RIT | Rochester Institute of Technology of Dubai

JOB DESCRIPTION

VISITING FACULTY POSITION IN OPERATIONS MANAGEMENT AND ANALYTICS

JOB DETAILS			
Position Title:	**Visiting Faculty Position in Operations Management and Analytics**	**Grade**	
Department/Division:	**Business and Management**		
Reports to:	**Department Chair**		
Supervises:	**None**		
Last Updated on:	**January 21, 2026**		

THE POSITION:

The Department of Business and Management at RIT Dubai is seeking applications for a Visiting Faculty position in Operations and Analytics. This is a teaching-focused role, requiring faculty to deliver up to five courses per semester (total of 10 courses or 30 credit hours per academic year) across undergraduate and graduate programs. Compensation follows RIT Dubai's visiting faculty credit-rate structure.

The ideal candidate will have extensive industry experience and/or a strong publication record in Operations Management, Business Analytics, Supply Chain Management, or related fields. While research and administrative responsibilities are not required, faculty are encouraged to bring industry insights into the classroom to enhance student learning.

KEY RESPONSIBILITIES:

- Teach up to five courses per semester in areas related to Operations Management, Business Analytics and Decision Modeling, and Supply Chain Management.

- Deliver high-quality, practice-oriented instruction with a focus on experiential learning and industry application.

- Guide students on real-world case studies and data-driven decision-making projects.

- Develop and update course materials to reflect emerging trends in operations and analytics.

- Engage with industry partners to bring experiential learning opportunities to students.

- Participate in departmental meetings and contribute to curriculum development as needed.

REQUIRED QUALIFICATIONS:

- A Ph.D. in Operations Management, Business Analytics, Supply Chain Management, Industrial Engineering, or a related field from an accredited institution.
- Demonstrated excellence in university-level teaching.
- Significant industry experience in operations, analytics, supply chain, or decision modeling.
- Strong communication and interpersonal skills with a commitment to student-centered learning.

PREFERRED QUALIFICATIONS:
- Strong publication record in operations, analytics, or supply chain management.
- Experience using analytical tools and software such as Python, R, SQL, Tableau, Power BI, or optimization software.
- Familiarity with data-driven decision-making, predictive modeling, and applied analytics.
- Engagement with industry networks and professional associations.

APPLICATION PROCESS:

The position is credit-rate paid, with compensation per course in accordance with RIT Dubai's visiting faculty pay structure. The contract is for Fall 2026 and Spring 2027 semesters with potential renewal based on performance and institutional needs.

Candidates are invited to submit their applications via email to **careersdubai@rit.edu**. Please include the following materials:

1. A comprehensive CV, including a list of publications, teaching experience, and professional affiliations.
2. A detailed cover letter highlighting your academic, professional, and research accomplishments and alignment with the position requirements.
3. Recent teaching evaluations demonstrating teaching effectiveness.
4. Contact details for three professional references (name, title, institution, email, phone).
5. Any additional supporting documents (e.g., research portfolio, industry certifications, leadership training programs, case studies developed).

Subject Line Format of the Application: [Your Name] – [Position Title]

Applications review will begin immediately and continue until candidates are selected. Only shortlisted candidates will be contacted. For more information please visit RIT Dubai website at www.dubai.rit.edu.
