ISE Tutoring Info

Tutoring and mentoring services are available year round. Advisors in the Kate Gleason College of Engineering and elsewhere at RIT can help you with high school-college transition issues, discover your own learning style, and develop study skills that will optimize your program of study. Tutors are available for every area of study.

Industrial & Systems Engineering: The ISE Department will offer tutoring for most ISEE undergraduate courses, as well as MATH 251 in GLE 1592 (ISE break room). If you are struggling with a class, please contact Amy Neufeglise or a member of the advising team and they will help identify your needs and provide you with resources.

For help in other areas click on the links below to get the most up-to-date schedules.

The Academic Support Center - A good place to start to find most of your tutoring needs

Student Learning, Support & Assessment - This site is your virtual guide to navigate student learning support services at RIT. Whether you are a student, parent, advisor, faculty member or other interested person, this site is designed to help you sort through the various programs and services offered at RIT to support students as they move toward graduation. Check out their video about services too, click on the center image with the arrow on this link.

Chemistry – Find help at: Academic Support Center
