360 DEGREES OF BUSINESS SUCCESS

Master of Science in Accounting and Analytics

The STEM-designated accounting and analytics program gives you access to apply your skills to any business in any industry, across all borders. Accounting is the universal language that every company requires. Leverage the resources of a top technical university to master accounting information systems and deliver business success. The analytics-infused program is based on expert knowledge shared in various journals and forums, explicit demand of recruiters and our Accounting Advisory Board.

STEM-OPT Visa Eligible

Business + Technology Unlocked

This one-year program helps graduates manage internal and external data related to accounting measurements with easy access to analytics tools as accounting has become technology-infused. International students qualify to apply for an F-1 STEM-OPT work extension which can extend their total work eligibility up to three years.

PASSIONS

Accounting and Analytics, MS

Rochester Institute of Technology

From the Director

“The MS in accounting and analytics program is designed for students who wish to pursue a career in accounting with an analytics focus. The curriculum develops critical thinking and analytical skills that RIT is uniquely able to deliver. Students with or without prior accounting experience can enter the program.”

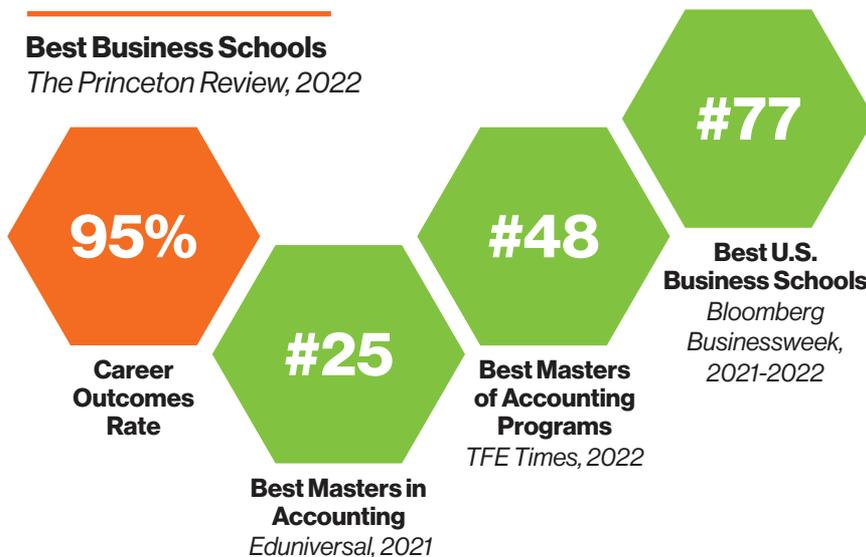

Archana Jain, Ph.D.

Prepare for a Successful Career

Employers seek Saunders accounting graduates for their technical expertise and customer service, to excel and communicate in person with customers, using the latest new media tools online.

Backed by an Accounting Advisory Board

Saunders Accounting Advisory Board members bring industry expertise from global companies to ensure the highest quality, industry-relevant curricula employers are looking for. They offer industry experience, mentorship and networking opportunities; plus capstone projects, co-op and career options.

Develop Analytical Skills in Accounting

Get a solid foundation in business strategy while utilizing state-of-the-art facilities. Learn the latest in accounting information systems at RIT, a leading technical university, with faculty recognized nationally in management information systems.

Work with Technology and Business Analytics

Receive hands-on experience working with Systems Applications and Products (SAP), Blockchain, and data-science oriented computing languages such as R, Python, and Structured Query Language (SQL).

F-1 OPT STEM 24-Month Work Extension

International students qualify to apply for a 24-month work extension to their Optional Practical Training (OPT) period, allowing for up to three years of work in the United States.
