular Building on the Campus

Here we have a surprise. The Dorm long known as *the only* building enclosed by Plymouth, Spring, and Washington has been ousted by the Practice House. Just why this is, cannot now be decided, but there has long been a feeling of superiority expressed by the girls who live at the little Colonial Dwelling, over the girls of the six-story apartments. The power house came second with a vote of 39.5 and the M. I. C. A. third with a measly 5. Some droll individual voted for the side porch of the School of Optometry thinking perhaps that it would pull a booby prize.

Favorite Expressions of the Faculty of the Home Economics Department

"When duty whispers low 'thou must,' the youth replies 'I can'."

"Now we will make a little chart for these biscuit girls."

"That is because you have a mixed complexion."

"If you will pardon a concrete example—when I was at the University of Chicago."

Give me experimental evidence see "Matthews", "Lusk," "Hawk" and Mrs. Rose's "Dietetics for High Schools."

"If you will bring some pieces of worsted to class we will make some little wool flowers."

"That rug is mulberry if you get the right light on it. Of course you have to hold your head at the right angle."

"Ease the lace on the little garment."

"I think its Shakespear who says, 'The crow doth sing as sweetly as the lark when neither is attended'."

"Clear the boards for action."

"That book is late, you will have to pay a fine."

"Have you your report ready for that last dinner yet?"

☞ ☞ ☞

Kessler—"Someone give me a good example of an illusion."

Gert (thoughtfully)—I woke up this morning, Professor, thinking it was early, but it was late.

☞ ☞ ☞

Mandy fell down the steps of Bevier with her arms full of artist's materials. (Sherwood, assisting her to her feet) "Are you hurt much?"

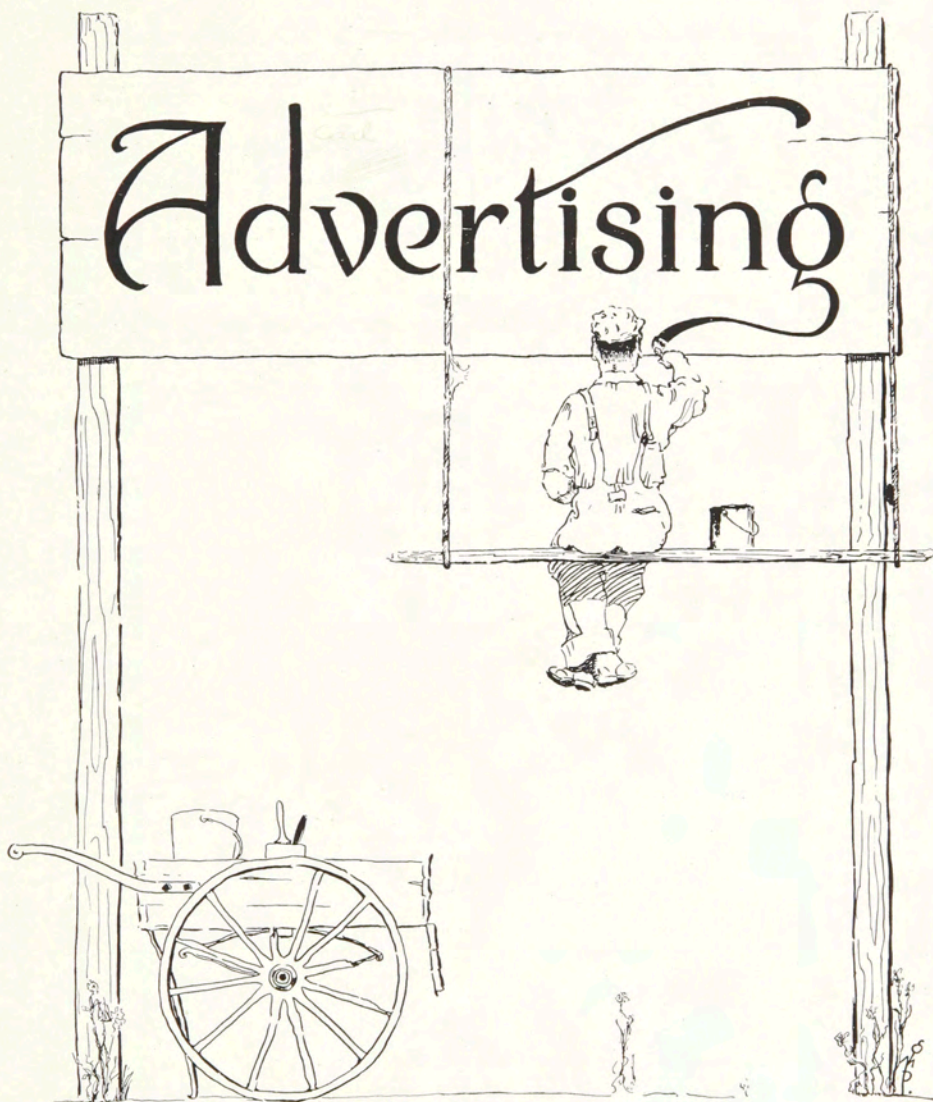

Mandy: "Only three ribs broken, but I went down with flying colors, didn't I?"

☞ ☞ ☞

Voll in P. S.—Gentlemen of the jury, if there ever was a case which more than any other case, challenged careful comparison with similar cases this case is the case.

☞ ☞ ☞

Slavin says that Mr. Burt doesn't seriously object to your looking at your watch occasionally, but he does get cantankerous if you put it earward to find out whether it is still functioning.

Ben Franklin said:

“**A** YOUNG man may be neat and clean even though he be poor. His clothes may be shabby, but that is no reason why his person and his linen should not be clean. Appearances do count.”

Franklin was right. Appearances do count in many ways. Wear clean linen, the Swiss Laundry Quality kind, and see what it does to help you along.

“Sprinter?”
“No, hobo.”

A Bosom Friend

You came to me all fair and lily-white,

As pure as crystal from a virgin-mine.

By right of purchase, you were mine that night,

And on my breast you softly rested thine.

My arms through yours so gladly did I twine;

You pleased me—but my heart went to a flirt.

You clung to me, but she had lips like wine.

Still, thanks to thee, my freshly-laundered shirt!
