Psychology Tracks

Students must take 2 courses in each of 2 Interdisciplinary tracks. RIT Dubai student will complete the following tracks:

*** Clinical Psychology**

- Clinical Psychology
- Psychological Testing
- Psychotherapy Disorders

*** Biopsychology**

- Psychophysiology
- Psychopharmacology
- Biological Basis of Mental Disorders

These tracks represent popular fields of research and practice in Psychology to create a career-focused program. Students thus receive an education that provides a strong foundation for employment in related fields or the pursuit of further education through graduate school.

(The main campus offers 3 additional tracks in Developmental Psychology, Cognitive Psychology, and Social Psychology.)

For all categories, courses in red are offered in Dubai

Pretrack Courses

Pretrack courses prepare students for the tracks that they will complete. Students must choose 3 courses from the following list:

*** Biopsychology**

- * Abnormal Psychology
- * Cognitive Psychology

*** Social Psychology**

- * Perception
- * Developmental Psychology

Breadth Courses

Breadth courses give students a broader exposure to different areas of study within Psychology. Students must choose 3 courses from the following list:

* Death & Dying

* History & Systems

* Indus & Org Psyc

* Learning & Bhvr

* Personality

* Psych of Religion

* Positive Psychology

* Human Sexuality

* Health Psychology

* Psych of Women

General Education

The General Education curriculum will help students become knowledgeable and well-educated citizens in their society by giving them a strong foundation in communication and critical thinking. One general education course must be *Writing Intensive (WI)*.

Perspectives

The **perspective** course categories are designed to introduce students to a variety of areas of inquiry that provide ways of knowing about the world. BS Psychology students choose a course for each of the Artistic, Ethical, Global, and Social Perspectives. The 4 math and science perspectives are fulfilled by required courses.

Immersion

An **immersion** is a series of 3 related general education courses. This requirement supports deeper learning within a focus area and in many cases, can lead to an optional Minor with the addition of 2 courses. See the RIT Dubai website for a list of immersions available at the Dubai campus.

RIT 365

This course serves as an interdisciplinary catalyst for first-year students to learn about and access campus resources, services, and opportunities. It is also designed to challenge and encourage relationship-building and campus community life.

Junior Seminar in Psychology

This professional development course is intended to guide students to prepare for their careers. Topics include identifying career interests and values, learning how to effectively search for co-ops and jobs, preparing a resume and CV, interview skills, and professional communication.

Co-operative Education

Students in the psychology degree are required to complete a cooperative education, internship, or research experience. This is normally completed during the summer after the junior year. The co-op experience is completed in a psychology-related field and does not carry academic credit. The co-op is a 350 hour work experience to provide students real-world opportunities to gain skills, pursue career interests, and develop professional networks.
