FRAM SIGNATURE LECTURE

- **2023 Fram Signature Lecture Featuring Natali Valdez, Ph.D. Thinking Critically about Scientific Innovations + Medical Policy: A lecture, case study, and conversation. Co-sponsored with the College of Liberal Arts**

How do advances in science affect health policies and interventions? Do political and social factors either limit or advance the health of certain populations? Medical anthropologist and science and technology scholar Natali Valdez, Ph.D., draws on her research in race, gender, and power in the context of scientific knowledge and her recent book "[Weighing the Future: Race, Science and Pregnancy Trials in the Postgenomic Era](#)" for a talk focused on the relationship between emergent science and health policy. A response by Kristoffer Whitney, Ph.D., associate professor in the College of Liberal Arts Department of Science, Technology, and Society, will open the question and answer session. The conversation continues in the Fireside Lounge during a post-lecture reception. Light refreshments will be served. Come, listen, and participate in an engaging presentation and discussion.
