

RIT
BAJA
SAE

Who We Are:

RIT Baja is a non-profit collegiate off-road race team, organized by the Society of Automotive Engineers (SAE). Each year we compete with hundreds of teams, domestic and international, in three races across North America. Our all-student team shares a common excitement for hands-on experience, and for expanding our knowledge outside the classroom.

RIT Baja members are actively engaged in creating a new car each year, in an open learning environment, using the full engineering design cycle including design, manufacturing, testing and racing the finished vehicle. We are proud to have students of various majors, ages and backgrounds on the team, which enables our members to learn from each other and solve complex engineering problems together
