Business

A hand holding a blue pen points to a bar chart on a document. The chart has several bars in blue, red, and yellow. A line graph with red and green lines is also visible in the background.

DELIVER FINANCIAL CONFIDENCE TO INSPIRE SUCCESS

Master of Science in Finance

Unlock the finance world, encompassing corporate finance, investment management, banking, insurance, and consulting. Leverage the resources of a top technology university at RIT to command newly emerging fintech trends with the revised STEM-designated finance program. International students qualify to apply for a F-1 STEM-OPT work extension which can extend their total work eligibility up to three years. The curriculum is designed for graduates to take the Chartered Financial Analyst (CFA) exam.

STEM-OPT Visa Eligible

**Business +
Technology
Unlocked**

You are **backed by a Finance Advisory Board** of industry professionals that work to ensure excellence in finance. This highly flexible program enables students to be exposed to software, including R, Python, Tableau, Matlab, SAS and SQL. Having learned financial theories of risk, return and validation, and how to apply them to solve diverse problems, in addition to analytics training, there are a wide range of career options that are available to you.

INNOVATION

CONNECTIONS

EXPERIENCE

PASSIONS

Finance, MS

Rochester Institute of Technology

From the Director

Hao Zhang, Ph.D.

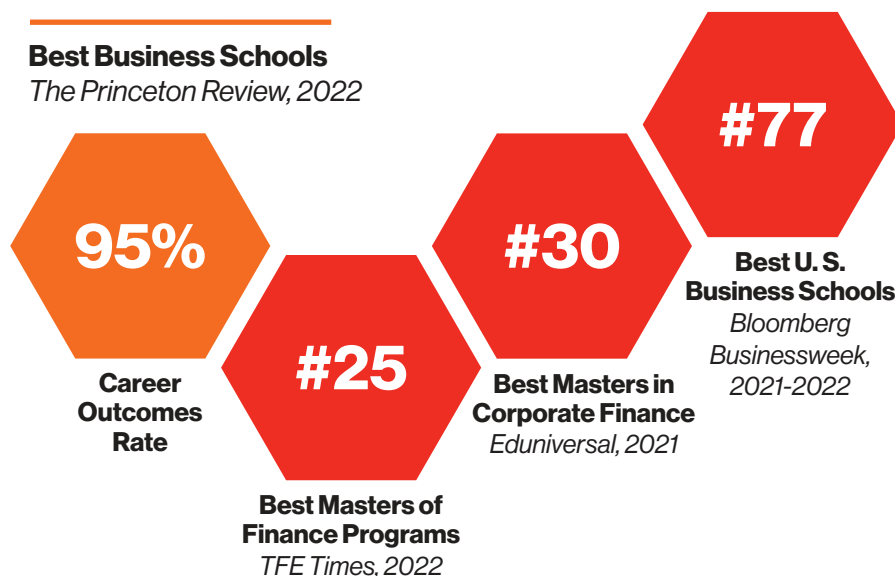

“The program's analytical, deductive nature creates financial professionals who can adapt to dynamic changes in the deregulated financial industry and its dramatic growth in investment options. Its courses prepare students to sit for the Chartered Financial Analyst (CFA) exam. This program is designed for students interested in managerial careers in corporate finance, banking, FinTech, financial consulting, investment analysis and wealth management.”

Job Titles

- > Financial engineer
- > Risk analyst
- > Research associate
- > Quantitative analyst
- > Quantitative investment analyst
- > Credit risk analyst
- > Quantitative strategist
- > Data analyst

Outcomes

Best Business Schools
The Princeton Review, 2022

Backed by a Finance Advisory Board

Saunders Finance Advisory Board members bring industry expertise and guidance from global companies to ensure the highest quality, industry-relevant curricula employers are looking for. The board offers industry experience, mentorship and networking opportunities plus capstone projects, co-op and career options.

Manage Real Investment Portfolio

Join the Finance Management Association club and manage a real investment portfolio of over \$220,000. Students access Bloomberg terminals via the Sklarsky Center for Business Analytics.

Professional Certification

Prepares students to sit for the Chartered Financial Analyst (CFA) exam, a certification highly valued by employers.

Highly Flexible Program Allowing Exploration of Allied Fields

Customize your degree through a wide range of electives from RIT's nine colleges. A powerfully dynamic Saunders curriculum allows you to stand out among your peers by creating unique options among highly recognized and ranked RIT programs.

F-1 OPT STEM 24-Month Work Extension

International students qualify to apply for a 24-month work extension to their Optional Practical Training (OPT) period, allowing for up to three years of work in the United States.
