## Sunshine History

Sunshine 2.0 is a 21st century reboot of Sunshine Too, a similar on-the-road performing arts program that was established in 1980 and, during its 19-year history, visited 48 states, Canada, Denmark, England, Finland, Israel and Japan, presenting programs developed around the themes of deaf awareness, social issues and the environment. The troupe provided more than 12,500 performances for more than 1.3 million people worldwide.

## From the Producer

Sunshine 2.0 is on the road! This traveling road  
show offers performances for children, teenagers  
and the community at large. Workshops and  
performances provide educational opportunities  
for audience members to learn from each  
other, make discoveries in STEM fields and gain  
new awareness. Our engaging shows provide  
valuable insights into the human condition and  
demonstrate how hearing and deaf people can  
interact and engage with one another.

We hope you come to see us in action when we  
are in your neighborhood!

*Sincerely,*  
*Aaron Kelstone*
