

## Bill of Materials Directions

Name: \_\_\_\_\_

Grades: K-5

**Directions:** Print and use this worksheet to see the steps for the slideshow activity!

### Materials Required:

A few pieces of paper (3 should be good), colored pencils/pencil/pen (**more colors are better!!!**)

### Bicycle Bill of Materials Directions:

We will be using this bike diagram for the activity

1. Get out one piece of paper and use the parts on the bike to try making a Bill of Materials!
  - a. If you need hints, they will be on the bottom of this page.
2. Correct your sheet of paper with the correct answer if you need to fix anything. The solution will be on the second page.
3. Once you're done, you can make a Bill of Materials for something else and even build it yourself!

### Bicycle Bill of Materials Hints:

1. Split the bike into different sections
2. Section Examples: handlebars, tires, body, seat
3. Don't forget the paint!

## Bill of materials solution
