Overview
Assistantships are awarded to Software Engineering or Data Science Master’s students for a maximum of one (1) academic year (fall and spring terms), starting in the fall term of a given academic year. The student is responsible for all non-tuition educational costs and all degree-related financial obligations that extend beyond the award. Assistantships are not guaranteed to be renewed beyond one academic year.

Roles and Responsibilities
Responsibilities will vary based on the needs of the department. Graduate assistants are not responsible for any direct classroom teaching, but they may provide in-class course or lab support and may tutor students outside of class. Graduate assistants may also work with the department’s professional staff and faculty to support the department’s computing resources and facilities. The typical role graduate assistants fill are as research assistants to faculty members. To retain their position as graduate assistants, students must maintain good academic standing (GPA of at least 3.0) and observe ethical behavior at RIT.

How to Apply
Please submit the following by the application deadline March 31st, 2021:
1. This completed form
2. Resume/CV
3. A statement (no longer than 1 page) summarizing your academic and professional experience in software engineering and/or data science.
4. Letter of recommendation, from either an academic or professional associate
5. Email your application documents to: grad@se.rit.edu
