english immersion

The English immersion allows students to study literature and other cultural works, as well as linguistics, and creative writing. The immersion is flexible in order to accommodate student interest in areas such as specific literary historical periods or geographic areas, multimedia and the visual arts, or literary genres and forms such as science fiction, the novel, the short story, poetry, and the graphic novel. Courses in the immersion emphasize the ability to read literature and other mediums analytically and write critically.

required courses
Choose one of the following:
