Subject: Introduction - RIT Suggestion Program
Date: Tuesday, March 10, 2015 12:31:42 PM

Dear Colleagues,

As RIT continues to improve the educational experience for our students, we are turning to the RIT community looking for innovative ideas. At President Destler's request, we've launched the new RIT Suggestion Program and are encouraging the entire RIT community to share their ideas that will benefit RIT by either reducing costs or generating revenue.

RIT faculty, staff and students are eligible to participate, either as a group or individually. Each suggestion submitted will be reviewed by the newly formed RIT Suggestion Program Committee (comprised of faculty and staff) and evaluated by RIT departments pertaining to the suggestion. Employee suggestions that meet the program criteria may be eligible for an award.

For more information, please visit the program site at <http://rit.edu/suggestions>

Thank you for your suggestions.
