Tuition Waiver for Family Members of Regular Employees

Instructions for Completing Online Process

Regular employees must complete the online process in Oracle Employee Self-Service in order to receive a Tuition Waiver for eligible family members. Hard copy forms will not be accepted for family members of regular employees other than for courses through the English Language Center and the Academic Success Center. Tuition Waiver is automatic for regular employees (except for courses through the English Language Center and the Academic Success Center).

Adjuncts, retirees, LTD recipients, and surviving family members do not use the online Oracle process. Instead, they need to complete the appropriate Service Request found on the RIT Service Center (RSC) portal.

Requirements Before a Family Member Tuition Waiver Can Be Applied

In order for the eligible family member of an eligible regular employee to receive a Tuition Waiver, you must complete the following steps:

1. Complete the online process as outlined below each academic year.
2. Proof of benefits eligibility must be on file; if not on file, proof must be submitted. Generally, this proof is a marriage certificate for a spouse and a birth certificate showing the employee parent’s name for a child. For more details, refer to the HR website here. We update the HR system with this proof so you will only need to submit it one time for each family member.
3. If the Tuition Waiver is for a tax dependent child whose course of study is undergraduate, you must submit proof of the tax dependent status; the tax dependent proof is a photocopy of the top portion of your most recent federal tax return showing the child’s name. You can block out the Social Security Numbers and information in the income section. We will need this document each year. We update the HR system with this proof so you only need to submit it once per calendar year. We do not need tax dependent verification for a spouse or if the course of study is graduate (for those eligible).

IMPORTANT NOTE about family members enrolled in an accelerated undergraduate/graduate dual degree program (BS/MS)

- If the employee’s adjusted date of hire is before January 1, 2006, the Tuition Waiver will be taxable for graduate courses that count toward the graduate degree; the Tuition Waiver will not be taxable for graduate courses that count toward the undergraduate degree.
- If the employee’s adjusted date of hire is on or after January 1, 2006, the Tuition Waiver is available only when the student’s enrollment status is undergraduate. Once the enrollment status changes to graduate, there will be no further Tuition Waiver, even for undergraduate classes.
