

To: RIT faculty, staff and students

From: Dr. Sandra Johnson, Dr. Jeremy Haefner, Dr. James Watters

Date: May 27, 2015

Subject: Unmanned Aircraft Systems (a.k.a drones)

The local inspector of the Federal Aviation Administration and the Director of Aviation at the Greater Rochester International Airport have informed the administration of RIT that flying any Unmanned Aircraft Systems (UAS) outdoors, regardless of the UAS's size or weight, at any elevation on campus is prohibited. This prohibition applies to all faculty, staff and students.

Your assistance is appreciated as always.
