

TECHMILA 1990

Rochester Institute of Technology

Techmila Staff

Banick

Banick

Row 1: Chris Hauf, Darkroom Technician; Kirstin Jones, Editor-in-Chief; Jennifer Kuplinski, Secretary; Keara Johnson, Head Interoffice Coordinator; Scott Saldinger, Managing Editor; Leslie Lord, Design Staff Row 2: Pati Forshay, Business Manager; Karen Schwartz, Design Editor; Georgiana Mazza, Secretary; Janice Au Yeung, Secretary; Rich Banick, Photo Editor

Well once again it has been an interesting year at RIT and the Techmila staff has been able to collect it and bring it together in one simple package. Hopefully the photos will bring back memories of the year past to everyone who sees this book. College is an important part of life and our staff tries to preserve it each year as something you can take home. Of course we can't show every aspect of school nor every person, but I hope there are parts that everyone can relate to. Remember you must bring your memories to the book to give it meaning, that's something that we cannot do, it is up to you to complete the book. Anyways, I had a great four years, and made Techmila, CAB, and Senior Night very important parts of my college life. I will miss the involvement and the work, but especially all of the people that were there with me. Thanks everyone. Love Kir.

Jones

Lighting the Quarter Mile

Hauf

Hauf

This year for the first time the campus joined in a giant celebration of the Holiday season. Thousands of lights covered the pine trees that line the infamous quarter mile from the dorms to the academic side of campus for everyone to enjoy.

Hauf

Vegas Night

Hauf

Hauf

Once again RHA presented Vegas Night, where students can gamble with make-believe money, but walk home with real prizes at the end of the night.

Open Forum with President Rose

Open discussion with the President of the Institute seems almost a dream come true, where else can you get the real answers. That evening Dr. Rose made every effort to answer the questions and concerns of the students, to assure everyone that the student is the Number One PrioRITy to him.

Missing: Dwayne Henry

This year's competitions resulted in winning seasons for Men's Soccer, Hockey, and Basketball and also for Volleyball, Lacrosse, and others teams. Championship and individual athlete honors were not at a minimum either. The Men's Soccer, Cross Country and Volleyball teams all succeeded in capturing championships in various divisions. Individual awards and honors were given to the most skilled athletes that RIT had to offer from All American and MVP to Honorary Societies rewarding both athletics and academics. The students who participate and even those who only spectate owe thanks to the coaches who make the entire athletics program possible.

Class of 1990—

You're looking great!

**Class of 1991—
it's your turn now!**

Looking Good isn't everything to you. But it's the only thing our creative photographers focus on. We will take the time to make sure you look great in your senior portrait—at a price you can afford.

VardenTM Portrait Studios
Official Photographer Class of 1990

Why It Pays to Keep in Touch

1. You Never Know Who Might Be Looking For You

Now that you've graduated from RIT, your career could take you across the country or around the world. Make sure Alumni House can tell old friends and favorite teachers how to track you down.

2. We Keep Track of Career Opportunities

If there's a hot job opening in your field, RIT probably knows about it. And we'll tell you about it. All you have to do is ask.

3. You'll Hear What's Happening at RIT

As an RIT graduate you're part of a professional network of about 58,000 alumni. We want to keep each and every one of you informed about RIT through *Alumni News* and other publications and mailings.

Congratulations and Best Wishes to the Class of 1988!

Call us anytime at **716-475-ALUM** or **716-475-2764 (TDD)**, or write to the address below. Hope to hear from you soon.

WHEREVER YOU'RE FROM IS OUR PART OF THE COUNTRY

We're Comstock, Blue Boy and Silver Floss to New Yorkers, Nalley's in the Northwest, McKenzie's in Dixie, Brooks back home in Indiana, Bernstein's in California, and 3 Minute Brand to Iowans.

We're the #1 seller of fruit fillings, the #1 supplier of southern vegetables, and the #1 processor of sauerkraut nationwide. We're good snacks, popcorn, frozen and canned vegetables, cereals, microwave meals and desserts sold by regional brands.

We're Curtice Burns—satisfying your appetite for quality—wherever you're from, wherever you go.

Computers

Digital, the worldwide leader in networked computers, offers a full range of hardware and software products, from the desktop, to mid-range, to large scale computers, that can be easily integrated into a single computing environment. With the proven ability to enhance enterprise-wide communications and with more proven networks in place than anyone else, we provide an elegantly simple way for your people to work together more productively, more creatively, more efficiently and more competitively than ever before.

For more information contact the Digital sales office near you.

**Every day,
Hewlett-Packard
helps IBM,
DEC and Sun
realize their
true potential.**

What if...

We've been planning it for years. A way to make your present computers work hand in glove with HP systems. So we can build multi-vendor networks that let your departments function as a perfect team.

Our system is as advanced as its name: AdvanceNet. For the first time, it provides the connections you need to integrate PCs, servers, minicomputers and mainframes. In a single office or around the world.

Only HP has what it takes to build systems like this. Powerful computers, instruments, software, printers and plotters. And networking to keep the information flowing.

One key part of the plan made it possible: the decision to design around standards. That protects your investment today and far into the future.

Call us at (716) 223-9950, Ext. 613. We'll show you how to make the most of your potential.

MYTH: At NSA, you must choose one specialty and then stick with it.

FACT: NSA encourages you to diversify.

Many myths have arisen about careers at the National Security Agency. The facts, however, are these:

- NSA has broad and challenging opportunities for MATHEMATICIANS, ELECTRONIC ENGINEERS, and COMPUTER SCIENTISTS.
- NSA opportunities allow you to diversify your experience. You can move around within the agency and try different disciplines—we'll even train you for each transition.
- NSA plays a key role in protecting our national security. We process foreign intelligence information... safeguard our government's communications... and secure our nation's computer systems.
- NSA work involves leading edge research and the latest technology. Our computer complex is among the largest in the world. Our work in communications sets the pace for the industry.
- NSA salaries are competitive.
- NSA offers much more than job security. Benefits include paid vacation and holidays, insurance options and tuition reimbursement. In addition, our employees enjoy the attractive lifestyle of the Baltimore-Washington area.
- NSA performs work that is critical to our nation's security. It is work you'll be proud to do.

For more facts, or to apply, send your resume today.

NSA. The opportunities are no secret.

**RADEC knows
electrical...**

One of the key assets sought in construction today is experience. Radek has meant quality commercial/industrial electrical construction throughout New York State for the past 20 years.

Now you know...

Call Radek for full service electrical, instrumentation, controls, and CADD contracting.

**RADEC knows
controls...**

We get excited about large scale machine and process control installations. We've even developed our own computer tasking system to make the "impossible" fit into our clients' time windows. Control panels? Our 7,000 sq. ft. shop produces electrical and pneumatic panels that ship worldwide.

Electrical Construction/Controls/Instrumentation

RADEC
CORPORATION

**RADEC knows
instrumentation...**

This is where we stand alone. The best in NBS traceable equipment in the hands of our cross-trained instrument people. Instrument installation, tubing and calibration capability round out this powerful team.

Vol: \$3,000,000-\$6,000,000
Average Job Size: \$300,000
Project Range: \$30,000-\$3,000,000

Parker

Parker

Parker

We are the *Gas Turbine Fuel Systems Division* of the Parker-Bertea Aerospace Group of Parker Hannifin Corporation! Parker is a world leader in the design, manufacture and distribution of fluid power components and systems, and automotive original equipment and aftermarket products, serving industrial, aerospace and automotive aftermarkets worldwide. Optimum use of our assets enables us to out-design, out-produce and out-sell our competitors, and helps Parker meet the needs of today's advancing technology. The Company focuses its efforts on providing the world's most complete line of components for the conveyance and control of pressurized liquids and gases to perform useful work. The Aerospace Group manufactures components and systems for aircraft and space vehicles, including fuel systems, pressure and temperature controls, hydraulic systems for landing gear control, power steering, wheels and brakes, servo actuator systems, and flight controls. The *Gas Turbine Fuel Systems Division* designs, manufactures, and sells high quality fuel injection nozzles to jet engine manufacturers. We are the world's leading supplier in nozzles, augmentors, manifolds, valves and controls. Our Division has some 1000 employees in our technically creative facilities in Clyde, NY; Cleveland and Andover, OH; and Goodyear, AZ. Our Aerospace Group has in excess of 5700 employees spread throughout 13 divisions in 25 locations and 6 states.

If you are interested in considering an exciting aerospace career with a Pro-Employee/Participative Management Corporation... **THINK PARKER.** We may have the right opportunity for you.!

BRUCE CAREY

When it comes to your career, we are really something else.

General Mills Restaurants, Inc.

- We are Red Lobster and The Olive Garden and York's Family Restaurants.
- We are thousands of hard working and very successful people—creating career growth every single day of the year.
- We are an opportunity to learn and develop while you work side by side with the best in the business.
- We understand the business and what you are looking for to achieve success.
- We are profitable, stable, expanding, and truly challenging.

Compared to others in the restaurant industry, we are really something else. In fact, we are setting the standards.

Opportunities for managers are available right now within each of our concepts. There are many markets to choose from. And for each of you, the training is exceptional.

If you'd like to talk about an opportunity that is really something else, get in touch.

See us when we visit campus or send a resume to: **Employment Department, General Mills Restaurants, Inc., P.O. Box 593330, Orlando, FL 32859-3330.** We are an equal opportunity employer.

You've Spent Thousands Of Dollars On Sophisticated Computer Systems.

Don't You Deserve Software That's Geared Specifically To Your Needs?

Yes, you do. The competition out there is stiff these days, and having that edge can sometimes make the difference between getting the work and just missing out.

You've already invested a lot of money in computer equipment...wouldn't customized software programs geared specifically to your company's needs make that purchase worthwhile? At LPA Software we can design customized applications for a variety of different areas, including finance, distribution, manufacturing and marketing. Our client list includes such companies as Eastman Kodak, Xerox, and IBM, so you know we can handle any needs that come up.

Let LPA explain to you how effective, efficient and profitable customized computer software can be for your company.

Why Maxim?

In choosing your first job, shouldn't your first question be, "Why should I choose this company over all others?"

At Maxim, we're working on some of the toughest problems in the following areas: satellite communications, information processing, radar, and reconnaissance systems. If you want to work with some of the brightest scientists and engineers, people creating breakthrough technology, look to Maxim.

At Maxim, we're working on developing hardware — actually evolving new equipment to test our advanced theories. If you want to work on the scientific edge of discovery, look to Maxim.

In addition, we offer our employees a focused environment where stock participation and excellent salaries and benefits attract top professionals. If you want to have a stake in our future growth and yours, look to Maxim.

Our Corporate Headquarters is just a few miles South of Stanford. To learn more send your resume to: **MAXIM Technologies, Inc., Dept: STFD., 3930 Freedom Circle, Santa Clara, CA 95054; or phone Dave Thomas at (408) 748-1130.** An equal opportunity employer. U.S. Citizenship Required.

Why not!

Remember how concerned you were about choosing the right school?

NCR

Now it's time to pick the right company. And you need to ask yourself the right questions. Will I find the right fit? Will I grow? How will the company help me attain my career goals? In other words, what kind of future is in store for me?

NCR has designed a variety of programs that identify top performers, determine the role where you'll do best, and assist in moving you up to management or through the technical ranks. We can truly say that we have one of the industry's most comprehensive educational and development programs.

NCR offers you exceptional career advantages. Excellent salary, outstanding benefits, highest caliber professional colleagues and an enlightened, supportive management style. With the financial and technical strengths of our innovative multi-billion dollar organization to back up your career.

If you're graduating with a Bachelor's or Master's degree, we'd like the chance to tell you more about your bright future with us. We have challenging opportunities in Software and Hardware Development, Systems Design, Systems Support, Sales, Manufacturing, Finance and Administration.

See your Placement Office to set up an interview, or write to us detailing your background. College Relations Coordinator, NCR Corporation, Dayton, Ohio 45479. Of course, we're an equal opportunity employer.

NCR... people working together to create value.

For The Good Of The Whole, We Do Our Part

We at Chase Lincoln First Bank are committed to improving our community and the daily lives of its people. Both corporately and through the good works of our own employee volunteers, we support dozens of national, state, and local organizations who care. We hope you do, too.

Help create the first 21st century company.

Apple Computer, Inc. has always been a little ahead of its time. From the introduction of the first popular personal computer, to the first system to use graphical user interface, to the first desktop publishing system, our goal has always been the same: to change the world with computers.

That goal results in a company that is every bit as advanced as its products. In many ways, Apple is well on its way to becoming the first 21st century company in the Fortune 500.

Where the typical company emphasizes hierarchy, at Apple we stress networks. Instead of mandates coming down from the top, ideas percolate throughout the organization. We give our people unusual amounts of responsibility. Extraordinary tools to let them do their best work. And an eclectic environment conducive to changing the world.

Add to that unusual environment all of the resources a major corporation can provide. Sophisticated management. Astute marketing. International distribution. And you have the elements of the first company of the next century: Apple.

If you're ready to lead the way beyond the year 2001, and you want to do it in technical sales/marketing, finance, or engineering, consider yourself welcome. Join the people who think like you do.

Send your resume now to APPLE COMPUTER, INC., Human Resources, Dept. SQ, MS-9C, 20525 Mariani Avenue, Cupertino, CA 95014. An equal opportunity employer.

The power to be your best.™

©1988 Apple Computer, Inc. Apple and the Apple logo are registered trademarks of Apple Computer, Inc.

Why would you want to work for Johnson Controls?

There's no point in leaving your career to chance. . . so use our checklist to see how you'll profit from a career with Johnson Controls.

Look at stability; Johnson Controls has been successful for over a century, and our future looks better than ever. Look at our systems—energy management, building automation, fire protection, security. Look at the way we respond to our markets' needs for integration, ease of use, adaptability to change. Look at the opportunity, professionalism, and growth you'll enjoy where your ideas get a thorough hearing, where you get feedback on your achievements, where your career aspirations are part of the planning process.

And then look at your choices for location. 100 Branch Offices throughout North America, each offering our customers full service capabilities—sales, application and service. A headquarters facility in Milwaukee where product development, design, marketing and technical support complement our Branch Offices.

We are always looking for individuals with the desire to excel. We have opportunities available for engineering, marketing and business professionals with undergraduate and graduate degrees.

For information on how you can become a part of the dynamic world of Johnson Controls, write: **JOHNSON CONTROLS, INC., C. Reynolds, M-17, Reply #SUQY-1, 507 E. Michigan Street, P.O. Box 423, Milwaukee, WI 53201. An Equal Opportunity Employer M/F/H.**

HARDCORE SOFTWARE

OK. Enough theory. It's time to get hardcore about your career in software. With Microsoft.

We'll give you all the resources you want. Tens of millions in R&D funding. Along with one of the most elementary tools for thinking — a door, leading to your own private office. All backed by management that truly *does* speak your language, because they probably helped write it.

We're serious about software design. If you are, too, now you know the perfect place to start — Microsoft.

Software Design Engineers

We're working on everything from compilers, operating systems, and networking to sophisticated graphics, powerful productivity software, CD-ROM technologies and some things that can't be mentioned in print. You could be, too, if you're about to graduate with a BS in Computer Science, Math, or a related major, with provable understanding of micros, "C", the 8086 family, UNIXTM/XENIX[®], or MS-DOS[®].

Here's How to Get Hardcore.

Join Microsoft, and you'll not only have the opportunity to work with the world leader in microcomputer software, but also the opportunity to live in the beautiful Seattle area. And, while you've probably heard a lot about the gorgeous scenery around Puget Sound, you may not know that Seattle boasts the most active live theater west of Broadway. A cultural calendar filled with everything from film festivals to jazz concerts. As well as major league baseball, football and basketball.

To all of that, Microsoft adds a stunning modern campus, with amenities such as workout facilities, a parcourse and membership in a nearby health club. Plus an array of benefits.

How do you get hardcore? Begin by sending your resume to College Relations, Dept. QUAD, MICROSOFT CORPORATION, 16011 N.E. 36th Way, P.O. Box 97017, Redmond, WA 98073-9717. We are an equal opportunity employer.

Microsoft[®]

Trademarks are registered to their respective companies.

TO THE GRADUATING CLASS OF 1988 — CONGRATULATIONS

Starting with the introduction of the Z-80 microprocessor in 1976, Zilog has stood at the forefront of Integrated Circuit Engineering and product creativity.

Zilog, in our continued commitment to provide customers with the most advanced and cost-effective solutions to their design requirements, has developed the advanced CMOS VLSI Technology needed to integrate more microprocessor and peripheral functions onto a single silicon chip. The benefits are numerous: lower product cost, reduced device size, higher reliability, reduced assembly and test costs, and lower power dissipation.

For Zilog 1988 should show record sales, profits, and order backlog.

If you are interested in learning more about Zilog, contact us. We would like to talk with students who are about to graduate with degrees in:

- Electrical/Electronic Engineering
- Computer Science
- Material Science

Please send your resume to Zilog, Inc., Professional Staffing, Dept. CS, 210 Hacienda Avenue, Campbell, CA 95008. An Equal Opportunity Employer.

EXON Corporation

The Intel Influence

**We're everywhere.
In microelectronic systems.
Components. And business.
And we can help you launch a
great career at a company
that sets the standards.
For ourselves and virtually
everyone else.**

Intel. A name that stands for excitement and technological innovation. Let us be your springboard to the future.

At Intel, we've created one microelectronic "first" after another. In order to further our leadership role, we seek high achieving college graduates, like you, about to take that all important first step.

Over the past two decades, our standards have influenced the way our industry thinks and performs. So if you have a technical or business degree, enjoy challenge and have a desire to excel, come to Intel. A company where your efforts will make a big difference.

See us on campus or send your resume to College Relations at the Intel location of your choice.

TEAM UP WITH THE BEST

To have an impact on the communications revolution, you need full research and development capabilities on your team — plus expertise in applying the newest findings to a vast and rapidly growing market.

That's why the best application for your degree is the team of Northern Telecom and BNR (Bell-Northern Research).

BNR's technical excellence has helped to make Northern Telecom the world's largest supplier of fully digital telecommunications equipment. Northern Telecom's full-range of communications products represents theoretical advancements proven in everyday use.

This is the team which set the course of the industry toward a digital standard. This is the team which is leading the integration of voice, data and image information in fully compatible systems. This is the team to join to assure your career growth now and later.

To find out more information on our career opportunities send your resume to: BNR, Professional Staffing, MS-C100, 685A E. Middlefield Road, P.O. Box 7277, Mountain View, CA 94034-7277.

Northern Telecom and BNR are equal opportunity employers.
